

# PRODUCT 2019 CATALOG

# OWN THE AIR.

Deliver the finest products, utilizing the latest technology, and support it with unparalleled customer support and interaction. That's GAMO's mission, and we're sticking to it.

At GAMO, we are determined and driven to develop the most technologically advanced, accurate and dependable air rifles on the market. Whether you're a hunter, target shooter or simply love to shoot airguns, our team is designing and building a quality product that will make you a proud owner.

When we introduced Replay 10X Quick-Shot Technology in 2017, we took a leap ahead of every other break barrel air rifle—and the competition still hasn't caught up. Not resting on our success, for 2019 we give you the Roadster IGT 10X GEN2, the second generation of the industry changing 10X Quick-Shot technology. The new horizontal magazine provides sure, swift loading and a lower profile. Ten shots have never been quicker or more fun.

GAMO touches every corner of the globe as the best-selling adult airgun in the world. We're thankful to all those shooters who choose GAMO, whether in the woods and fields, plinking targets in the backyard or punching paper at a competition. With more than 60 years of history building world-class rifles, air pistols and airgun ammunition, GAMO remains humble, proud and committed to shooting.

So from all of us here at GAMO, we would like to thank you for your continued support and loyalty through the years.

**KEITH HIGGINBOTHAM**

President & CEO

## A LEGACY OF INNOVATION.

For more than 60 years, Gamo has been designing and manufacturing world-class air rifles, air pistols and air gun ammunition for small game hunting, competition, recreation and pest control.

Today, Gamo rifles are sold in more than 90 countries with offices in the USA, UK, Spain and Mexico.

A truly iconic brand, Gamo delivers the finest products and the latest technology supported by unparalleled customer support and interaction.

### THE DIFFERENCE IS IN OUR DNA.

- Fully integrated manufacturing
- Repeated test firing
- Exhaustive quality control procedures
- Automotive-grade robotic technology
- Patented polymer-jacketed barrel
- Patented Whisper sound-dampening technology
- Green manufacturing facility

Own the air with Gamo today.  
The most progressive and innovative air rifle manufacturer in the world.

## GAMO PROSHOT ID SYSTEM

THE RIGHT AIR GUN > THE RIGHT AMMO > THE PERFECT COMBINATION  
At Gamo, we manufacture many different air guns to fit the needs of versatile shooters everywhere. With such a variety of choices, we've created the GAMO PROSHOT ID SYSTEM to help you better align your shooting needs with the performance attributes of each model. From Hunting to Pest Control & Recreation to Target & Competition, all Gamo air gun and ammunition packages are clearly labeled and color coordinated to designate their recommended primary usage—so you can easily pair the right ammo with the right air gun. Every time.

### GAMO PRODUCT RECOMMENDED USAGE

#### GAMO AIR RIFLE RECOMMENDED USAGE

#### ▶ PLINKING & PEST CONTROL

Provides accuracy and high velocity - ideal for recreational purposes and other everyday uses like target shooting. Also perfect for nuisance animals such as mice, rats, birds and snakes.

#### ▶ HUNTING

Delivers accuracy with higher energy downrange for ultimate impact and penetration - ideal for small game such as rabbits, squirrels, raccoons, and crows.

#### ▶ TARGET & COMPETITION

Offers the ultimate in accuracy and consistent performance - ideal for both training and competitive shooting.

## GAMO SOUND SUPPRESSION TECHNOLOGY AND SOUND LEVELS

Gamo's patented Whisper technology leads the air rifle industry in sound suppression. This technology is categorized into three tiers—Whisper, Whisper Maxxim and Whisper Fusion—for quiet, quieter, and quietest performance. However, "noise reduction" does not mean "silence," as sound levels will vary depending upon pellet choice. A lighter, faster and smaller caliber pellet, for instance, will produce a louder sound than a heavier, slower and higher caliber pellet. To further assist with your purchasing decision, please refer to the chart above.

### Whisper

The Whisper is the noise-suppressing technology already known and trusted by thousands of shooters around the world. It is one of the first noise-dampening technologies created in the airgun industry. The Whisper is an integrated noise and muzzle blast reducer molded onto the barrel, forming a single part.

### Whisper MAXXIM

The Whisper Maxxim features two noise dampening chambers, offering a quieter performance as well as an improved muzzle break design. The new muzzle break helps reduce the recoil and is also integrated with the bull barrel. This new technology results in a lightweight, fluted, polymer/steel rifled barrel, integrating one of the latest sound-suppression technologies from Gamo. The Whisper Maxxim takes less space than the Whisper, keeping a better weight balance while making the air rifle quieter.

### Whisper FUSION

The Whisper® Fusion® technology incorporates a double integrated sound moderator making it the quietest Gamo air rifle. The pellet travels through two different chambers, compressing and preventing the noise expansion.

# 10X QUICK-SHOT RAPID RELOAD TECHNOLOGY

**NEW**

## MULTISHOT®

10X Quick-Shot GEN2 rapid reload technology

Gamo's 10X GEN 2, after a huge success around the world with our 10x Quick Shot rapid reload technology, installed in a break-barrel airgun, we are now presenting our 10X GEN 2 Technology, with even more advantages... The new patent-pending 10x GEN 2 Technology includes our revolutionary new horizontal magazine, making it lighter, a 25% more compact and presenting a low profile design, with the inclusion of open sights, that will let you use this airgun without a scope. This second generation 10x Quick Shot system offers a smoother operation and improved accuracy.

Ten Shots, open sights, zero reloads. Endless possibilities.

**NEW**

Available on

ROADSTER IGT 10X GEN2

## MULTISHOT®

10X Quick-Shot rapid reload technology

Gamo's 10x Quick Shot rapid reload system has already become a market reference. This exclusive technology relies on a multi-shot rotary magazine which allows the shooter to blast up to 10 shots without touching a single pellet, improving the user's autonomy, reducing reload timings and providing a more intense and enjoyable hunt. Forget about reloading, just cock your break barrel airgun and focus on the things that really matter out there. Gamo's 10x Quick Shot technology is available only in select Gamo air rifles.

The fastest reloading system ever seen in an air rifle.

Available on

REPLAY 10 MAGNUM

REPLAY 10 MAXXIM  
FAST SHOT 10X

Based off the groundbreaking IGT platform, the IGT MACH 1™ replaces the standard spring powerplant with an Inert Gas Cylinder, but the IGT MACH 1's monster 33 millimeter cylinder delivers more velocity and terminal penetration. The pneumatic cylinder rockets pellets up to 1420 Feet Per Second (fps) in .177 caliber (with PBA Platinum Ammo), and promotes smooth and consistent cocking efforts with constant power delivered to any pellet you shoot.

If you want: More Precision, Less Vibration and True Knock Down Power. Make sure your next Gamo has the IGT MACH 1 inside.

Improve your knockdown power and accuracy! Enhance your hunting experience! The IGT™ (Inert Gas Technology™) from Gamo® enhances your hunting or target shooting experience. This technology consists of a pneumatic cylinder that replaces the spring, enabling the shooter to get more terminal velocity (up to 1,300 fps with PBA® Platinum .177 Cal. and up to 975 fps with PBA® Platinum .22 Cal.), less vibration, more consistent power, and a constant and smooth cocking effort.

Gamo, pioneering the latest air gun technology, delivers the groundbreaking Triple R (Recoil Reducing Rail). The RRR was developed to subdue the taxing stresses placed on your scope from the intense recoil of air guns and high-powered rifles. The Recoil Reducing Rail uses patent pending two-piece aluminum construction separated by dual polymer struts to absorb the shockwaves generated by the recoil. Once the scope is mounted to the Recoil Reducing Rail, the recoil stresses to its internal components are reduced by almost 100%.

The revolutionary C.A.T. (Custom Action Trigger) enables Gamo air rifle owners to independently adjust the 1st and 2nd stages of their trigger to tailor the trigger pull and crispness to their personal preference. Simply loosen the 1st stage adjustment screw and the trigger travel increases. If a shorter travel length is desired just tighten the same screw to decrease the 1st Stage travel length. The 2nd Stage Adjustment is made just as easily—unscrew the adjustment setting to increase the 2nd Stage travel length or decrease it by screwing in the same adjustment point.

The SAT is a patent-pending trigger developed by Gamo and incorporated into several Gamo airguns. This trigger helps the shooter acquire a more precise shot. It is a custom trigger designed for hunting and target shooting that will make you shoot like a pro! It features a smooth action pull, maximizes pinpoint accuracy and feels crisp and clean.

### ICONOGRAPHY

# MULTISHOT SERIES

**CATEGORY-DEFINING INNOVATION. GAME-CHANGING DESIGN.**

With the recent introduction of the Gamo Quick Shot Gen2 Series, the world's first 10-shot break barrel rifle was born—and we're just getting started. A Roadster is coming.

# ROADSTER IGT 10X GEN2

**NEW**

## TEN-SHOT BREAK BARREL AIR RIFLE

Ten shots, zero reloads, endless possibilities. Introducing the new patent-pending 10X GEN 2 technology with horizontal magazine integration—making the Gamo Roadster lighter, more compact and low profile. The second generation 10X offers a smoother operation and improved accuracy. Simply break the barrel and fire for lightning-quick follow-up shots. The new Roadster combines the latest state-of-the-art Gamo technologies in one air rifle, delivering an outstanding solution for pest control and hunting.

## PT-80

CO2 air pistol

HOBBY

**8 SHOTS**  
PER MAGAZINE  
PELLETS

The PT-80 is one of the sharpest CO2 pistols that you have ever seen, it looks like a semiauto pistol. With this great looking pistol you can fire 8 pellets (not BB's) as fast as you can pull the trigger. The barrel breaks in the back to expose the cylinder. Fires in either the single or double action modes. PT-80 a fun gun for plinking!

## P-900 JUNGLE

### Spring pistol

#### PISTOL BADE

The GAMO P-900 Jungle is equipped with an ergonomic design that will allow you to have better precision when shooting and more equilibrium of it while handling. Being spring operated means the gun will last a very long time, before requiring re-springing. You don't need a CO2 capsule to load it, only you and a tin of pellets to get hours of fun. It's ideal for all intended and imaginable purposes, from simple outdoors plinking to target practice and official training.

### IGT pistol

**GUN SET INCLUDES:**  
 Flat catchpellet  
 50 Paper targets  
 250pcs tin Match 4.5

**IGT (INERT GAS TECHNOLOGY) SYSTEM**  
**ERGONOMIC DESIGN**  
**RIFLED STEEL BARREL**

GAMO's P-900 IGT air pistol is mostly made out of metal, with a few ABS synthetic parts. Much like with the original P-900, the new working system replaces the standard loading spring system. The IGT ensures performance improvements in terms of accuracy, range and terminal velocity as it's easier and lighter to load. Versatile airgun for indoors and outdoors practice to introduce younger generations of shooters.
