Functional Home & Garden Décor

2018 catalog of new products & timeless favorites

T1BP (Actual size)

our mission

Our mission is to create the highest quality products that exceed your standards of style, elegance, accuracy and durability.

about us

Since 1979, Conant has created exceptional weather instruments. Over time, we have mastered the delicate blend of combining form and function with distinctive elegance. The result is a remarkably well-designed product line that meets the demand for style, elegance and accuracy. Meticulously crafted of the highest quality materials and made to last a lifetime, our classically inspired designs include weather instruments, rain gauges and bird feeders. We are proud to offer products that add both charm and character to any home or garden.

our warranties

Our products are made to last; that's why we back them with exceptional warranties:

Lifetime Warranty

Vermont Collection products are warranted against mechanical defects in material and workmanship for as long as you own them. The Lifetime Warranty covers the repair or replacement of product.

10-Year Warranty

Décor Collection products are warranted against defects in material and workmanship for a period of 10 years from date of purchase. The 10-Year Warranty covers the repair or replacement of product.

2-Year Warranty

Elements Collection products are warranted against defects in material and workmanship for a period of 2 years from date of purchase. The 2-Year Warranty covers the repair or replacement of product.

Blending Form & Function with Distinctive Elegance

Décor Collection

This decorative collection is specifically created for today's indoor and outdoor spaces using the latest materials and finishes. Crafted of long-lasting anodized aluminum in two finishes, Bronze Patina and Satin Nickel, this attractive collection is designed to be enjoyed for years to come.

- Matches today's indoor & outdoor lifestyle spaces
- Our finishes compliment home & garden furniture & accessories
- Long-lasting anodized aluminum resists corrosion, fading & flaking
- Mercury-free spirit tube thermometer

Full Range 4th Generation Coil

FR4

Our state-of-the-art bimetal coil mechanism found in all our dial thermometers measures temperature accurately across a broad range.

NEW!

Vermont Collection

Our flagship collection is inspired by the fine weather instruments and timepieces that grace the traditional homes of New England. Using the best materials available, including solid brass & copper that hold up well in New England winters, this broad line of instruments combines precision, style and durability, all backed by a lifetime warranty.

- Solid Brass, Solid Copper, & Glass Construction
- Resistant to corrosion, fading, flaking, & rust-free
- Built to withstand year-round outdoor temperatures
- Mercury-free spirit tube thermometer

Replacement Vial | RGV1

Inspired by Thomas Jefferson's innovative mechanical inventions, this unique rain gauge marries form with function resulting in a timeless art-piece that adds sophistication & purpose to outdoor spaces. As water fills the glass vial, the red float rises causing the stainless steel arm pointer to climb the 5" scale.

Glass vials are subject to breakage when water freezes
