

A stylized, black silhouette of a fish, possibly a bass, is positioned centrally above the main title. The fish is facing left and has a prominent, curved dorsal fin. The background of the entire cover is a repeating pattern of vertical, stylized fish fins or scales, rendered in a light gray color against a black background.

BOWFISHING

2019

POSEIDON™ COMPOUND BOW

The game has changed—in your favor. Our Poseidon compound bow will live up to its namesake as protector of all waters. Every inch of our bow was built with bowfishing in mind, each feature is specifically tailored to suit the rough and rugged nature of the sport. From the revolutionary riser and cams to the unmistakable styling—the battle of the barb will never be the same.

- Corrosion resistant, Stainless Steel hardware
- Advanced parallel split-limb technology
- Unique oscillation-reducing wave riser design
- Four sight / retriever mount locations
- Deep-groove bowfishing cams
- Pre-stretched strings and cables
- Premium cable slide

RH | #13061

POSEIDON™ PRO PACKAGES

Want to make it easier to get rigged and ready-to-shoot? Our Poseidon Pro Packages outfit the bowfisherman with highly wreck-worthy assortments.

- Poseidon Compound Bow
- Current™ Bowfishing Arrow Rest
- Raider™ Pro Arrow w/ Riptide Point
- Hydro-Shot Finger Savers
- Winch Pro™ Bowfishing Reel

DEEPWATER™ BOW CASE COMPOUND BOW CASE

Our new Deepwater™ Compound Bow Case was constructed to suit the bowfisherman's tackle needs. We've incorporated many breathable features that will keep your gear from accumulating unruly odor. It also cleans easily and even includes a Hydro-Guard Arrow Tube.

- Breathable retriever/reel bump out
- Drainage/ventilation holes in pockets & base
- Gaff containment system
- Space allotted for installed bottle reel
- Interior dimensions: 41" x 19"
- Hydro-Guard Arrow Tube included

#81093

Hydro-Guard Arrow Tube INCLUDED FREE WITH BOW CASE!

Adjustable portable arrow tube keeps your arrows safe in transit and protected while in storage

Drainage/Ventilation Holes

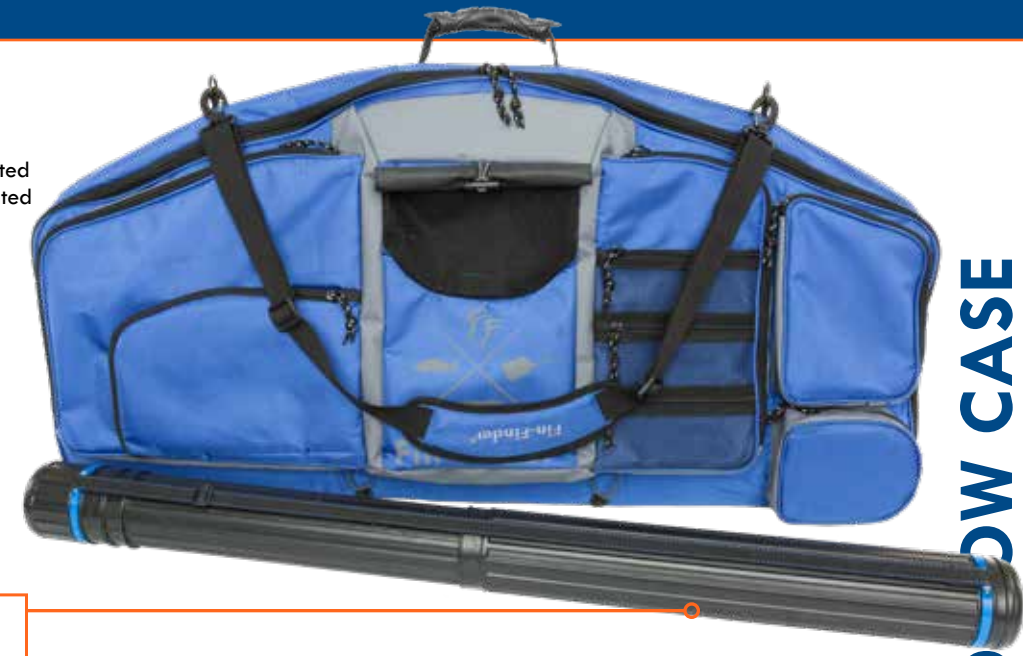

For when it gets wet and wild — strategically incorporated holes in pockets and base allow for drying airflow

Retriever Bump-Out

Padded cavity with mesh opening accommodates your mounted retriever while allowing it dry out after a creekside excursion

Bow Tie-Downs*

Securely strap your fish wrecker in place while you climb to your vantage point

Gaff Containment System*

Ideally suited to carry and protect your gaff on your adventures

*Bow & gaff not included with bow case

BANKRUNNER™

BOWFISHING RECURVE

The BankRunner, offers recurve bowfisherman a chance to wreck in style. Offered in a variety of colors, this take-down design was uniquely engineered with a mean magnesium riser and multiple reel mounting locations. The resulting lethal bow is sleek, lightweight and compact.

- 58" three piece take-down design
- Durable magnesium riser construction
- Two mounting locations provide ideal reel adjustability
- EZ fit, tacky grip

**REFRACTR BLS™ NEW!
BOWFISHING LASER SIGHT**

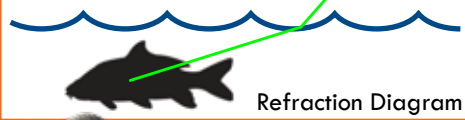

Our patented laser sight technology takes aim like never before in 2019! The all-new RefractR BLS™ is the most versatile and dependable model ever built. Hardware is included for both the sight and stabilizer mounting options. The high-power laser eliminates refraction to deliver superior accuracy.

- Sight & stabilizer mounts included
- Waterproof 5mW green laser with pressure switch activation
- Aluminum construction
- Stainless steel hardware
- CR123A 3V battery included
- Patented technology (#8,464,700)

RefractR BLS | #81483
Repl. Battery (CR123A) | #13046

No Guesswork

Honing in on fish can be tricky when seeing them through water—our laser sights accommodate for this refraction so that you simply aim and strike!

Powerful 5mW Green Laser

Strong enough to shine into the deepest waters, these green lasers will account for refraction and easily mark your target

patent #8,464,700

Sealed touch-pad & pressure-switch connection

SIGHT MOUNT

Unlimited Versatility

Sight & stabilizer mounting hardware is included to fit any rig imaginable—compound, recurve, bottle-style retriever, spin cast reel, whatever you're working with!

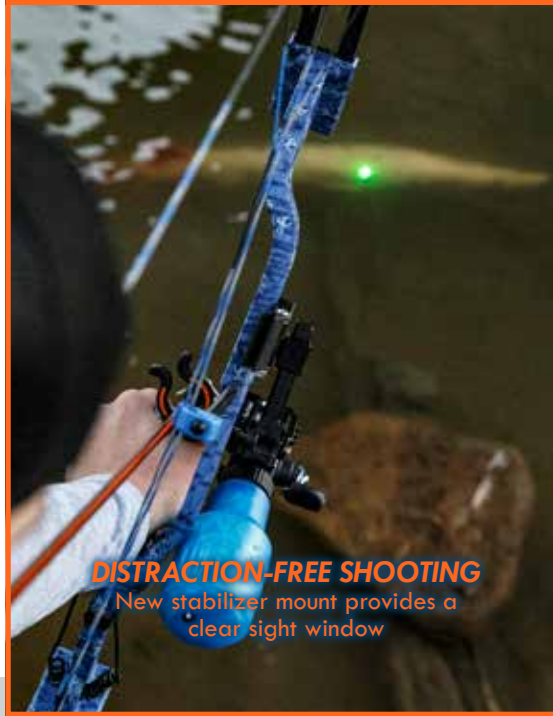

STABILIZER MOUNT

STREAMLINED DESIGN
Eliminates sight window disruption

WORKS WITH EVERYTHING
Mounting hardware makes room for all your accessories

DISTRACTION-FREE SHOOTING
New stabilizer mount provides a clear sight window

**SPLASHLIGHT™
BOWFISHING LIGHT SYSTEM**

The powerful Splashlight will not only get you to your destination, it will also light up the water with a touch of the pressure switch—exposing game lurking in dark or murky water. The convertible end-cap allows for a quick change from a bow-mount light to a hand-held flashlight making it the only light you'll need on your adventure.

- Powerful 500 lumens
- AC/DC rechargeable
- Easily converts from bow mount to hand-held use
- Includes light, two rechargeable batteries and charger, A/C adapter, D/C adapter, remote pressure switch, threaded bow adapter cap and end cap switch (for hand-held use)

Splashlight | #60790

Repl. Battery | #81063

Powerful white LED

Threaded Bow Adapter

Easily converts from bow mount to hand-held use with included tail cap

Dual-stage remote pressure switch

Power for Hours

The Splashlight comes with two (2) powerful and long-lasting lithium batteries that are rechargeable.

WINCH PRO™ BOWFISHING REEL

Every inch of the Winch Pro was built with bowfishing in mind—from the aluminum construction to the stainless steel ball bearings. Take to the water with confidence!

- 4.1 gear ratio for fast retrieval
- Built-in arrow quiver—universal fit
- 100% aluminum adjustable mounting brackets
- Anti-reverse bearings
- 25 yards of 250# braided line
- RH only

Winch Pro™ Reel | #81397

Perfectly Suited for the BLS
The RefractR Bowfishing Laser Sight includes hardware that allows it to be equipped together.

Built-In Arrow Quiver

Extended quiver bracket accommodates arrow storage across a wider range of bows.

One-Handed Control

Fish retrieval is crazy easy thanks to the fighting brake and smooth ball-bearing crank system.

High-Strength Braided Line

The bottle comes loaded with 25 yards of 250# retrieval line so go ahead and take that long shot.

Developed in Partnership with Cajun Bowfishing

HYDRO™ BOWFISHING LINE
Night or day, our high visibility Hydro™ Bowfishing Line resists frays and breakage to land the lunkers.

- 25 yards of high visibility white line

Line | #81399

- Adjustable-length shoulder strap included

#60792

Recommended Wrecking

Choose the best arrow & point pairing based on your projected harvest!

LEVEL 1 TYPHOON™ POINT

A point designed for entry-level fun at an economical price.

- Carbon steel
- Remove tip to remove fish

#57454

LEVEL 2 RIPTIDE™ POINTS

Our most popular arsenal of wrecking tools, the Riptide series is great for shooting carp in moderately rocky environments.

RIPTIDE POINT

- 1-piece high-grade 316 stainless steel
- Loosen tip to remove fish

#60862

RIPTIDE PRO POINT

- 2-piece high-grade 316 stainless steel
- Loosen head from ferrule to remove fish

#60863

RIPTIDE REPLACEMENT TIP

If you shoot as often as we do, your tips are bound to accumulate some dings.

- 3-sided tip fits all Riptide models

• 2 pk.

#60841

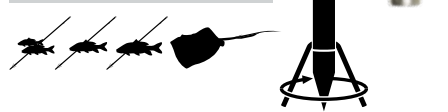

LEVEL 3 BIG-HEAD™ POINTS

Big-Heads are even beefier and stronger to withstand the rockiest environments and more easily harvest larger game.

BIG-HEAD POINT

- 1-piece high-grade 316 stainless steel
- Loosen tip to remove fish

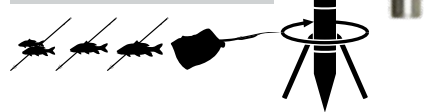

#60864

BIG-HEAD PRO POINT

- 2-piece high-grade 316 stainless steel
- Loosen head from ferrule to remove fish

#60865

BIG-HEAD X-TREME POINT

- 2-piece high-grade 316 stainless steel

- Loosen tip & head to remove fish (combines both methods for maximum hold)

#60866

BIG-HEAD REPLACEMENT TIP

After many successful harvests, you'll want to replace your tips.

- 6-sided tip fits all Big-Head models (Not compatible with the Kraken Point)

• 2 pk.

#60842

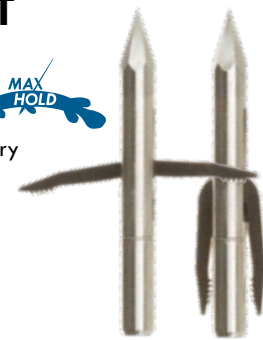

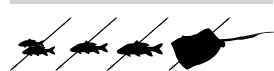

THE KRAKEN™ POINT

Mechanical barbs for maximum effectiveness.

- Mechanical barbs minimize drag and increase penetration
- Barbs deploy upon strike leaving a small entry hole for maximum effectiveness
- 2.75" barbs ensure ultimate holding power
- High-grade 316 stainless steel

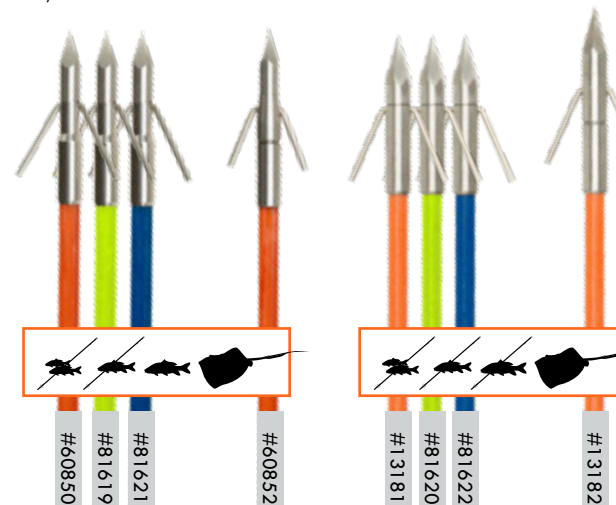

#13192

RAIDER™ PRO ARROWS

Durable fiberglass arrows built with the most accurate straightness tolerances available. With value in mind, the Raider is available in many models to meet the needs of today's recreational and competitive bowfishermen.

- In-line nock system
- ACS Arrow Slide™
- 5/16" x 32"

Riptide Point #60850, Riptide Pro Point #60852, Big-Head Point #81620, Big-Head Pro Point #13182

This Selection Includes 2 Extra Tips!

MECHANICAL BARB POINTS

Get increased holding power and lose less fish with these mechanical-barb models of our Raider Pro Arrows.

- In-line nock system
- ACS Arrow Slide™
- 5/16" x 32"

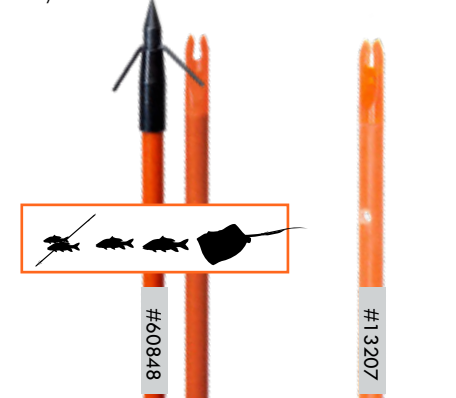

The Kraken Point #13183, 3-Barb Grapple Point #81370

RAIDER™ ARROWS

Raider Arrows share the same quality shaft as their bigger brother, but feature an entry-level Typhoon point and an in-line nock system.

Plenty of fish-wrecking capability—and at an attractive price!

- In-line nock system
- 5/16" x 32"

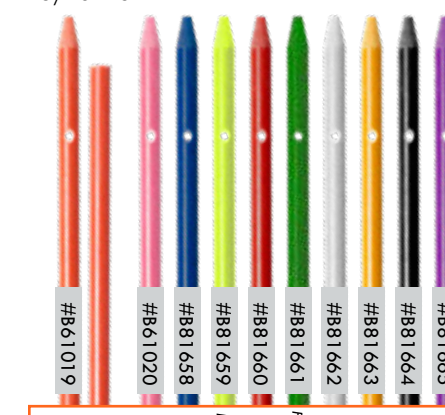

Typhoon Point #60848, Raider Shaft #13207

BULK RAIDER™ SHAFTS

Make your own unique bowfishing arrows? Not a problem with our wide selection of fiberglass shafts with tapered-nock end.

- Pre-drilled and tapered
- In-line nock system
- 5/16" x 32"
