## TW Broadcaster TriStreamer Triple Tablet Holder Countertop or Desk 29 inch Stand for Live Streaming

### DESCRIPTION:

Stream live video with three devices at once! Arkon's Triple Tablet TriStreamer Stand for Live Streaming is a professional mounting solution designed to facilitate stable triple live streaming on Periscope, Facebook Live, or other apps with three iPad or other full-size tablets on a desk, counter, table, podium, or other flat surface. This unique TriStreamer stand includes three Slim-Grip Universal Tablet Holders (compatible with all tablets having 8.9"-18.4" screen size), and a Heavy-Duty Desk or Countertop Stand with a telescoping, metal shaft that's height-adjustable from 17 inches up to 29 inches. The Slim-Grip tablet holder features a spring-loaded design that makes it easy to insert or remove the tablet by pushing down on the lower legs of the holder with one hand. Included with each holder are 10 support legs (4 short, 2 medium and 4 long versions). Choose the 4 legs that provide the best fit for your tablet. These insert at the top and bottom of the holder and can be easily adjusted in order to keep any side buttons and ports unobstructed. Any or all of the three tablets can be used in portrait or landscape configuration by rotating the holder. The Triple Tablet TriStreamer Countertop or Desk 29 inch Stand Holder for Live Streaming is the must-have companion accessory for your triple Periscope and Facebook Live broadcasts.
