

TWBHD8RV2

Arkon TW Broadcaster Pro Stand - Dual Smartphone Desk or Counter Stand for Live Streaming Retail Black

#### DESCRIPTION:

Arkon's TW Broadcaster Pro Stand is a professional mounting solution designed to facilitate stable side-by-side live streaming with two mobile phones using two different social media apps, such as Periscope or Facebook Live. TWBHD8RV2 allows you to live stream from a desk, counter, table, podium, or other flat surface. This model features a telescoping shaft with height-adjustable extension from 7.5 to 9.75 inches for streaming from the perfect height. Arkon's RoadVise phone holder is compatible with all phones, including the Apple iPhone 7, iPhone 6S Plus and 6 Plus, iPhone 6S, 6, 5S, and SE, Samsung Galaxy S7 and S6, Galaxy Note 7, Note 5, and Note 4, Google Nexus 6 and Nexus 5, HTC One M9, One M8 and One Max, Nokia Lumia 1020 and 1520, and Motorola Moto G and Moto X. Arkon strongly recommends using the RoadVise Holder with smartphones that have skins and ruggedized cases attached. This ensures a secure grip in the holder and protects your phone. The low-profile RoadVise holder was intentionally designed to require two hands to install and remove the phone from the holder. This feature ensures that your phone(s) are not accidentally removed while broadcasting using the mount. The locations and scenarios you can live stream from are endless. Whether you're presenting at a conference, teaching in a class, or streaming live video from the home or office, the TW Broadcaster Pro Stand is the must-have companion accessory for streaming live video with your Periscope and Facebook Live apps. Order yours today!
