

WATERPROOFNESS

- 1: Quick dry - The material doesn't have any membrane or DWR treatment
- 2: Water repellent (DWR Treated) - The material doesn't have any membrane so it doesn't have any waterproofness but it is treated with DWR for water repellency
- 3: Waterproof fabrics - Hybrid apparel made with waterproof fabrics but seams are not taped
- 4: Medium waterproofness - Waterproofness range is the Helly Tech Protection range 5000 to < 10000 mmH2O
- 5: High waterproofness - Waterproofness range is Helly Tech Performance range 10000 to < 20000 mmH2O
- 6: Extreme waterproofness - Waterproofness range is the Helly Tech Professional range +20000 mmH2O
