

RM0791420

Arkon Camera Desk or Window Suction Mount for Mevo Live Streaming and Live Video Camera  
Retail Black

**DESCRIPTION:**

The RM0791420 camera desk or countertop mount is compatible with Livestream's Mevo live streaming video camera. This exciting new camera features a 150-degree lens with real-time editing capabilities using your iPhone. Use the Mevo camera mounted to RM0791420 to stream video via Wi-Fi or LTE from concerts, parades, and other live events using the Facebook Live app. The mount is ideal for live streaming from a desk, counter, table, podium, or other flat surface. It can even be attached to walls or mirrors. The arm of the pedestal swivels on both the top and the bottom, providing 360-degree rotation and the ultimate flexibility in positioning the Mevo camera at any angle. The 80mm sticky suction base works well in all climates, using a powerful combination of polyurethane gel and suction to provide a maximum surface bond. To restore the suction, just rinse the pad with a mild liquid soap and warm water then air dry. The tough, low-vibration pedestal measures approximately 6.5 inches high from the bottom of the mount base to the top of the mount shaft (not including holder), and is made of a combination of nylon and fiber. The mount also fits small and medium-sized digital cameras from Nikon, Sony, Samsung, Canon, Fujifilm, Olympus, Panasonic, and Pentax.
