

# FLOOR SAVER / FOOTPRINT GUIDE

Keep your tent working and looking like new. When placed beneath your tent, floor savers and footprints protect against damage from rocks and roots while adding another layer of water protection. They are pre-sized to fit a wide range of tent dimensions. For proper water protection, if needed, fold or trim your Floor Saver to a few inches smaller than the tent floor area and place beneath tent before setup. If you need help, contact us!

There are two ways the floor savers / footprints are listed on this page. The first list is by **current tent models** and the second list is sorted by **floor saver size and includes older tent models**.

## LISTED BY TENT MODEL (Current Models Only)

- Alpenlite 2XT - **[Rectangular Small](#)**
- Assault Outfitter 4 - **[Rectangular Large](#)**
- Boondocker Hotel 6 - Footprint included with tent
