**MADE IN USA
since 1985**

OUR VALUES

// RESPECT // EXCELLENCE // INTEGRITY // LEADERSHIP

We work hard to incorporate these values in everything we do. Our goal is to exceed your expectations from design to materials, craftsmanship and service.

OUR FACILITY

Since 1985 Gould & Goodrich has been proud to produce every one of our products in Lillington, NC, USA. We take pride in the products we produce and in the service they support.

Raw materials for every belt, holster, and accessory sold by G&G are:

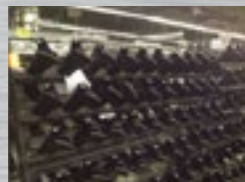

Checked by hand for quality...

...Precision-Cut...

...Hand-Crafted...

...and Hand-Inspected...

...Before they are put into service where it matters most.

NEW PRODUCTS

GOLD LINE

// TOP GRAIN vegetable tanned **GENUINE LEATHER**
from the **WORLD'S BEST TANNERS**

THREE SLOT PANCAKE HOLSTER

803 OR B803

- Three belt slots to wear canted or straight up
- May be worn on strong side or cross draw
- Fits belts up to 1 3/4"

Chestnut Brown or Black

Gold Line holsters are available in right- or left-hand versions.

REINFORCED DRESS BELT

190, 191, B190, B191

This belt is a "must" for concealed weapon carry. It won't sag with the weight of a holster and weapon. It provides a firm platform for carrying your holster comfortably, drawing your weapon consistently. Removable solid brass buckle.

- For 1 1/4" belt, order 190 or B190
- For 1 1/2" belt, order 191 or B191
- Available in even sizes 28" to 60"

Chestnut Brown or Black

Also available in nickel finish

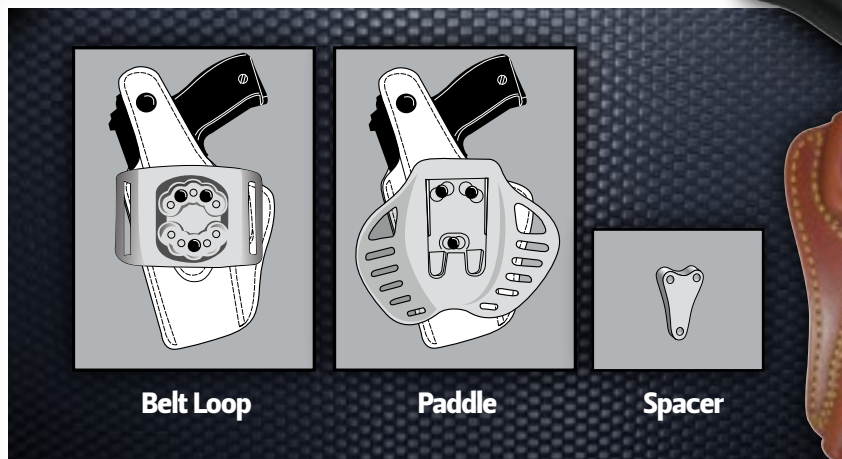

// Our **EXPERIENCED** CRAFTSMEN cut, sand, burnish and edge these **TOP-GRAIN** leather holsters for a precise mold and sleek profile

807 or B807

- Adjustable cant
- Optional belt loop included so you can remove paddle and change holster to belt loop style
- Optional spacer included to hold holster with more clearance from upper body so gun butt does not dig into wearer's side. Use with paddle or belt loop.
- Flexible paddle wings conform to your body for all-day comfort and stability

Chestnut Brown or Black

Nickel or Brass Replacement Buckles (page 26)

> These duty belts won't crush or roll, and they provide a firm platform for a smooth holster draw.

Belts in custom sizes available by special order.

E-Z SLIDE DUTY BELT

The E-Z Slide™ belt is the best thing to happen to duty belts, EVER! It looks just like a regular duty belt, but the patented buckle allows you to adjust the belt size or remove the buckle with a quick "Push-Pull-Pop"™ motion. No more struggle to bend the belt tip through the buckle, so you prolong the life and professional look of your duty belt. Once you try it, you'll never go back to a regular duty belt.

B49FL FULLY LINED E-Z SLIDE DUTY BELT

- 2 1/4" wide
- Removable buckle — nickel or brass
- Available in even sizes 24" to 60"

ERGONOMIC BELT SYSTEM

NEW L503 ERGONOMIC BELT SYSTEM

- Includes L54 Duty Belt, L55 Inner Belt, L500 Comfort Panel, X506 Lumbar Pad, and L505-2 Keepers
- Comfort system provides extra comfort and superior weight distribution

PATENTED

L503

> Ergonomic Belt System components are available for purchase separately.

NEW L500 ERGONOMIC COMFORT PANEL

- Comfort panel includes Lumbar Pad (X506) and two 9.5" keepers (L505-2)
- High cycle hook and loop lining on L500 mates to the L55 Inner Belt and holds the L54 Duty Belt and gear in place for accurate indexing

L500

> Our unique Comfort Panel is designed to fit across your lower back and around the hip where you bear the weight of a loaded duty belt. It features an outer belt support loop in the back that will fit any standard duty belt. We've designed the system to 'float' the duty belt for extra comfort and superior weight distribution. Removable lumbar pad increases comfort and support.

X2000

> TACTICAL DESIGN LABS has applied Human Factors SCIENCE and reality-based considerations to this revolutionary design. Tactical Design Lab's Fast & Secure Technology (FASTech) provides the necessary features critical to natural reactions in high-stress situations often encountered by officers and our military. The ergonomics are a critical design feature that allow the user to immediately and properly index their hand to the gun without the obstruction of straps, snaps, or flaps; all of which require additional movements (complexity) and /or unnatural contortions of the hand to activate a release, and in the end deliver an improper grip, and delay access.

* Light bearing holsters may increase the risk of accidental discharge via access to the gun's trigger. Use extra care when using a light bearing holster to ensure that no foreign objects are allowed to enter the holster.

Warning: No holster can completely secure a gun from being removed by another person or from coming out during vigorous activity. It is the wearer's responsibility to exercise gun retention practices. Read any applicable instruction sheet and warnings before using any holster.

BOOTLOCK™ ANKLE HOLSTERS

- > **THE BOOT CARRIES THE WEIGHT** of the weapon so you can walk, run, jump with all-day comfort
- > The first ankle holster designed to be worn on duty over a boot
- > Solves the problem of where to carry a backup gun on duty
- > Laces to boot through eyelets in "wrap"
- > Helps hold your weapon securely in position

CHOOSE FROM THESE TWO GREAT DESIGNS

B716

- Weather-resistant hard shell body retains its shape even in harsh conditions
- Fully lined
- Sizes for small to medium frame Auto-Pistols and Revolvers

Black

B416

- Lighter weight, low profile body of high tensile strength elastic
- Two sizes fit most small to medium frame Auto-Pistols and Revolvers

Black

B716

B416

See B316 Ankle Carrier for Handcuff and Magazine, page 17. A perfect companion for these Bootlock Holsters.

INDEX

// Showing page number for each model number

Use this chart to find the page on which any holster, belt or accessory is featured in this catalog. The model numbers below are in numeric order regardless of the letters that indicate color (which appear at the beginning of some model numbers). Numbers indicating size (which normally appear after a dash following the model number) have been omitted here.
