

GREAT DAY_{INC}

America's Source For
Quality U.S. Made Products

All about us...

It's a Great Day!

Great Day is a company whose name literally “speaks” the outlook and attitude by which we operate. Even our logo brings to mind a refreshing awareness and appreciation of the opportunities each new day brings.

Great Day is located in Tallulah, Louisiana, a small farming community that sets in the heart of the delta –almost within spittin’ distance of the mighty Mississippi. Everything we offer is made with pride in the USA – each product is unique, dependable and functional. We are different from the norm – we refuse to compromise quality or cut corners.

Great Day is one of the many small manufacturers in this country that clings to the belief that with God’s help and hard work, quality products can be produced here in the United State – that America can be restored to the level of honor and respect it once enjoyed.

Paul Meeks, *President*

***For this is the day which the Lord has made.
We will rejoice and be glad in it.*** – Psalm 118:24

ATV/UTV PowerLoader™ Model PL250 • Patent # 7,293,951

Load big game without physically lifting one pound!

Load firewood, tool-boxes, ice chests, sacks of feed or seed, bales of hay, building materials, fence posts - you name it! Turn 2 and 3 man jobs into routine, single-handed tasks. The PowerLoader will even enable you to do chores you thought you were no longer capable of handling.

The PowerLoader is constructed of super-tough, aircraft aluminum and adds only 29 lbs to the weight of the vehicle. The PowerLoader has an amazing 350 lb. capacity. Powered by a regular winch, the PowerLoader installs on any 4-wheeled ATV, "side-by-side" utility vehicle or custom golf cart style vehicle in just minutes, and comes with a rock-solid one year warranty.

When installing a PowerLoader onto a UTV, or Custom Cart, the use of a Mounting Kit is required in order to position the PowerLoader frame far enough away from the vehicle to allow the unit to work properly. The kit includes two brackets that attach to the bumper and, in turn, the PowerLoader attaches to the brackets. The kit includes all mounting hardware.

For earlier model Polaris ATV's, a bracket is required to mount the PowerLoader to the front deck of the vehicle. The PL250 can now be installed on later model Polaris ATV's that utilize the Polaris 'Deluxe Front Brushguard' (Polaris item number 2876595).

NOTE: The PowerLoader requires the use of a winch which must be purchased separately.

The Original Rumble Seat

Model UVRS100BL

The Rumble Seat comfortably and safely accommodates two additional adults. Constructed of 1 inch, heavy-duty aircraft aluminum and finished in a deep powder-coat of black enamel to match and complement all brands of UTV's. It features super-soft, cushioned pads covered with 600 denier PVC coated polyester.

The Rumble Seat comes with seat belts to insure safe transport of your passengers. They also feature quick-detach brackets that allow instant installation and removal to accommodate changing needs. The total weight capacity for this model is 300 lbs.

The Rumble Seat includes safety straps to insure bed stability. When safety straps are installed, the bed tilting function is disabled.

Fits all popular brands of UTV's: Polaris, Kawasaki, Suzuki, Yamaha, Kubota, Club Car, Arctic Cat, Cub Cadet, Etc.

Dimensions 30" h x 47" w x 16" d

WARNING: Passengers must be 18 years of age. Rumble Seat must be installed to face rear of vehicle. Safety straps must be attached and safety belts must be worn at all times when using the Rumble Seats.

Deluxe UTV Rumble Seat (Heavy Duty)

Model UVDRS200BL

The Heavy Duty Deluxe Rumble Seat adds a touch of class to any popular utility vehicle. It features plush, durable, cushions covered in 600 denier PVC coated polyester. Constructed of 1½ inch, heavy-duty aircraft aluminum and finished in a deep powder-coat of black enamel to match and complement all brands of UTV's.

The Deluxe Rumble Seat HD comes with safety straps and seat belts to insure safe transport of your passengers. When installed, the safety straps disable the bed's tilting function. The Deluxe Rumble Seat also features quick-detach brackets that allow instant installation and removal to accommodate changing needs. The total weight capacity is 350 lbs.

The Deluxe Rumble Seat works well with all the popular brands and models of UTV's such as: Polaris, Suzuki, Kawasaki, Arctic Cat, Kubota, Club Car, John Deere, Imported Mini-trucks, Yamaha, and Cub Cadet.

Dimensions 30" h x 47" w x 16" d

Warning: Passengers must 18 years old to use the Deluxe Rumble Seat. Safety straps must be installed and seat belts worn at all times when using the Deluxe Rumble Seat HD

**Deluxe Rumble Seat is made of heavier duty aluminum but has same dimensions as our Rumble Seat Original.*

Made with pride in the USA

Quick-Draw Gun Rack

Model QD800 (vertical floor mount)

Here's a universal-mounting, two-gun rack that puts your firearm at your fingertips as you cruise your hunting property. It mounts in a "stand alone" fashion and can be positioned to your preferred angle for quick access and maximum use of passenger space. The Quick-Draw holds two guns (rifle, shotgun or muzzleloader) securely and protected in a soft, cushioned cradle. Guns are secured with hook and loop fastener straps in super-soft holding cradles that form to the exact size of the stock or forearm of the gun it is holding.

Comes complete with all necessary hardware for quick & easy installation.

Note: A Quick-Draw Quick Detach Plate can be purchased separately to allow instant installation and removal of the Quick-Draw Gun Rack.

Quick-Draw Quick-Release Adapter Plates

Model QD800QDP

Mounts to the floor of most side-by-side UTV's, golf cart-type vehicles and pickup trucks. Once installed, the QD800 QuickDraw Gun Rack can be removed or re-installed in seconds by removing four wing knobs.

Constructed of aircraft aluminum and comes complete with all mounting hardware.

Quick Draw™ UTV Overhead Bow Rack

Patent # D687,247S

The QuickDraw Overhead Bow Rack holds your bow securely in the inside roof area of the UTV. Also for utility vehicles with covers on the top, the bow is totally protected from the elements.

- Unique mounting system installs in minutes without drilling or bolting
- Super-soft foam holding cradles provide easy access, secure transport and prevents disturbance to the bow's delicate settings
- Positioned high and forward to allow the quiver to stay installed and ready for action!
- Installs on UTV's with regular tops
(Will not work on tops that prevents access to rear top frame)

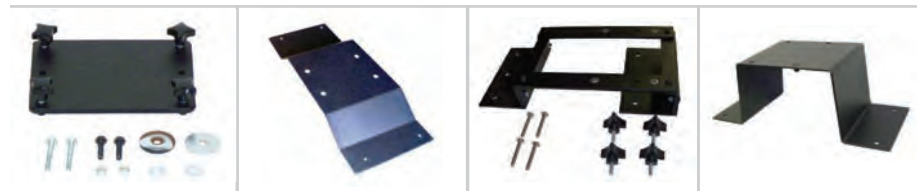

Available in 2 models

QD850OBR

(Fits Upper Roof Frames 23'- 28" front to back)

QD851OBR

(Fits Upper Roof Frames 28"- 35" Front To Back)

QD800QDP

fits all UTV/Custom Carts with a flat floor board (optional)

QD800PMP

Never transport a loaded gun in the QuickDraw Overhead Gun Rack

Power-Ride™ UTV Gun Rack

Model UVPR900 • Patent Pending

When heading to the woods, you want to use every inch of your UTV space wisely. You want a lot of leg room, a lot of passenger room, and especially a lot of equipment storage room. The Power-Ride allows you to transport two firearms safely and securely.

The Power-Ride Gun Rack mounts snugly to the back of the UTV cab and holds two guns in protective, super-soft cradles with hook and loop fastener straps. Your guns are safe and secure, even over rough terrain. The Power-Ride includes a unique mounting base that attaches to the UTV frame and adjusts to fit all popular brands.

The Power-Ride Gun Rack weighs only 12 lbs. and is UPS shippable.

With the turn of two wing-knobs, the Power-Ride can be installed or removed in seconds, making it the most versatile, most convenient accessory ever! One minute you have a plain UTV—the next, you have a hunting machine!

Framed in super-strong aircraft aluminum and finished with tough, powder-coat paint for years of lasting, dependable service. Fits all popular brands and models of UTV's with a rack mounting width of 50" to 64".

Model UV-CCPR700 fits all smaller UTV's and Custom Carts with frames 36" to 50" wide.

Power-Ride™ UTV Bow Rack

Model UVPR901 • Patent # 6,199,734

Safe and secure transport of a bow is one of the most important factors in insuring the successful outcome of a bowhunt. A bow is a relatively fragile piece of equipment. Several bow accessories and components—the sight, the arrow-rest, wheels, cams and cables could be damaged, or almost as bad, the settings be disturbed. The patented Power-Ride Bow Rack is the most practical and space-saving method possible to safely transport a bow in a UTV.

The Power-Ride Bow Rack mounts on a unique bracket that attaches to or detaches

from the rear of the UTV cab frame in just seconds. The tension-loaded holding cradles grip the limbs of any compound or recurve bow firmly and totally prevent any other part of the bow from touching anything. At the end of the ride, your bow will be right and ready.

Weights only 13 lbs. and fits all popular brands and models of UTV's that have a rack mounting width of 50" to 64".

Model UV-CCPR701 fits all smaller UTV's and custom carts with frames 36" to 50" wide.

Power-Ride™ UTV Crossbow Holder

Model UVPR901CB • Patent # 6,199,734

Transporting a crossbow on a UTV is a challenge—the crossbow has to be held securely and positioned for protection. The Power-Ride Crossbow Holder utilizes two, patented, unique Great Day mechanisms to attach the unit to the frame of the UTV. First, the Power-Ride mounting bracket adjusts and conforms to any style of UTV frame and the Tension-Lok holding cradles safely and securely holds the crossbow in place.

The Power-Ride Crossbow Holder attaches on the back side of the UTV frame—out of harm's way yet easily accessible. The Power-Ride frame is constructed of aircraft aluminum and attaches in seconds with wing-knobs.

Fits all popular brands of UTV's and weighs only 14 lbs.

Power-Ride™ Spare Tire Carrier

Model UVPR905STC

Nothing can be more frustrating than getting stranded in a remote place with a flat tire on your UTV. Great Day's Power-Ride Spare Tire Carrier solves the problem by allowing you to take a spare tire with you. The Power-Ride Carrier works equally well attached to the upper roll bar or to the back of the cab.

Utilizing our Power-Ride mounting system that installs in seconds with no drilling or bolting required, the spare tire is held in place with two mounting studs and secured with easy-grip, fluted wing-knobs. Fits UTV's with frames (roll bars) 50" - 64" wide, weighs only 16 lbs and ships by UPS.

Model UVCCPR705STC, fits narrower UTV's with roll bars measuring 36 to 50" wide.

Made with pride in the USA

Power-Ride UTV Gas/Water Carrier

Model UVPR904 GWC

Utility vehicles are ideal for long trail rides and work projects. Having extra gasoline or water can be the key to insuring a successful trip or completing a job. The Power-Ride UTV Gas/Water Carrier mounts instantly to the rear cab frame of all popular standard-sized UTV's with frames 50" - 64" wide using Great Day's unique mounting system.

The Power-Ride UTV Gas/Water Carrier is designed to work with containers with attachment hardware. Constructed of aircraft aluminum, weighs only 12 lbs and ships by UPS.

UVCCPR704 GWC fits all smaller UTV's and custom carts with frames 36" - 50" wide.

Gas and water containers not included.

UTV Front Rack

Model UVFR751

The Front Rack mounts quickly and easily onto most full-sized UTV's and features a unique pivoting mechanism for gaining access to the front storage compartment. Removing two quick-clip pins and in seconds the Front Rack can be rotated forward—allowing the storage compartment door to be opened and closed.

Constructed of aircraft aluminum and provides a 18" x 50" x 7" carrying cradle with multiple tie-down points. A super-tough, sleek, powder-coat finish provides good looks and insures lasting quality. Weighs only 23 lbs. and has a load limit of 250 lbs.

Model CCPR751 is available for Custom Carts.

Power-Pak Treestand Rack

Model 557

The Power-Pak Treestand Rack is designed to transport a treestand on an ATV in total silence. The Power-Pak cradles the treestand in cushioned, camo covered holding arms in a way that no part of the treestand touches metal. The Power-Pak is designed to accommodate large or small treestands equally well.

Loading and unloading the treestand can be done in seconds! The treestand and all of its components can be set into the cushioned holding arms and secured instantly. The Power-Pak's two holding straps keep the stand quietly in place even over the roughest terrain.

The Power-Pak is framed in aircraft aluminum and weighs only 4 lbs. It is designed to fit all popular brands of ATV's and off-road vehicles that include a rear cargo rack. The Power-Pak installs quickly on any ATV with ordinary hand tools.

Universal UTV Utility Rack

Model UVUR10

Get the most out of your UTV with Great Day's Universal UTV Utility Rack. The Utility Rack adjusts to fit almost every UTV on the market. Clever telescoping frame makes installation a snap! The Utility Rack expands from 29" to 45" front to back, 41" to 59" side-to-side and up to 36" high. Also includes a 50" front extension that provides support when transporting longer items.

Constructed of super-strong, but light-weight 1 1/2" aircraft aluminum. Attach the Utility Rack securely to the UTV bed in minutes with either the lag screws or bolt and nuts provided. The Utility Rack weighs 35 lbs and is rated for loads weighing up to 100 lbs.

UTV Roof Rack

Model UVRR750

The Roof Rack is the perfect means for transporting light but awkward materials—leaving space in the vehicle for passengers and heavier, more manageable loads. Constructed of aircraft aluminum, weighs only 14 lbs. and provides a generous 22" x 50" x 7" cradle with multiple tie-down points. Installs directly to the top of any full-sized UTV quickly and easily. The Roof Rack comes with a tough coat of baked-on, black enamel that adds a touch of class to any rugged vehicle. Load limit, 100 lbs.

Model CCRR750 is available for Custom Carts.

Power-Pak Crossbow Rack

Model 556CB • Patent # 6,199,734

There are a lot of great things about owning and using a crossbow. Until now, transporting one on an ATV was not one of them. Great Day has met the challenge with the Power-Pak Crossbow Rack—the easiest and safest way possible to haul a crossbow.

The Power-Pak uses the patented "Tension-Lok" holding system that grasps the stock of the crossbow securely—no other component is touched—protecting all the sensitive mechanical settings.

The Power-Pak attaches to the ATV front at a clever angle reducing the risk of contact with vines and branches. The base of the Power-Pak Crossbow Rack is constructed of aircraft aluminum and installs in just minutes with regular tools.

Power-Pak ATV Gun Rack Model 557

Sometimes hunters unconsciously load ATV's down with bells and whistles that look good but are basically useless in the field. The best way to determine if an ATV accessory is worthwhile is to consider the number of times you actually use it and how important it is to the things YOU do. The one thing all hunters who own ATV's have in common is the need to free their hands for driving and transporting firearms in a safe and secure fashion. Great Day's Power-Pak Gun Rack is a no-nonsense, absolutely fail-proof, totally-functional, totally-dependable way to get the job done!

The Power-Pak 557 includes two sets of holding cradles that are "soft as a baby's behind" and will absorb the shock of riding an ATV over rough terrain—totally protecting two firearms and scope settings. Another great thing about the Power-Pak—it mounts almost anywhere and in any direction—on the front rack, back rack, front-ways, sideways, vertically or horizontally!

The Power-Pak Gun Rack is constructed of rock-solid aircraft aluminum and includes the mounting hardware to make installation quick and easy.

Made with Pride in the USA

Power-Pak ATV Bow Rack Model 556 • Patent # 6,199,734

Nobody understands a bowhunter's needs like another bowhunter! The Power-Pak Bow Rack was designed by bowhunters to secure, protect and transport the most important piece of equipment for the hunt. The Power-Pak provides maximum protection for both compound and recurve bows.

The first tension-powered bow rack ever for an ATV, the patented Power-Pak mounts conveniently on the front rack—secure and ready to ride. The Power-Pak can be adjusted to fit any length or style of bow and features quick release loading and removal.

Transport your bow with confidence and peace-of-mind! Your bow handle, the sight and all the fragile, sensitive parts of the bow are held suspended in mid-air, with nothing touching them or disturbing settings, even in the toughest traveling terrain. With the Power-Pak, you can be assured that your bow will arrive safe and secure, ready for the hunt! Aircraft aluminum frame—all mounting hardware included. Fits most popular brands and models of ATV's. UPS shippable.

Made with pride in the USA

An Investment in Protection

MIGHTY-LITE Aluminum ATV Front Rack Model MLFR50

The Mighty-Lite Front Rack is constructed of 100% aircraft aluminum to provide incredible strength and good looks and weighs only 10 lbs. Universal fitting—fits most Honda, Kawasaki, Suzuki, Arctic Cat, Yamaha and other brands and models of ATV's.

The Mighty-Lite ATV Front Rack measures 36" wide, 16" front-to-back, has 7 inch sides. Attaches quickly and easily to the original tubular and composite racks with Great Day's clever new accessory mounting hardware.

The MLFR50 is finished with a "tough as nails", black powder-coat enamel. It will never rust and will last for years with proper care.

MIGHTY-LITE Aluminum ATV Rear Rack Model MLRR60

Great Day's new Mighty-Lite Rear Rack is the ultimate rear rack for a four-wheeler—it combines the incredible strength and light weight of aircraft aluminum with sleek, good looks and universal fit. The Mighty-Lite fits most Honda, Polaris, Yamaha, Kawasaki, Arctic Cat and other brands of ATV's. Unlike steel mesh racks, the Might-Lite rack will never rust and will provide years of dependable service.

The Mighty-Lite provides a generous-sized cargo basket 41" wide, 26" deep and 7" high. Weighing only 14 lbs, the Mighty-Lite rack adds very little to the weight of the vehicle while providing an incredible hauling capacity. Installs with Great Day's clever new accessory attachment hardware. Finished with a "tough as nails", black powder-coat enamel.

MLRR60P fits Polaris ATV's

MIGHTY-LITE Aluminum ATV Deep Basket Model MLDR65

The Mighty-Lite Deep Basket offers ATV owners a means to transport larger items in style. The Deep Basket features a "drop basket" and measures 40" wide x 29" front-to-back and 13" deep. It is constructed of aircraft aluminum, weighs only 28 lbs and installs quickly with Great Day's unique quick-mount system.

The Mighty-Lite Deep Basket is ideal for transporting any gear, equipment or materials that do not exceed the vehicles manufacturer's stated weight capacity. The Deep Basket is finished in super-tough black, powder-coat enamel and will never rust.

MLDR65P fits Polaris ATV's

Made with pride in the USA

Add a new dimension of “packin” capacity to any off-road vehicle with a 2” hitch receiver.

Hitch-N-Ride Cargo Hitch Hauler

Model HNR1000ATV/UTV

With its low center of gravity, loading and unloading the Hitch-N-Ride eliminates a lot of backbreaking stress and strain. The “Z-Bar” attachment bar (7” rise), allows clearance for traveling over rugged, uneven terrain. Carrying cradle provides plenty of tie-down points to insure safe and secure transport.

- Installs in seconds with a regular hitch pin (not included)
- Constructed of aircraft aluminum; weighs only 21 lbs.
- 400 lb. load capacity
- Outside cradle dimensions: 22”x50”x7”
- Inside cradle dimensions: 20”x48”x6”

Hitch-N-Ride Magnum Cargo Hitch Hauler

Model HNR2000ATV/UTV

The Hitch-N-Ride Magnum installs in seconds with a regular hitch pin (not included).

- Aircraft aluminum construction, weighs only 25 lbs
- 400 lb load capacity
- Outside cradle dimensions: 22”x 50”x12”
- Inside cradle dimensions: 20”x48”x11”
- Z-Bar gives a 7” rise
- Shipping: 23”x52”x13”, 27 lbs

Hitch-N-Ride Auto-Truck Hitch Hauler

Model HNR1000T

Need some extra cargo room for your truck or automobile? Great day's Hitch-N-Ride has the right stuff for the job. Easily handles all kinds of cargo – luggage, ice chests, cartons, firewood, sports and hunting equipment. With 7 inch side-rails and handy tie-down points, the Hitch-N-Ride secures and delivers your “precious cargo” on-time, every-time.

Conveniently attaches in any 2” trailer-hitch receiver.

- 18lbs
- Aircraft aluminum
- Powder-coat finish in black
- 500 lb load capacity
- Outside dimensions: 22”x50”x7”
- Inside dimensions: 20”x48”x7”
- Shipping: 23”x52”x8” - 20 lbs

Magnum Hitch-N-Ride

Model HNR2000TB

Here's a hitch receiver cargo carrier with the frame and capacity to do some major hauling! The Magnum Hitch-N-Ride is a whopping 50” wide, 22” front-to-back and has 12” sides. It has a weight capacity of 400 lbs and has a super-strong aircraft aluminum frame for handling “rough n’ tough” loads.

Finished in durable, good-looking, black powder-coat. Weighs only 20 lbs—ideal for use on pickup trucks, autos or SUV's with 2” hitch receivers.

- Aircraft aluminum, weighs 20 lbs
- 400 lb load capacity
- Powder-coat finish in black
- Outside dimensions: 22”x50”x12”
- Inside dimensions: 20”x48”x11”
- Shipping: 23”x52”x13”, 22 lbs

Magnum Hitch-N-Ride XL

Model HNR2000TLB

The bar on the Magnum Hitch-N-Ride XL model is 8 inches longer than the regular model of the Magnum Hitch-N-Ride to accommodate vehicles with a rear exterior spare tire mount or vehicles with the need for extra room on the back.

- Aircraft aluminum, weighs 22 lbs
- 400 lb load capacity
- Powder-coat finish in black
- Outside dimensions: 22”x50”x12”
- Inside dimensions: 20”x48”x11”
- Shipping: 23”x52”x13”, 24 lbs

Hitch-N-Ride XL Auto-Truck Hitch Hauler

Model HNR1000TLB

The bar on the Hitch-N-Ride XL model is 8 inches longer than the regular model of the Hitch-N-Ride to accommodate vehicles with a rear exterior spare tire mount or vehicles with the need for extra room on the back.

- 41" Receiver Insert Bar
- 400 lb load capacity
- Aircraft aluminum, weighs 20 lbs.
- Powder-coat black finish
- Outside dimensions: 22" x 50" x 7"
- Inside dimensions: 20" x 48" x 6"
- Shipping: 23" x 52" x 8", 22 lbs

Hitch-N-Ride Auto-Truck Folding Hitch Hauler

Model HNR1000TF

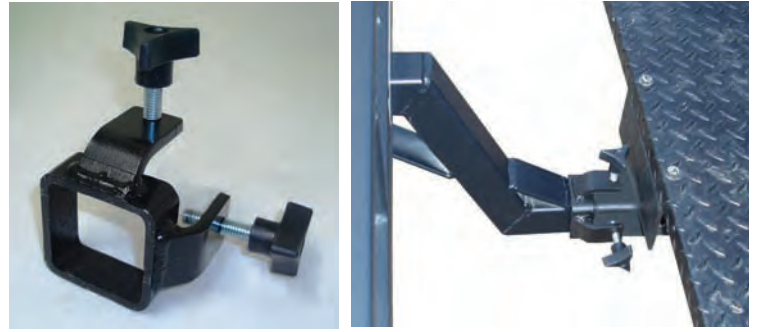

The HNR1000TF has the same features as the original Hitch-N-Ride such as aircraft aluminum construction, 400 lbs carrying capacity and the "hard as nails" powder-coat enamel finish. With Great Day's unique system, the folding Hitch-N-Ride Folding Cargo Carrier can be locked in place - up or down - with the extra hitch receiver pin provided. The HNR1000TF weighs 24 lbs and the cradle measures 22" x 50" x 7" (outside dimensions).

Note: The HNR1000TF comes with 1 hitch pin for use with the folding mechanism.

Hitch Stabilizer Model HS1001

The Hitch Stabilizer slips onto trailer hitches, hitch haulers—any piece of equipment requiring the use of a 2" hitch receiver—no tools needed. With two stabilizing 3/8" screws applying vertical and horizontal pressure to the hitch, side-to-side and up-and-down movement is totally eliminated. The Hitch Stabilizer is constructed of high-carbon steel and weighs about 1 lb.

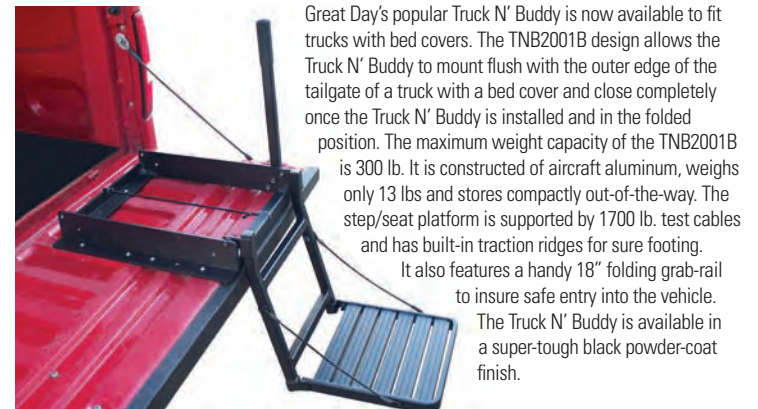

Truck 'N' Buddy™

Model TNB2000B

The Truck 'N' Buddy attaches to the tailgate of standard pickup trucks and has a 300 lb. weight limit. It is constructed of aircraft aluminum, weighs only 16 lbs. and stores compactly out-of-the-way on the tailgate itself. Folds and unfolds effortlessly in seconds to do the job at hand. Truck 'N' Buddy's step/seating platform is supported by 1700 lb. test cables and has built-in traction ridges for sure footing. Also features a handy grab-rail to insure safe entry onto the truck. Finished in super-tough black powder-coat enamel finish.

Truck 'N' Buddy™

For Trucks with Bed Covers Model TNB2001B

Great Day's popular Truck 'N' Buddy is now available to fit trucks with bed covers. The TNB2001B design allows the Truck 'N' Buddy to mount flush with the outer edge of the tailgate of a truck with a bed cover and close completely once the Truck 'N' Buddy is installed and in the folded position. The maximum weight capacity of the TNB2001B is 300 lb. It is constructed of aircraft aluminum, weighs only 13 lbs and stores compactly out-of-the-way. The step/seating platform is supported by 1700 lb. test cables and has built-in traction ridges for sure footing.

It also features a handy 18" folding grab-rail to insure safe entry into the vehicle.

The Truck 'N' Buddy is available in a super-tough black powder-coat finish.

Magnum Truck'N Buddy™

Model TNB3000MB

For those who make a living with their trucks, the Magnum Truck N' Buddy saves time and labor dollars, provides quick and easy access to tool boxes and materials, provides a comfortable work seat, eliminates accidents—literally transforming a truck into a mobile work station. The Magnum Truck N' Buddy stows compactly on the tailgate and never interferes with storing and hauling cargo in the truck bed. For campers and “tailgators”, the Magnum Truck N' Buddy is awesome! No need use valuable space with camp chairs—just drop the tailgate and have a seat!

Constructed of aircraft aluminum, it weighs only 29 lbs. and is finished in super-tough black powder-coat enamel. Attaches quickly and easily with 14 metal screws and provides two handy 18” grab-rails to insure safe entrance and exit. The platform is supported by two industrial cables giving the Magnum Truck N' Buddy an overall distributed weight limit of 400 lbs.

Center-Lok Overhead Gun Rack

FOR TRUCKS Model CL1500 (2 guns) • Model CL1501 (1 gun)

The Most Amazing Gun Rack Ever!

Great Day's Center-Lok Overhead Gun Rack for full-size pickup trucks employs our patented “Opposing Forces” installation system. No drilling, no screws or bolts required! No alterations to the roof to void manufacturer warranty. The Center-Lok is unique, tough and functional and comes with an unconditional lifetime warranty! Fits all full-size Extended Cab and Crew Cab pickups with center doorposts. Positions guns snugly against the headliner of the truck and holds them securely in cushioned, moldable gun clips with hook and loop fastener straps. Adjusts independently to different size guns. Framed in aircraft aluminum and finished in durable powder-coat enamel. Expands from 48” to 54”.

Weights only 8 lbs.

Center-Lok Overhead Gun Rack

FOR TACTICAL WEAPONS
Model CL1502T

Designed specifically to accommodate the unusual shape of tactical weapons and transport tactical-styled firearms in regular extended cab and crew cab pickup trucks. With Great Day's patented “Opposing Forces” installation system, the Center-Lok Gun Rack can be installed or removed in an amazing two minutes! No drilling, no bolts or screws required. Designed. Weapons are positioned snugly against the truck's headliner in cushioned, moldable cradles. Instant access is as easy as pulling two hook and loop fastener tabs. The CL1502T is constructed of super-strong aircraft and comes with a lifetime warranty against defects in workmanship or materials.

QuickDraw Overhead Gun Rack

FOR JEEP WRANGLER
Model QD857-OGR-JEEP

Great Day just developed the perfect gun rack for the Jeep Wrangler that installs in seconds inside the front headliner. The QuickDraw holds two full-size guns (with or without scopes) in soft, foam-lined gun clips—held securely with handy hook and loop fastener straps. Expands out from 42 to 48 inches and locks in place to the Wrangler's side roll bars with Great Day's patented “opposing force” installation system. The QuickDraw is constructed of aircraft aluminum, finished in black powder-coat enamel and weighs only 6 lbs.

QuickDraw Overhead Gun Rack

FOR TACTICAL WEAPONS FOR JEEP WRANGLER Model QD857T-OGR-JEEP

The QuickDraw Tactical Overhead Gun Rack is especially designed to accommodate the unusual shape of tactical weapons and transport tactical-styled firearms in Jeep Wranglers. Expands out from 42 to 48 inches and locks in place to the Wrangler's side roll bars with Great Day's patented “opposing force” installation system. Can be installed or removed in an amazing two minutes! No drilling, no bolts or screws required. Weapons are positioned snugly against the truck's headliner in cushioned, moldable cradles. Instant access to the weapons is as easy as pulling two hook and loop fastener tabs. Constructed of super-strong aircraft and comes with a lifetime warranty against defects in workmanship or materials. Weights only 6 lbs.

Rugged Rails Super-tough Truck Bed Rails

Model RR100SB and RR100LB

Here's the most economical way possible to make your truck more useful and enhance its looks at once—Great Day's Rugged Rails provide tie-down points for securing loads and also gives your truck a classy, macho look. Constructed of 1½ inch, heavy-duty aircraft aluminum and finished with a super-tough, black powder-coat. Includes necessary hardware to install on any bed design. Rugged Rails are backed by a two year warranty.

Available in two models to fit all pickup trucks with either short or long beds:

- Rugged Rails for short bed (RR100SB) weigh 11 lbs and are 54" long.
- Rugged Rails for long beds (RR100LB) weigh 13 lbs and are 71" long.

Side-Step Truck Step

Model TS300

Great Day's new Side-Step provides an instant "leg up" to get you in and out of your pick up bed quickly and safely. The TS300 attaches to the trailer hitch and can be left in place at all times—ready when you need it. The Side-Step is constructed of aircraft aluminum and has a weight capacity of 300 lbs. It features a 3" x 6" step plate with gripping ridges to provide sure footing. The Side-Step telescopes from 44" in to only 34" when not in use—with the simple pull of a quick-clip pin, it can be re-extended and ready to go! The Side-Step weighs only 8 lbs.

Rapid Rack Removable Transport Rack

Model RTR200

Most pickup truck owners occasionally are faced with the need to haul materials and equipment longer than the bed of the truck. With Great Day's Rapid Rack, be ready to lock, load and haul in just minutes! Includes two universal-fitting support racks—together providing the means to carry up to 200 lbs of cargo. Racks adjust for different bed widths and attach securely at the stake holes with 3/8" toggle bolts—no drilling required.

The Rapid Rack is constructed of 1½" aircraft aluminum, finished with super-tough black powder-coat enamel and weighs only 24 lbs. It fits compactly in a 33"x30"x4" carton for easy storage and UPS shipping. Dimensions: 59"x67" (inside bed) - 28 ¼" tall.

Rugged Rack Truck Window & Cab Protector

Model RR200B

Without protection, the rear area of a truck cab can take a beating from regular use—especially when the truck is used for transporting ATVs, lawnmowers, materials and other equipment. The Rugged Rack is constructed of rust-proof, super-tough, 1½" aircraft aluminum and comes standard with a rock-solid black powder-coat finish. Its design features a strategically positioned framework that provides total protection from shifting loads. Fits all trucks with inside bed widths from 62 to 65 inches. Heavy-duty mounting plates come complete with installation instructions and necessary attachment hardware. The Rugged Rack weighs only 19 lbs. and is backed by a two year warranty.

Mighty-Lite Scooter Carrier

Model ML500SC (regular) Model ML500SCF (Folding)

A handicapped or elderly person requiring the use of a motorized scooter needs every measure of convenience possible. The Mighty-Lite Scooter Carrier makes life a little easier by eliminating the need for removing the carrier between use. With the ML500SCF folding model, simply fold it up neatly behind the vehicle and enjoy driving and parking in a normal fashion. Both The Mighty-Lite Regular and Folding Scooter Carriers are constructed of aircraft aluminum, includes a 60" long ramp providing easy entry onto the 50"x28" platform. The Folding Scooter Carrier unit is held solidly in place, whether up or down, with use of a regular hitch pin. Weighs only 48 lbs., fits all regular 2" hitch receivers and has a total weight capacity of 400 lbs.

Note: The ML500SCF comes with 1 hitch pin for use with the folding mechanism on this model.

Hitch-N-Ride Rampup Carrier

Model HNRU501 (Regular) Model HNRU501F (Folding)

Looking for classy looks, great value, quality construction, perfect performance and easy loading for transporting miscellaneous equipment and medical scooters? Now, there's a new model of Great Day's original Hitch-N-Ride Ramp Up Carrier that folds neatly at the rear of the vehicle—out of the way but ready in an instant when it's needed. Both model feature aircraft aluminum construction, 400 lbs carrying capacity and the "hard as nails" powder-coat enamel finish. With Great Day's unique system, the

folding Hitch-N-Ride Folding Ramp Up Carrier can be locked in place - up or down – with the extra hitch receiver pin provided. Both models weigh only 48 lbs. and fits all regular 2" hitch receivers. The carrying platform measures 50"L x 28" FTB with 7" side-rails. The folding loading ramp of the Ramp Up Carrier is 60" long when unfolded—providing super-easy loading.

Note: The HNR501F comes with 1 hitch pin for use with the folding mechanism on this model.

Hitch-Up Pet Step Model HU200

Got a hefty or aging pet that needs a safe and easy means of getting into and out of your SUV? The Hitch-Up is designed for the pet without the ability to jump into a vehicle—the perfect platform for your dog to walk in and out with no assistance. No more lifting and straining. The Hitch-Up attaches in seconds to a regular 2" hitch receiver and folds neatly out of the way when not in use. The platform is constructed of aircraft aluminum, measures 16"L x 13.5" W, folds to 17"L x 16"W x 3"D, and weighs only 8 lbs. The Hitch-Up comes with a black super-tough powder-coat enamel finish. It has a 300 lb. weigh capacity.

Plot Pro ATV Spraying System

The Plot Pro Spraying System is a revolutionary solution to small-scale spraying—ideal for use around the farm, ranch, business, home or hunting lease! The Plot Pro Systems are ideal for use with any size or brand of ATV. The standard Plot Pro Systems for ATVs come complete with 25 gallon, corrosion-proof polyethylene tank, a Boominator boomless tip and a sturdy metal, adjustable handwand. They also include dependable 12 volt ShurFlo demand pumps that connect directly to the vehicle's battery and are controlled with a handy toggle switch. Each ATV Plot Pro System comes with a special boomless tip bracket that adjusts up or down to determine the spray width.

PLP2509-ATV

Includes 25 gallon tank, 1.8 GPM pump, adjustable handwand and 15' spray tip

PLP2525-ATV

Includes 25 gallon tank, 2.8 GPM pump, adjustable handwand and 25' spray tip

Plot Pro UTV Spraying System

Designed to conveniently mount to the cargo beds of UTVs or trucks or to hitch-receiver cargo carriers. The Plot Pro is a complete system—includes corrosion-proof polyethylene tank, a choice of 1.8 or 2.8 GPM ShurFlo pumps, the amazing Boominator boomless spray tip and a sturdy metal, adjustable handwand. The single boomless tip delivers coverage from 15' to 25' wide—eliminating the need for awkward booms that are difficult to maneuver in close areas.

Great Day offers Plot Pro systems with 25 or 40 gallon tanks and special brackets for hitch receiver mounting.

PLP2509-UTV 2" Includes 25 Gal tank, 2" Hitch receiver bracket, 1.8 GPM pump and 15' tip

PLP2509-UTV 1.25 Includes 25 Gal tank, 1.25 Hitch receiver bracket, 1.8 GPM pump and 15' tip.

PLP4015-UTV 2" Includes 40 Gal tank, 2" Hitch receiver bracket, 1.8 Gal pump and 15' tip.

PLP4015-UTV 1.25 Includes 40 Gal tank, 1.25 Hitch receiver bracket, 1.8 GPM pump and 15' tip.

PLP4025-UTV 2 Includes 40 Gal tank, 2" Hitch receiver bracket, 2.8 GPM pump and 25' tip.

PLP4025-UTV 1.25 Includes 40 Gal tank, 1.25" Hitch receiver bracket, 2.8 GPM pump and 25' tip.

Super-Spot™ Sprayers

Perfect for use with ATV's, UTV's, Golf Carts and Trucks

When it comes to getting the job done, sometimes simplicity is your best friend. The Super-Spot sprayers don't come with all the bells and whistles—they just do the job. Available in 25 and 40 gallon models and designed to conveniently strap to ATV rear racks or UTV beds without need of hardware or wrenches. The tanks are constructed of corrosion-proof polyethylene and come equipped with dependable Shur-Flo pumps. A handwand spray nozzle with 8 feet of hose, splash-proof vented lid, a toggle cut-off switch, large 15" fill well and a drain valve come standard on all models. The SuperSpot handwand can be set to deliver a fine mist for delicate, controlled applications or adjusted to reach out to 25 ft.

Model SS25 Includes Shur-Flo 60 psi, 1.8 gpm pump

Model SS2545 Includes Shur-Flo 45 psi, 2.8 gpm pump

Model SS4045 Includes Shur-Flo 45 psi, 2.8 gpm pump

Model SS4060 Includes Shur-Flo 60 psi, 1.8 gpm pump

Shurflo 8000 Series pumps are the pump of choice for sprayers used on the farm or around the yard.

- Designed for heavy duty spraying and fluid transfer applications
- Chemical resistant materials
- Adjustable pressure switch
- Easy to replace

Super-Spot™ ATV / UTV Boom Assemblies

Models SS909 and SS911

Super-Spot booms are multifunctional—ideal for use around the farm and hunting site. Each Super-Spot Boom comes complete with hose, cutoff valve and connectors for attaching directly to Super Spot Sprayers. The SS909 is a 10ft spring hinged boom for ATV's featuring swing-away "wings" that allow the end of the boom to move away when coming into contact with any obstacle therefore helping to prevent damage to the boom. Our SS911 is made to accommodate UTV's with 2" receivers and it has the same features as our SS909. All Super Spot Booms are constructed of aircraft aluminum.

Load-Lite™ Tri-fold Loading Ramps

Tri-fold loading ramps have a lot of good selling points—first, they give you plenty of loading width, but still fold compactly enough to slide between the wheels of most ATVs and UTV's. Then, Great Day's Load-Lite Tri-fold Ramps add a few things that you won't find with the other guys. They are made of lightweight aircraft aluminum, they have gripping ridges on the loading rungs, they have gripping ridges on the loading rungs for sure-footed loading, quick attaching security straps for safe loading and the lightest weight of any tri-fold ramp on the market.

Model LL46817

Here's a tri-fold ramp that offers both extra length and rung spacing to handle loading ATVs or lawnmowers. With the open center section, the extra length provides for safe, less inclined loading.

- Size: 46"x81" open, 15"x81"x6.75" folded
- Rungs/Panel: 11
- Rung Length: 13"
- Rung Spacing: 7"
- Weight: 24 lbs
- Capacity: 1250 lbs
- Shipping: 26 lbs, 16"x82"x7"

Model LL50697

A tri-fold ramp has one huge advantage – it can be folded and conveniently stored between the wheels of a 4 wheeler. The LL50697 has been the workhorse of our line for a long time. It is ideal for ATVs and lawnmowers.

- Size: 50"x69" open, 16"x69"x6.75" folded
- Rungs/Panel: 9
- Rung Length: 14.5"
- Rung Spacing: 7"
- Weight: 26 lbs
- Capacity: 1500 lbs
- Shipping: 28 lbs, 18"x70"x8"

Model LL46827

Sometimes the height of a truck bed calls for a longer ramp to insure safe and smooth loading. The LL46827 is the perfect ramp for "high rollers".

- Size: 46"x82" open, 15"x82"x6.75" folded
- Rungs/Panel: 11
- Rung Length: 13"
- Rung Spacing: 7"
- Weight: 33 lbs
- Capacity: 1250 lbs
- Shipping: 34 lbs, 16"x82"x7"

Tri-fold Adjustable Aluminum Ramps

ATV/UTV Trailer Ramp

UTV/Zero-Turn Loading Ramp

Patent # 6,837,669B2

LoadLite™ says a "heap" about Great Day's awesome line of loading ramps. Every model of LoadLite ramp is designed to fill a specific need and then manufactured to get the job done. All LoadLite ramps are constructed of aircraft aluminum, proven to perform the jobs for which they were intended and tested beyond the weight limit specified. They employ uniquely designed safety tie-down straps and include soft plastic covered holding fingers for positive grip and scratch protection. LoadLite ramps also include qualities that last long after the purchasing decision – such as a rock solid warranty and accessible customer service. Whatever the loading job, when you choose LoadLite, you have chosen the best.

TRI-FOLD ADJUSTABLE LITE Model LL52765R

Not all ATVs were created equal. Here's the perfect ramp for today's changing needs – from narrow-to-wide loading needs. Pull two quick clip pins and you've got new loading capabilities. Ideal for ATVs or lawnmowers

- Size: 42"-52"x76" open, 14"x76"x5.5" folded
- Rungs/Panel: 13 • Rung Length: 12" • Rung Spacing: 5"
- Weight: 25 lbs, Load Capacity: 1250 lbs
- Shipping: 16" x 78" x 7"

TRI-FOLD ADJUSTABLE HD Model LL60847R

Got a wide track ATV and a super tall truck – no problem for this 84" long ramp that adjusts to 60" wide. This ramp will never go out of style if you change ATVs, pull two pins, adjust and keep loading!

- Size: 42"-60" x 84" open, 15" x 84" x 5.5" folded
- Rungs/Panel: 11 • Rung Length: 13" • Rung Spacing: 7"
- Weight: 25 lbs, Load Capacity: 1250 lbs
- Shipping: 17" x 84" x 7"

Model LL16445

When it comes to loading an ATV or UTV onto a trailer, the main concern is to do it safely and efficiently. Great Day's new Trailer Ramp is the best means and the best value ever in a loading ramp. The LL16445 is constructed of 100% aircraft aluminum and; combined, its two 16"x44" panels deliver a loading capacity of 2000 lbs.—enough to handle the heaviest ATVs and UTV's! The Trailer Ramp features gripping ridges on the rungs to insure non-slip loading and plastic-coated fingers and security straps that provide positive attachment to the trailer. Ships by UPS.

- Size: 16"x44" (2 panels)
- Rungs/Panel: 8 • Rung length: 14" • Rung spacing: 5"
- Weight: 15 lbs. • Capacity: 2000 lbs / pair
- Shipping: 45"x17"x5", 16 lbs.

Model LL21643

The weight of most UTV's and electric-powered carts require a loading ramp with a lot of holding power. It has to hold a lot of weight and provide a good flooring design and loading space. The UTV Loading ramp handles loading and unloading utility vehicles and electric-powered carts safely and effectively. The LL21643 is rated at a whopping 3600 lbs. total capacity and is perfect for the popular 16 ft trailers that do not provide a means for loading. The loading panels on this ramp are 20 ¼" wide and are designed especially for the unique loading requirements of utility vehicles. This is a ramp that has the strength to handle the toughest jobs. Use both panels to load UTV's and electric carts or use a single panel to load motorcycles weighing up to 1800 lbs.

- Size: 21"x64" (2 panels)
- Rungs/Panel: 30 • Rung length: 8-5/8" • Rung spacing: 3"
- Weight: 29 lbs. • Capacity: 3600 lbs / pair
- Shipping: 65"x22"x8", 32 lbs.

Super-Lite Loading Ramps

ALL PURPOSE RAMP Model LL14715

This ramp is perfect for those who want a feather-weight, dependable set of ramps that performs for loading a variety of off-road vehicles. The 14"x71" dimensions and 5" rung spacing makes the Super-Lite ideal for loading ATV's, Lawnmowers, etc. You can even use one panel as the perfect ramp for dirt bikes, small street bikes and scooters. Weighing only 19 lbs., the Super-Lite is the lightest weight, all-purpose set of ramps on the market and...it is rated with a whopping weight limit of 1500 lbs for the pair! Another great feature—the panels are not connected and can be used for loading vehicles with different wheel spacing widths. The Super-Lite is constructed of aircraft aluminum and comes with safety straps and soft-plastic tailgate protectors. Ships by UPS.

- Size: 14" x 71" • Load Capacity: 1500 lbs
- Rungs/Panel: 12 • Rung Length: 14" • Rung Spacing: 5"
- Weight 19 lbs. • Shipping: 21 lbs, 23"x72"x6"

DIRT BIKE/MOPED RAMP Model LL14715S

- Size: 14" x 71" • Load Capacity: 750 lbs
- Rungs: 12 • Rung Length: 14" • Rung Spacing: 5"
- Weight: 9.5 lbs • Shipping: 21 lbs, 13"x72"x5"

Here's the perfect loading ramp for your small street bike, dirt bike or moped that won't break your back or your wallet! The Super-Lite 14715S lives up to its name—it only weighs 9.5 lbs yet will handle a total load of 750 lbs.! The Super-Lite is constructed of aircraft aluminum and measures 14"W x 71"L with rungs spaced at only 5" apart to insure smooth and solid loading. The Super-Lite can be kept and transported by the bike for quick access. It includes a safety strap and soft, plastic end covers to prevent scratches and damage to the tailgate. The Super-Lite is the perfect ramp for the biker on-the-go!

Load-Lite™ Aluminum Bi-fold Loading Ramps

Great Day's Bi-fold ramps are especially suited to ATV and lawnmower owners who are looking for a lot of performance at a reasonable price. Also, our bi-folds have never been known to strain anyone's back. With use of clever aircraft aluminum extrusions and unique designs, the light-weight Load-Lite Bi-folds live up to their name! Great Day gives you a choice of three bi-folds that will handle vehicles with wheel bases from 42 to 48 inches wide. All three models include security tie-downs—all three fold compactly for easy storage.

BI-FOLD LITE Model LL42717

An affordable, all-purpose bi-fold ramp that is featherlite but tough as nails. Features aircraft aluminum construction, tie-downs and soft plastic holding finger covers to protect your truck bed.

- Size: 42"x71" open
- 21"x71"x4.5" folded
- Rungs/Panel: 10
- Rung Length: 19"
- Rung Spacing: 7"
- Weight: 19 lbs
- Capacity: 1250 lbs.
- Shipping: 22 lbs, 23"x72"x6", 14/pallet

BI-FOLD HD Model LL46717

With ATV's and lawnmowers being made larger and wider each year, the LL46717 was designed to handle a wide range of 4 wheelers and lawnmowers. It is another multi-purpose, high-value choice.

- Size: 46"x71" open, 23"x71"x4.5" folded
- Rungs/Panel: 10
- Rung Length: 21"
- Rung Spacing: 7"
- Weight: 21 lbs
- Capacity: 1250 lbs.
- Shipping: 23 lbs, 24"x72"x5", 14/pallet

BI-FOLD WIDE Model LL48697

Our widest bi-fold ramp! Designed specifically for larger ATV's. With its 48" width, you will have room to spare when loading even the largest models of 4 wheelers.

- Size: 48"x69" open, 24"x69"x4.5" folded
- Rungs/Panel: 9
- Rung Length: 22"
- Rung Spacing: 7"
- Weight: 22 lbs
- Capacity: 1250 lbs.
- Shipping: 22 lbs, 25" x 70" x 5", 14/pallet

BI-FOLD Model LL44717

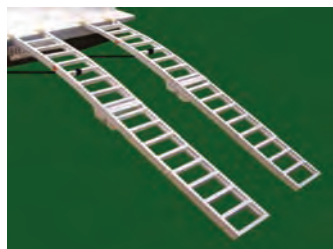

- Size: 44"x71" open, 22"x71"x4.5" folded
- Rungs/Panel: 10
- Rung Length: 20"
- Rung Spacing: 7"
- Weight: 21 lbs
- Capacity: 1250 lbs.
- Shipping: 23 lbs, 23"x72"x5", 14/pallet

Load-Lite Max Arch Loading Ramps

Load-Lite says a "heap" about Great Day's awesome line of loading ramps. In today's fast-pace world, loading and unloading equipment is more than an incidental happening – it is usually critical to performing work or participating in recreational activities in a safe and timely fashion. Every model of Load-Lite ramp is designed to fill a specific need and then manufactured to get the job done. Our standard for quality is perfection. All Load-Lite ramps are constructed of aircraft aluminum, proven to perform the jobs for which they were intended and tested, beyond the weight limit specified. They employ uniquely designed safety tie-down straps and include soft plastic covered holding fingers for positive grip and scratch protection.

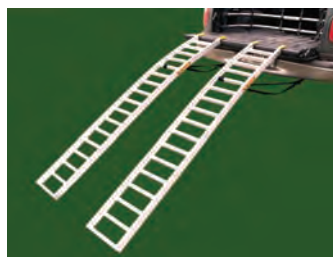

Load-Lite ramps also include qualities that last long after the purchasing decision – such as a rock solid warranty and accessible customer service. Whatever the loading job, when you choose a Load-Lite, you can be sure you have the best.

MAX ARCHED FOLDER Model LL12894F

Here's the ultimate set of ramps for both performance and convenience. The arched design will take care of low clearance needs – the folding feature provides storage in the smallest space of any loading ramp on the market.

- Size: 12" x 89"
- Rungs/Panel: 17 • Rung Length: 10" • Rung Spacing: 4"
- Weight: 29 lbs • Load Capacity: 750lbs/panel, 1500 lbs/pair
- Shipping: 31 lbs, 12" x 13" x 52", 20/pallet

MAX ARCH RAMP Model LL12894

Some ATV's, utility vehicles, and lawnmowers call for a low deck clearance. The Max Arch features an arched design that makes it possible to load lawnmowers and low clearance ATV's with ease. The two panels together provide an unbelievable 1500 lbs. of holding power.

- Size: 12" x 89"
- Rungs/Panel: 17 • Rung Length: 10" • Rung Spacing: 4"
- Weight: 22 lbs • Load Capacity: 750lbs/panel, 1500 lbs/pair
- Shipping: 24 lbs, 12" x 13" x 91", 20/pallet

MAX ARCH SUPER RAMP – Model LL12894SR

- Size: 12" x 84"
- Rungs/Panel: 17 • Rung Length: 10" • Rung Spacing: 4"
- Weight: 37 lbs • Load Capacity: 1250lbs/panel, 2500 lbs/pair
- Shipping: 39 lbs, 12" x 13" x 91", 20/pallet

Big-Top Tractor Canopy

Model TAP1000

The Big-Top Tractor Canopy provides more than just comfort. Enjoy protection from the sun, heat, rain and overhead objects with the super-tough Big-Top Tractor Canopy. Weighs only 27 lbs. and installs with no special tools needed. The main vertical structures adjust in height, width and roll-bar angle to fit most category 1 tractors. The super-tough, UV-resistant top is constructed of ¼ inch polyethylene. It measures 36 inches wide and 46 inches long and fits roll bar widths of 32"-36" wide. The metal frame is constructed of 1½" aircraft aluminum and is powder-coat painted for years of dependable service.

Big-Top Universal Zero-Turn Lawnmower Canopy

Model LNP1012

With Great Day's Big-Top Canopy, mowing the lawn is always a "shady deal".

The Big-Top canopy measures 36 inches wide and 46 inches long, covering and shading the operator at all times. The Big-Top canopy fits all zero-turn riding lawnmowers with roll-bars. Installs quickly with a minimum of drilling or use of special tools. The frame is constructed of 1-½ inch, aircraft aluminum and adjusts in height, width and roll-bar angle. The Big-Top cover is made of heavy-duty 1/8 inch, UV-resistant, crack-proof polyethylene. All metal components are powder-coat painted for years of dependable service. The Big-Top canopy weighs only 27 lbs. and fits all the brands and models of Zero-Turn mowers with roll-bars 32"-36" wide.

Lawn Pro Lawnmower Hi-Hitch

Model LNP HH650

The Lawn Pro Lawnmower Hi-Hitch has dual attachment points—one for a trailer hitch ball and one for a hitch pin—a regular riding mower can be transformed into one of the handiest tools ever for pulling small trailers. The Hi-Hitch is braced and positioned perfectly at just the right height to keep trailers level and well-balanced. Constructed of super-strong aircraft aluminum construction and weighs only 2 lbs. Installs in easily and accepts all conventional trailer-hitch balls (trailer hitch ball not included). The Hi-Hitch mounts to all conventional riding lawnmowers with a minimum of drilling or modifications.

Double Duty Hitch Adapter

Model DD100

With the Double Duty Hitch Adapter, it is possible to switch from an implement that requires a ball hookup to one that uses a hitch pin in seconds. The DD100 is constructed of heavy aircraft aluminum and provides the strength to handle 100 lbs. of tongue weight and the maximum towing limits of most vehicles. Works with all 2" receivers and also can be attached to hitch pin mounts. Weighs only 2.5 pounds.

Note: Does not include trailer hitch ball.

Spando-Flage® Spando-Hands

Model SF305/306

America's Favorite Hunting Glove

Spando-Hands provide warmth, feel and camouflage. The rugged knit texture is thin enough for sensitive feel, yet thick enough to cut the chill of a frosty morning. Spando-Hands weigh less than an ounce and can be stored so compactly that an extra pair can be easily carried in a pocket. The Spando-Hands Model 305's come with gripper dots for extra gripping power—making Spando-Hands the perfect glove for gun or bow hunting. Spando-Hands "Grippers" also add a dimension of safety in climbing into and out of treestands. For those who prefer plain gloves, the Spando-Hands Model 306's come without gripper dots. All Spando-Hands can and should be washed often to eliminate human scent. Spando-Hands can be washed regularly without causing shrinking or fading. The gloves are comprised of 100% polyester fabric. One size fits all.

Spando-Flage "Shortcut" Facemasks

Model SF315

Here's the amazing SpandoFlage® "Shortcut" Facemask - no straps, no snaps, no wires or strings. Shortcuts have a stretch ratio of 10 to 1 and can be conveniently stored in even a shirt pocket. No other facemask on the market comes close to being as user-friendly, versatile and effective as SpandoFlage Shortcuts. The mask is comprised of a polyester/elastic blend material. "Shortcuts" have all the good things that hunters have always liked about Spando-Flage®—they form to the face for perfect camouflaged cover—they "breathe" to keep you comfortable in warm weather and they hug your face to cut the chill on a frosty morning. Best of all, they blend with camo clothing and the natural surroundings to literally cause a hunter to disappear. Ones size fits all.

Spando-Flage® Allusion Headnet

Model SF301

The Spando-Flage® Allusion Headnet is the only headnet that covers the entire face and allows you to look your prey in the eye. The SF301 has a more comfortable fit and a more effective, more detailed camo pattern. Allusion Headnets conform to the hunter's face therefore eliminating problems, common with all other face covers, of moving and blocking the sightline as you try to make the shot. The headnet is comprised of a polyester/elastic blend. One size fits all.

Some unique features of Allusion Headnets:

- Allusion Headnets can and should be washed regularly to eliminate human scent. Washing does not cause shrinkage or loss of shape.
- Allusion Headnets are available in most popular camo patterns and can be matched perfectly to hunting apparel.
- Eyeholes can be cut to the preferred size without raveling.
- Provides enough warmth to cut the early morning chill, but is ventilated for comfort on the warm days of early seasons.
- Ideal for all types of hunting in any season.

Available patterns include:

- SF301AP Realtree AP
- SF301BL Black
- SF301GR Woodlands Green
- SF301MO Mossy Oak
- SF301ACU ACU Digital
- SF301LC Lost Camo
- SF301LCAT Lost Camo AT

WindFloaters®

Model WF400 Patent # 5,958,585

Windfloaters™ are feather-light, natural fibers that float along with wind currents – following every updraft or downdraft – accurately tracing the wind’s path. No other wind-detecting products are capable of this. By releasing two or three of the Windfloater fibers periodically, the hunter can establish an invisible line of where his scent is being carried. Windfloaters come in a package with enough fibers to usually last an entire season of hunting.

Golden Buck Hunters Odorless Oil

Model GB014

No noise-No scent

Keep those stiff, squeaking parts of your gun, bow or treestand working smooth as silk without any tell-tale odor. Golden Buck Odorless Oil provides perfect lubrication and lasting protection for any outdoor equipment. The 1-¼ oz. squeeze container will easily last a hunting season with normal use. Just add a drop of Hunter's Odorless Oil before and after the hunt—protect the finish on your weapon or equipment and silence all moving parts.

Hot Wings Decoy Tree

Model HW5

Great Day's Hot Wings Decoy Tree positions five spinning wing decoys into a group that gives the appearance of multiple ducks landing—not a single decoy with moving wings. Ducks are most comfortable when they feel they are in the company of large numbers. The Hot Wings Decoy Tree brings in stubborn, "high flyers" and presents a fresh, untainted reason for ducks to drop in for a visit! The Decoy Tree attachment points are designed to accommodate either duck or dove decoys—making it equally effective for two season hunting. Constructed of aircraft aluminum and includes clip pin attachments and multiple positioning points. It also features two anchoring points and a handy shelf for using your boot for stable installation. The Decoy Tree weighs only 3 lbs and disassembles for compact transport and storage. Ships by UPS.

Load-A-Pup

Model LP500

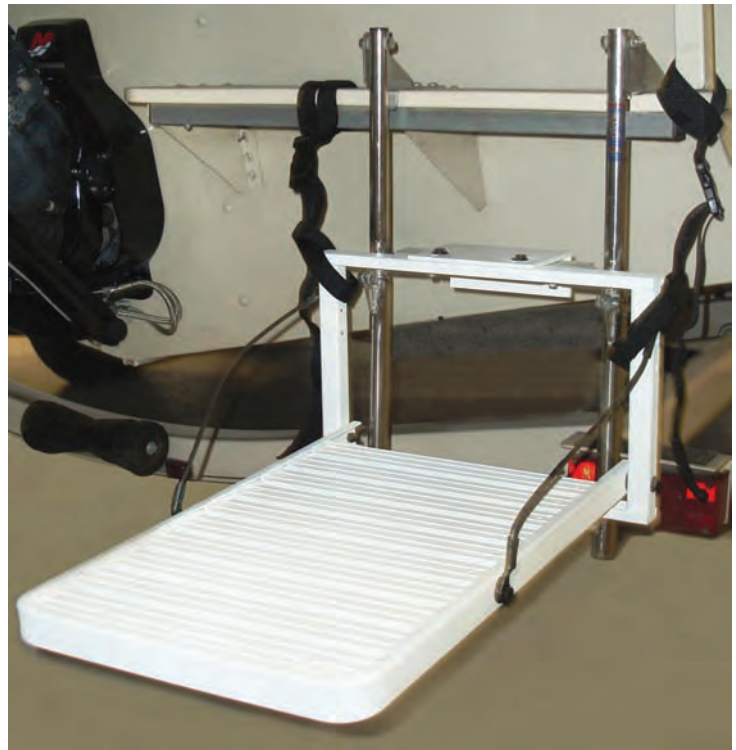

Your dog will never again have to sit home alone when you head out to the lake! With the Load-A-Pup, you and your dog can enjoy all the fun associated with recreational boating. Simply hook the Load-A-Pup to your boat's boarding ladder and you are ready for action. Your dog can leave and re-enter the boat at will. The great thing is, he does it without any help! No more bending, tugging or straining on a wet ball of fur.

The Load-A-Pup platform is constructed of light-weight, aircraft aluminum and includes gripping ridges to insure solid, safe footing as your dog climbs back into the boat after a swim. The Load-A-Pup's handsome, off-white, powder-coat finish not only complements the factory finish or color of any boat, but will help to insure years of dependable service.

The Load-a-Pup fits any boat that has a boarding ladder. It weighs only 7 lbs. and has a generous 13.5" X 20" platform. The maximum weight capacity is 200 lbs. Comes complete with security straps, installs in seconds and folds flat for compact storage when not in use. 1 year warranty against defects in workmanship.

- LPCK01 is a stainless steel conversion kit which makes the LP500 suitable to use in salt water
- LP500AK is an angle kit for ladders with rungs up to 5" deep (front to back)
- LP500PA is an adapter kit for ladders up to 24" wide

For use by pets only—Not for adults or children

Load-A-Pup Salty Dog

Model LP501

The Load-A-Pup Salty Dog platform is constructed of light-weight, aircraft aluminum and includes gripping ridges to insure solid, safe footing as your dog climbs back into the boat after a swim. The Load-A-Pup's handsome, off-white, powder-coat finish not only complements the factory finish or color of any boat, but will help to insure years of dependable service. Fits any boat that has a boarding ladder. It weighs only 7 lbs. and has a generous 13.5" x 20" platform. The maximum weight capacity is 200 lbs. It comes complete with security straps, installs in seconds and folds flat for compact storage when not in use.

- LP500AK is an angle kit for ladders with rungs up to 5" deep (front to back)
- LP500PA is an adapter kit for ladders up to 24" wide

For use by pets only—Not for adults or children

Load-A-Pup HD Model LP500HD

For the Huntin' Dog

Here's the safest, most effective way ever to get your "Huntin' Dog" in and out of the boat when retrieving. The Load-A-Pup HD attaches to the transom or side of any hunting boat and adjusts to the perfect level to allow your dog to exit and enter with ease. The Load-A-Pup's platform can be positioned at water level to eliminate the "boat-rocking" problems common to other systems.

The Load-A-Pup is constructed of aircraft aluminum and weighs only 7 lbs. With use of super-strong aircraft suspension cables, it will handle any size dog. It folds completely flat and compact for easy storage when not in use. The 14" x 20" platform is the perfect size for the job and is designed with gripping ridges to provide sure-footing and

protection from injury to the dog's feet. The Load-A-Pup comes with a super-tough powder-coating in earth-tone gray for perfect concealment. The maximum weight capacity is 200 lbs. Hook up a Load-A-Pup HD and make your next duck hunt pleasant for you and your water-dog!

For use by pets only—Not for adults or children
