The device holder rotates on the pedestal's swivel ball adapter head for 360-degree positioning of the device. The holder's solid construction provides strength and reliability by featuring a spring-loaded mechanism that expands to hold devices up to 5 inches wide. Arkon recommends using the RoadVise Holder with skins and ruggedized cases. The RoadVise is designed to use two hands to install and remove your device. This is to make sure your device cannot be accidentally removed while adjusting viewing angle. The low-profile holder keeps rear smartphone cameras free for spontaneous pictures or videos.
