

# Instructions & Care:

## ⚠️ WARNING!

Do not operate an outdoor appliance or machine with the cover on. Fabric is NOT fire resistant. Keep away from open flames or burning logs.

## ⚠️ CAUTION!

When covering an outdoor appliance, let it cool before you put the cover on it.

## ⚠️ CAUTION!

Remove all cushions to avoid possible mildew before covering your furniture.

## Installation

Check your patio furniture, appliance or machine to make sure there are no sharp objects or corners that could stress your **cover** as you pull it on.

### Click-Close Straps:

If your cover has click-close webbed straps, wrap them around your furniture legs and snap shut (figure 1 & 2). You

can adjust the fit by moving the buckle position to shorten or lengthen the strap (figure 3).

### Toggle with Stretch Cord:

If your cover has the toggle with stretch cord hem, you can adjust the length of the cord. Pinch cordlock and

pull bungee to draw hem around base of furniture.

### Zippers:

If your cover uses an open-end zipper to close the cover, place the slider at the end of the retainer box. Insert

the pin into the retainer box, then pull the slider to close.

### Rip-and-Grip Closures

If your cover has rip-and-grip closures, you can adjust the fit by pulling them apart and repositioning the tabs (figure 4). If your cover has rip-and-grip tabs along a bottom edge, make sure you secure together (figure 5).

**Handles:** If your cover has handles, use them to help pull the cover over your item.

**Cushion Bag:** To avoid any possibility of mildew, be sure your bag is completely dry before you store it in an enclosed area for long periods of time.

### Cleaning and Care

Clean your cover with a soft brush and lukewarm water. **DO NOT USE SOAP OR DETERGENT** as it may remove the protective coatings added by the factory. Air dry.

DO NOT  
USE SOAP OR  
DETERGENT
