SECTION 2 - HAZARDS IDENTIFICATION

2.1 Classification of the Substance or Mixture				
Flam. Aerosol 1	H222	Physical Hazards	Flammable aerosol Category 1	
Press. Gas (Diss.)	H280	Physical Hazards	Gases under pressure Dissolved gas	
Eye Irrit. 2	H319	Health Hazards	Serious eye damage/eye irritation Category 2	
Stot Se 3	H336	Health Hazards	Specific target organ toxicity (single exposure) Category 3, Narcosis	
Asp. Tox. 1	H304	Health Hazards	Aspiration hazard Category 1	
Aquatic Acute 2	H401	Environmental Hazards	Hazardous to the aquatic environment - Acute Hazard Category 2	

2.2 **Label Elements**

Hazard Picto	ograms
--------------	--------

Hazard Pictograms				
	GHS02	GHS04 GHS07 GHS08		
Signal Word	Danger			
Hazard Statements	H222	: Extremely flammable aerosol		
	H280	: Contains gas under pressure; may explode if heated		
	H304	: May be fatal if swallowed and enters airways		
	H319	: Causes serious eye irritation		
	H336	: May cause drowsiness or dizziness		
	H401	: Toxic to aquatic life		

MDL

Precautionary Statements	P210	: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
		No smoking.
	P211	: Do not spray on an open flame or other ignition source.
	P251	: Pressurized container: Do not pierce or burn, even after use.
	P261	: Avoid breathing spray.
	P264	: Wash hands thoroughly after handling.
	P271	: Use only outdoors or in a well-ventilated area.
	P273	: Avoid release to the environment.
	P280	: Wear protective gloves and eye protection.
	P301+P310	: If swallowed: Immediately call POISON CENTER
	P304+P340	: If inhaled: Remove person to fresh air and keep comfortable for breathing
	P305+P351+P338	: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
	P312	: Call physician if you feel unwell
	P331	: Do NOT induce vomiting.
	P337+P313	: If eye irritation persists: Get medical advice/attention.
	P403	: Store in a well-ventilated place.
	P410+P412	: Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
	P501	: Dispose of contents/container to local regulations

Hazards Not Otherwise Classified

: None Identified.

2.4 Unknown acute toxicity

12% of the mixture consists of ingredient(s) of unknown acute toxicity (Oral) 12% of the mixture consists of ingredient(s) of unknown acute toxicity (Dermal)

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substance / Mixture

Substance / Mixture

: Mixture

3.2 Composition			
Substance name	CAS Number	% wt*	Classification
Hydrotreated Light Petroleum Distillate	64742-47-8	>= 30	Asp. Tox. 1, H304 Aquatic Acute 2, H401
Acetone	67-64-1	10 - 30	Flam. Liq. 2, H225 Eye Irrit. 2A, H319 STOT SE 3, H336
Hydrotreated Heavy Paraffinic Distillate	64742-54-7	5 - 30	Asp. Tox. 1, H304
Propane	74-98-6	5 - 10	Flam. Gas 1, H220 Press. Gas (Diss.), H280
N-Butane	106-97-8	1 - 5	Flam. Gas 1, H220 Press. Gas (Diss.), H280
Isobutane	75-28-5	1 - 5	Flam. Gas 1, H220 Press. Gas (Diss.), H280

SECTION 4 - FIRST-AID MEASURES

4.1 Description of First-Aid Measures			
General Measures	: Call a physician immediately.		
Inhalation	: Remove person to fresh air and keep comfortable for breathing.		
Skin Contact	: Wash skin with plenty of water.		
Eye Contact	: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.		

MDL

ngestion First-Aid Responder Protection	: Do NOT induce vomiting. Call a physician immediately. : Wear adequate personal protective equipment based on the nature and severity of the emergency.			
4.2 Most Important Symptoms	and Effects, Both Acute and Delayed			
Symptoms of Exposure	: Eye Irritation, Nose Irritation, Throat Irritation, Dermatitis, Central Nervous System Depression, Confusion, Headache, Dizziness, Narcosis, Drowsiness, Chemical Pneumonitis (Aspiration Liquid).			
Delayed Effects	: No known delayed effects.			
Immediate Effects	: No known immediate effects.			
Chronic Effects	: Because of defatting properties, repeated skin contact can cause skin damage such as chap, dermatitis, inflammation and the formation of eczema.			
Target Organs	: Central Nervous System, Eyes, Respiratory System, Skin.			
4.3 Indication of Immediate M	edical Attention and Special Treatment			
Notes to Physician	: Treat symptomatically.			
Specific Treatments/Antidotes	: No Information Available.			
Medical Conditions Aggravated	: May aggravate personnel with pre-existing disorders associated with any of the Target Organs.			
ECTION 5 - FIRE-FIGHTING ME	ASURES			
5.1 Suitable Extinguishing Med	lia			
Extinguishing Media	: Water, carbon dioxide, dry chemical, universal aqueous film forming foam.			
Unsuitable Media	: Water jet.			
5.2 Specific Hazards Arising fro	m the Chemical or Mixture			
Hazardous Combustion Products	: Decomposition products may include: oxides of carbon, smoke, vapors. See also Section 10.6.			
Specific Hazards During Firefighting	: Contents under pressure. Extremely flammable. In a fire or if heated, a pressure increase will occur which			
	may result in container bursting. Vapors heavier than air may spread along the ground and travel to an			
	ignition source.			
5.3 Special Protective Actions f				
Firefighting Instructions	: Use water spray to cool fire exposed aerosol containers, as contents can rupture violently from heat developed pressure.			
Protection during Firefighting	: Firemen should wear self-contained breathing apparatus with full face-piece operated in positive pressure mode.			
ECTION 6 - ACCIDENTAL RELE	ASE MEASURES			
6.1 Personal Precautions, Proto	ective Equipment and Emergency Procedures : No action should be taken involving any personnel without suitable training. Evacuate surrounding areas.			
ion ton Emergency reisonner	Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spill. Remove ignition sources and provide adequate ventilation only if it is safe to do so.			
For Emergency Personnel	: Use personal protection as recommended in Section 8. Observe precautions provided for non-emergency personnel above.			
6.2 Environmental Precautions				
Environmental Precautions	: Keep out of drains, sewers, ditches, and waterways. Minimize use of water to prevent environmental			
	contamination.			
6.3 Methods and Materials for Containment Procedures	Containment and Cleaning up : Product is an aerosol, therefore spills and leaks are unlikely. In case of rupture, released content may be			
	contained with oil/solvent absorbent pads, socks, and/or absorbents.			
Cleanup Procedures	: Spills from aerosol cans are unlikely and are generally of small volume. Large spills are therefore not normally considered a problem. In case of actual rupture, avoid breathing vapors and ventilate area well. Remove sources of ignition and use non-sparking equipment. Soak up material with inert absorbent and place in safety containers for proper disposal.			

250 ppm

MDL

Other Information	: Aerosol products represent a limited hazard and will not spill or leak unless ruptured. In case of rupture contents are generally evacuated from the can rapidly. Area should be ventilated immediately and continuous ventilation provided until all fumes and vapors have been removed. Aerosol cans should never be incinerated or burned.
Prohibited Materials	: Combustible absorbent material such as sawdust. Use of equipment that may cause sparking.
ECTION 7 - HANDLING AND	STORAGE
7.1 Precautions for Safe Han	dling
7.1 Frecautions for sale Hall	uning
General Handling Precautions	: KEEP OUT OF THE REACH OF CHILDREN. Avoid prolonged or repeated skin contact. Avoid breathing of vapor. Do not incinerate (burn) containers. Always replace overcap when not in use. Avoid use around open flames or other sources of ignition. Exposure to heat or prolonged exposure to sun may cause can to burst. Use only with adequate ventilation, opening doors or windows to achieve cross-ventilation.
Hygiene Recommendations	: Do not eat, drink or smoke when using this product. Wash hands thoroughly after use. Remove contaminate clothing and protective equipment before entering eating or smoking areas.
7.2 Conditions for Safe Stora	age Including Any Incompatibilities
7.2 Conditions for Safe Stora Storage Requirements	 age Including Any Incompatibilities Storage of individual cans should be done in an area below 55°C (120 °F), and away from heat sources. Ensure can is in a secure place to prevent knocking over and accidental rupture. For storage of pallet quantities, compliance with NFPA 30B (Manufacture and Storage of Aerosol Products) is recommended.
	 Storage of individual cans should be done in an area below 55°C (120 °F), and away from heat sources. Ensure can is in a secure place to prevent knocking over and accidental rupture. For storage of pallet

California	California PEL (Ceiling) (ppm)	3000 ppm
Biological Exposure Index	Acetone in urine, End of shift (Ns)	25 mg/l
8.2 Exposure Controls		
Engineering Measures Personal Protective Equipment	: Use only with adequate ventilation. General ventilation (typical Ventilation rates should be matched to conditions. Local exhaus may be necessary to control air contamination below that of th	st ventilation or an enclosed handling system
Eye / Face Protection	: Safety glasses with side shields are recommended as a minimum for any type of industrial chemical handling. Where eve contact with this material could occur, chemical splash proof goggles are recommended.	
Hand Protection	: Chemical-resistant gloves, tested according to ASTM F903 - 17.	
Remarks	: Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous substance and specific to the place of work.	
Skin and Body Protection	: For brief contact, no precautions other than clean body-covering clothing should be needed. When prolonged or repeated contact could occur, use protective clothing impervious to the ingredients listed in Section 2.	
Respiratory Protection	: An approved respirator with an organic vapor cartridge may be permissible under certain circumstances where airborne concentrations are expected to exceed occupational exposure limits.	
Compliance	: If needed, compliance with OSHA standard 29 CFR 1910.134 is I	necessary.
Other Protective Equipment	: Safety showers and eye-wash stations should be available in the used.	e workplace near where the material will be
Environmental Exposure Controls	: Avoid release to the environment.	

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

9.1 Physical Properties			
Boiling Point	> 55.60 °C	Melting / Freezing Point	> 94.40 °C
Flash Point, Liquid	> -17.20 °C	Flash Point, Propellant	-104.40 °C

SECTION 13 - DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods	
Waste Disposal	: Characteristics and waste stream classification can change with product use and location. It is the responsibility of the user to determine the proper storage, transportation, treatment, and/or disposal methodologies for spent materials and residues at the time of disposition. All waste must be disposed of in compliance with the respective national, federal, state, and/or local regulations.
Waste Disposal Of Packaging	: In the United States, an aerosol container that does not contain a significant amount of liquid would meet the definition of scrap metal (40 CFR 261.1(c)(6)), and would be exempt from RCRA regulation under 40 CFR 261.6(a)(3)(iv) if it is to be recycled. If containers are to be disposed of (not recycled) it must be managed under all applicable RCRA and state regulations.
Landfill Precautions	: Not Available.
