

WHENEVER.
WHEREVER.

BUCK BOMB HAS YOU COVERED.

No matter when you hit the field—no matter where you hunt—Buck Bomb's goal is to bring the highest quality selection of scent attractants available to our fellow hunters in an effort to help YOU improve your odds of success.

Whether natural or synthetic—Buck Bomb delivers a wide variety of top quality scent attractant products options! Our natural urine providers are ATA certified and are continually striving to improve not only day-to-day quality, but also devoted to ensuring our herds remain healthy and disease-free. Buck Bomb also now offers an extensive lineup of synthetic attractants for states and/or regions that no longer allow the use of natural urines.

To further assist our fellow hunters, we have implemented the "Scent ID System" on our packaging to help fellow hunters determine which of our products are best used for various stages of the season, as well as specific purposes.

All of these efforts are made with one goal in mind—to help our fellow hunters find success in the field. **Whenever, wherever—Buck Bomb has you covered!**

XTRUS—CERTIFIED DOE N ESTRUS SCENT

XTRUS CERTIFIED DOE N ESTRUS delivers a dose of biologically enhanced—and certified—estrus doe urine that contains estrogen levels comparable to those found in does during peak rut. Each batch is lab-tested and certified for estrogen levels before ever going into a “bomb” or bottle!

- » Replicates normal estrogen levels found in does during peak estrus
- » New, patent-pending deer urine collection method provides fresh, peak estrus urine
- » Each batch is lab tested and certified for detectable estrogen levels

BUCK BOMB SCRAPE KIT & RUT KIT

For 2018, Buck Bomb offers the new Scrape Kit & Rut Kit—two “grab & go” kits featuring all a hunter needs to start and maintain a mock scrape and/or replicate a “breeding pair” during the rut. The kits include two 2oz. bottles featuring our adjustable no-spill cap as well as four wicks.

Rut Kit—features a 2oz. Doe N Estrus, 2oz. BucRut and 4 Scent Wicks. Ideal for replicating a breeding pair during the rut phase.

Scrape Kit—features a 2oz. Synthetic Forehead Gland, 2oz. Scrape Generator and 4 Scent Wicks. The combination of the Forehead Gland & wicks allows the hunter to replicate a licking branch above the scrape. The new Scrape Generator Formula includes both natural doe and mature buck urines, quickly producing an “active scrape” environment.

BUCK BOMB RUT KIT BOX

The new Rut Kit Box from Buck Bomb is the ideal “all in one” kit for the diehard whitetail hunter. It features everything you need to set the stage for intense rut activity. The combination of the Synthetic Forehead Gland scent and the **NEW** Scrape Generator allows you to set up your own mock scrape in a predetermined location—or simply “juice up” an active scrape in your area. Mock scrapes are an ideal way to inventory your herd via trailcam—while also being a major tool to be used to the hunter’s advantage—throughout all phases of the rut.

The Rut Kit Box also includes the Doe N Estrus “bomb” to be utilized as the rut activity picks up. Cruising bucks are constantly utilizing their sense of smell to monitor the local does. The Doe N Estrus bomb is a very versatile tool—it can be used to lay down a scent trail as you enter your chosen hunting location, used from the stand to intermittently disperse scent—or locked down to disperse the entire contents—delivering a “fog” of estrus scent over a greater range.

As an added bonus, the Rut Kit Box includes the H.S. Quadgrunter XT grunt call to give the hunter the ability to add common vocalizations to his/her arsenal. The Quadgrunter XT adjusts to produce 4 separate vocalizations, and the adjustable tube allows the hunter to manipulate and adjust tone and volume as needed.

All totaled—the new Buck Bomb Rut Kit Box is truly the ultimate “grab & go” attractant toolkit for the diehard whitetail hunter!
