

FAIRWAY™

CLASSIC
ACCESSORIES

2014 IS THE YEAR OF GOLF

We are proud to introduce the 2014 Fairway golf collection an all new line of golf car enclosures, covers and seat blankets from Classic Accessories.

Our design team began by researching golf car manufacturers to ensure a near-perfect fit on our universal enclosures and covers. We've developed new sizes to accommodate short, long and extra long roofs for the most popular golf cars on the market.

We went through extensive research and development sessions to design custom fit enclosures for the three most popular cars: the Club Car® Precedent i2, the E-Z-GO® TXT & RXV and The Drive® by Yamaha.

We formulated and trademarked FadeSafe™, a solution-dyed material that greatly improves the longevity of the material under the harmful effects of the sun. We have incorporated enhanced features into our enclosures like removable doors, windshields and interior/exterior access points for maximum convenience.

Our new collection is built around providing quality golf enclosures, covers and accessories allowing you to focus on the game and not the forecast.

NAVY IS THE NEW BLACK

The Fairway Golf Collection by Classic Accessories is our most innovative and sophisticated program yet. We've used technical fabrics from across the world to improve performance in all conditions including rain, intense sun, and biting wind. In order to ensure a fit you'll be proud of, we sent our designers to golf car manufacturers to measure, drape and account for every contingency. New materials like neoprene and quick-drying air mesh add softness and comfort to seating surfaces. Advanced features like oversized zipper pulls, reflective piping, removable doors and super-clear windows make this the most researched and feature-rich collection on the market.

We know that our fabrics are the heart of every cover and enclosure that we make; that is why we go to great lengths to ensure that our products are crafted from the finest materials available. We're introducing proprietary fabrics like FadeSafe™, a solution-dyed material that lasts much longer than our previous offerings. Available in our model specific enclosures, FadeSafe™ quick-fit covers as well as our FadeSafe™ & air mesh paneled seat covers this new material has been tested 15 times longer than our previous fabric and passed with flying colors.

Thanks to custom designs, multiple color-ways and sleek fits throughout the line this collection is better looking and more versatile than ever. With six new seat blanket patterns, three different cover and enclosure color options and fits a tailor would be proud of this line has something for every golfer.

Our selection of covers and enclosures are designed to fit most short roof, long roof and extra long roof golf cars on the market. Multiple price levels and extended color offerings mean customers can shop for a specific look or complement their existing styles. The bottom line is that the 2014 program fits better, performs better, and looks better than ever before.

FADESAFE™ FABRIC

FadeSafe™ is the newest fabric developed by Classic Accessories. It combines the durability you've come to expect with a solution-dyed process to improve fade resistance and eliminate color bleeding.

Navy News

FASHION FORWARD

Our designers looked for inspiration throughout the golf world to deliver a look your customer will be proud of.

WORRY FREE

Heavy-duty reinforced hooks keep our enclosures snug and in place so customers don't have to worry about anything but staying under par.

ZIP-IN / ZIP-OUT

High end easy-to-use dual-sided zipper pulls make getting in and out of the enclosure easy and convenient.

CUSTOM LIKE FIT

Our entire line of enclosures and covers have been completely redesigned to not only look fresh and new, but to better accommodate today's wide variety of golf cars.

REVITALIZED

Our classic Fairway logo has been updated to accentuate our new revitalized line of products.

ENHANCED VISIBILITY

Many of our enclosures, covers and accessories include reflective piping for enhanced visibility in low light or when the golf car is unattended.
