

RECOMMENDED WRECKING LEVEL CHART

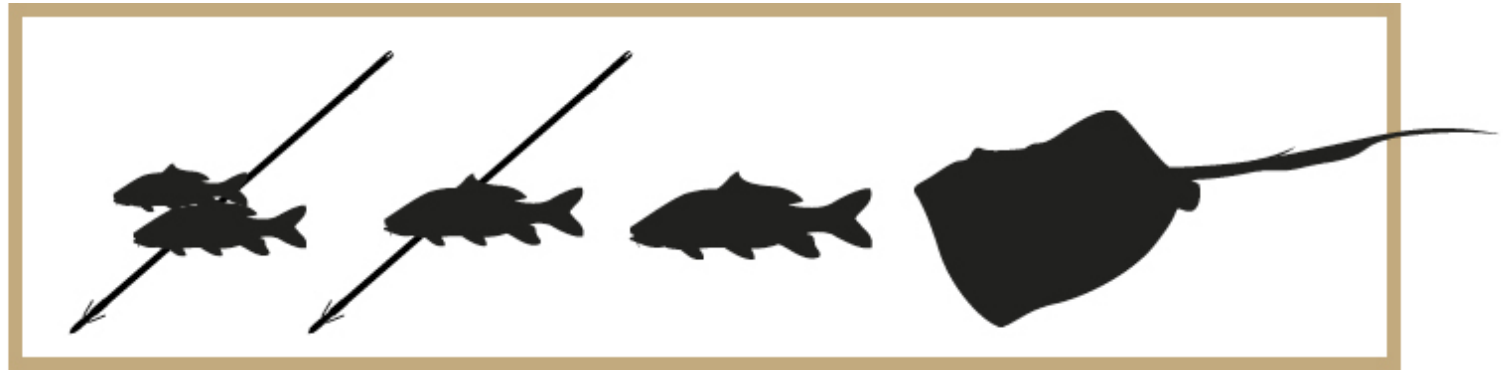

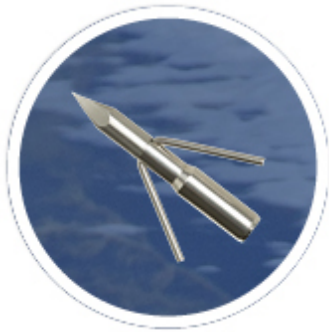

Use this chart to choose the best arrow & point pairing based on your projected harvest for optimal fish-wrecking fun!

LEVEL 1

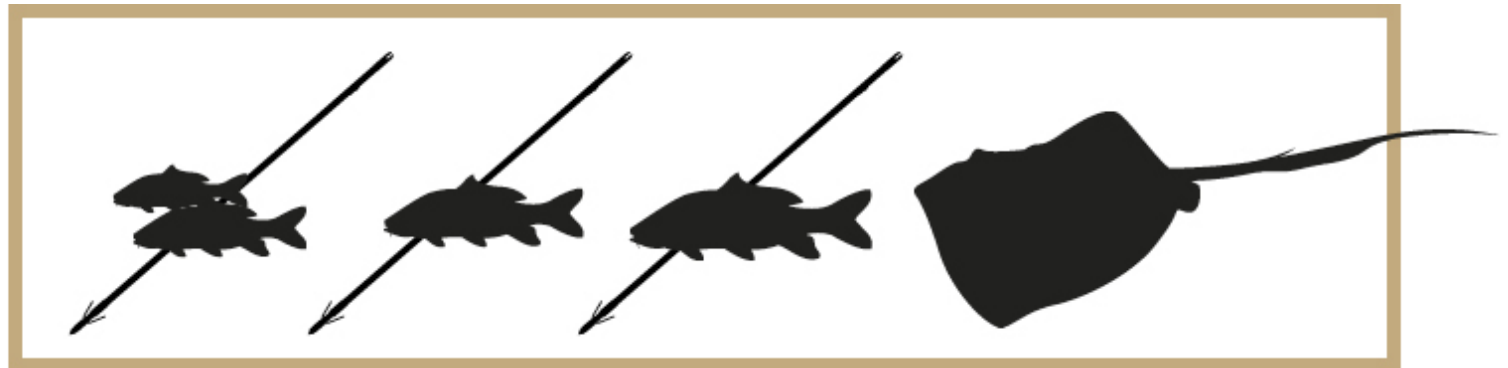

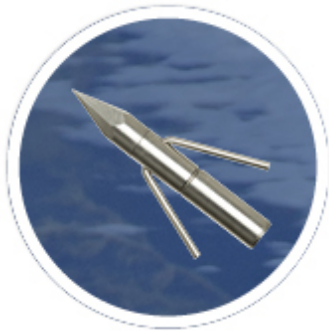

We use Level 1 products for targeting smaller fish, mostly in shallow water. Great for getting the hang of bowfishing or when you don't want to make too big of an entry/exit.

LEVEL 2

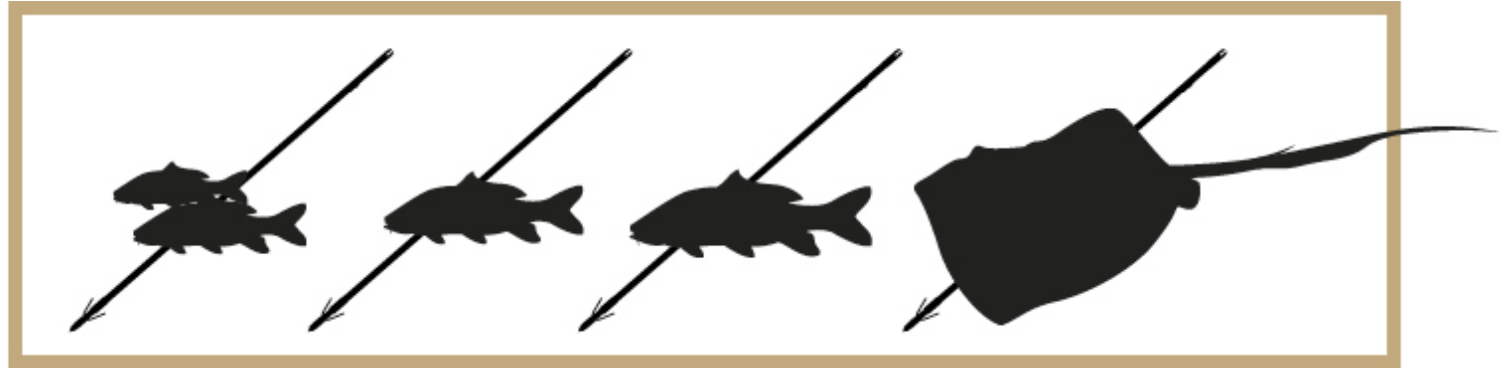

Level 2 products excel in landing medium-sized fish on creeks and rivers, such as small-to-medium-sized carp, catfish and gar.

LEVEL 3

Perfect for medium-to-large species of fish, Level 3 products offer great results from bank to boat.

LEVEL 4

Offering ultimate wrecking and landing power, Level 4 points are designed for staying put and hauling in the big ones. This versatile bowfishing point works for any body of water, depth, and target species.
