WETSUITS

## UNLEASH YOUR SWIM

2XU is proud to engineer the most refined triathlon wetsuits on the planet.

Crafted with world-leading Japanese Yamamoto neoprene, 2XU's highly acclaimed wetsuit range features rollbar technology, a 520% stretch lining, front buoyancy panels and a hydrodynamic silicone coating.

With the most buoyant neoprene on the market, 2XU wetsuits provide open water swimmers with the power to perform against the competition.

An intelligent design and flexible lining allows you to move through the water with unparalleled efficiency time and time again.

All 2XU wetsuits carry a comprehensive materials and labour warranty.

# RANGE OVERVIEW

	<b>Propel Pro</b> Propel Wetsuits	<b>Propel P:2</b> Propel Wetsuits	<b>Propel P:1</b> Propel Wetsuits	<b>SR Pro</b> Swim Run Wetsuits	<b>SR:1</b> Swim Run Wetsuits
01. <b>Nano SCS Coating</b> Extra 4% buoyancy	⊗				
02. <b>SCS Coating</b> Hydrodynamic silicone coating		⊗	⊗	⊗	
03. <b>45 Cell Seamless Shoulder &amp; Arm Panel</b> Ultimate flexibility, comfort & freedom of movement with a 1mm neoprene	⊗				
04. <b>Front Panel With Seamless Buoyancy Inserts</b> Improved buoyancy by 30%	⊗				
05. <b>39 Cell Front Buoyancy Panels</b> Max buoyancy with 5mm neoprene thickness	⊗	⊗	⊗		
06. <b>Neoprene Thickness</b> Chest   Back Arms Legs	1-2mm 1mm 1-3mm	3-5mm 1.5mm 3-5mm	1-2mm 1mm 1-3mm	2-4mm 0.5mm 1.5-8mm	3mm 1.5mm 1.5-2mm
07. <b>Transition Panel</b> Seam overlap technology	⊗	⊗	⊗		
08. <b>Floating Zip Panel</b> Extra Distance per stroke	⊗	⊗	⊗		
09. <b>520% Stretch Lining</b> Enhanced lateral flexibility	⊗	⊗	⊗	⊗	
10. <b>Rollbar Technology</b> Improved core buoyancy & body position	⊗	⊗	⊗	⊗	⊗
11. <b>16 Sizes</b> Specialised for comfort and fit	⊗	⊗	⊗		
12. <b>Upper Leg Buoyancy Inserts</b> for increased buoyancy (both swimrun suits)				⊗	⊗
13. <b>Flex Hip And Pelvis Panels</b> for flexibility on the run (both swimrun suits)				⊗	⊗
14. <b>Pocketing</b> To hold the race essentials				⊗	⊗

# WETSUIT CARE

---

## 1. AVOID CONTACT OF THE SMOOTH SKIN SIDE OF THE NEOPRENE WITH ANYTHING ABRASIVE.

Your 2XU wetsuit is designed for open water swimming and shouldn't be used for diving, sailing or wind surfing

The rough side of the hook and loop (velcro) closures at the top of the zip can compromise the smoothskin surface if not fully covered when swimming

## 2. AVOID USE IN CHLORINATED POOLS

Chlorine may compromise the life of the wetsuit

## 3. AVOID PETROLEUM BASED LUBRICANTS

While lubricants can be effective in reducing the chance of neck chafe, petroleum-based products break down the neoprene, making it susceptible to tearing. Use naturally based products at all times

## 4. ASK A FRIEND TO ZIP YOU IN

If you have limited experience getting into your suit, ask a buddy to assist you. This will ensure you don't damage the floating zip when attempting to pull it up yourself

# STORAGE AND MAINTENANCE

---

## 1. AT THE END OF A SEASON CAREFULLY CHECK YOUR SUIT INSIDE AND OUT

Check all seams and the zip to make sure teeth are there and working smoothly

Check for fingernail cuts or fragile seams which may require repair.

## 2. GET REPAIRS DONE IMMEDIATELY

Minor repairs such as fingernail cuts can be easily fixed at home with neoprene glue.

## 3. MAJOR SEAM REPAIRS

Major seam repairs are best left to wetsuit repair experts. If your wetsuit is still under warranty, contact your nearest 2XU Performance Centre for complimentary maintenance

## 4. NEVER LEAVE THE WETSUIT OUT IN THE SUN

The sun's UV rays and Heat and UV rays from the sun can break down the neoprene.

Avoid leaving your wetsuit inside your car. On a hot afternoon, wetsuits can melt after a few hours, prematurely aging the neoprene.

## 5. GETTING FLEXIBILITY BACK IN YOUR SUIT:

When you first try on your suit again after a few months, it may feel inflexible. To restore its suppleness, soak in the bath for a few hours and then let it out to dry

# STORAGE AND MAINTENANCE

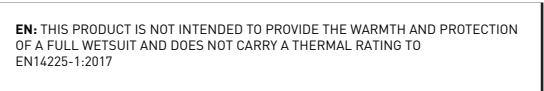

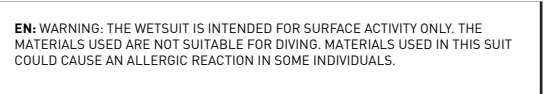

---

## 1. THOROUGHLY RINSE YOUR WETSUIT IN FRESH WATER

Rinse your wetsuit straight after use. A garden hose or shower work equally well.

## 1. POST-RINSE, HANG ON A SHAPED SUIT HANGER INSIDE-OUT TO DRY.

Turning your wetsuit inside out encourages faster drying. Hang your wetsuit in the open air, out of direct sunlight.
