---

With our focus on family fun it was only right that we took extra time when creating towables that can safely accommodate nonstop fun for multiple riders of all ages. Our towables include seating for 1-5+ riders depending on the model chosen with industry leading features such as heavy gauge PVC lining and reinforced handles to ensure a long lasting product that outperforms in every way possible. Don't fight it, just ride it!

### ANURA 1P

Hop around like a frog on this single person towable. P.S. this towable also makes a pretty neat throne. It's your choice, a bumpy ride behind the boat or a chill session on your throne.

**DEFLATED SIZE** 55"x47" | 140x120cm  
**CONSTRUCTION** 4200 Nylon | 22g PVC

**ITEM** 230116004

### ANURA 2P

The Anura towable is a beast when you tow it behind the boat. You can also use it as a lounge chair to chill with the person you love.

**DEFLATED SIZE** 65"x63" | 165x160cm  
**CONSTRUCTION** 8400 Nylon | 28g PVC

**ITEM** 230216001

### ANURA 3P

Partner up and enjoy the thrill ride with up to 3-people or chill out on this towable on the mainland.

**DEFLATED SIZE** 71"x79" | 180x200cm  
**CONSTRUCTION** 8400 Nylon | 30g PVC

**ITEM** 230316001

### CHARTER 3P

Fun, fun, FUN! This 3-person tube is fast, sits high on the water and crosses over wakes super easy. Without a lot of drag, the convex bottom makes this tube unique and super responsive.

**DEFLATED SIZE** 95"x79" | 240x200cm  
**CONSTRUCTION** 8400 Nylon | 30g PVC

**ITEM**

230315004

### CHARTER 4P

Looking for a thrilling ride or want to spend your next double-date behind the boat? It's all possible on this 4-person Charter!

**DEFLATED SIZE** 95"x87" | 240x220cm  
**CONSTRUCTION** 8400 Nylon | 30g PVC

**ITEM**

230415002

### CHARTER 5P

Invite your closest friends and spend your summer on this lounge-tube fit for five (persons). Grab one of the 10 handles and go!

**DEFLATED SIZE** 95"x87" | 240x220cm  
**CONSTRUCTION** 8400 Nylon | 30g PVC

**ITEM**

230515002

**RUMBLE 1P**

Let's get ready to ruuuhhmbles!!! Get it ON with the 1-person Rumble towable!

**DEFLATED SIZE**    Ø 54" | 137cm    **ITEM**    **230116005**

---

Slalom is in our blood and when it comes to performance we didn't take any shortcuts. With notable features such as full carbon layup construction and unparalleled binding comfort and control you can see we mean business. Our ropes, handles and gloves have been no exception with attention to detail and design. Whether you're just starting out or competing with the pros, this range has you covered!

### **ROGUE SLALOM SKI**

The Rogue slalom ski has been a hit since its first introduction to the Jobe range! It's meant for advanced to professional skiers. It features a new super lightweight core and carbon graphite construction. Its incredible angle through the wakes will allow you to be wide and early for the next buoy, giving you all the time in the world to turn your off-side into your on-side. It comes with a competition fin and handy screwdriver set to adjust the position of your Rogue bindings.

**SIZE**

65" | 66" | 67" | **ITEM**

**262316006**

**DEFIANT**

**FLORA**

**BARON**

**MODE**

**DEFIANT SLALOM SKI**

The Defiant defines slalom fun as it's the perfect ski for intermediate carving. Its full concave bottom design rolls into a specially designed bevel, which makes the ski rock solid both on edges as in turns. Its stable flat spot allows the least amount of body movement and lets the ski edge to your likings.

**SIZE** 65" | 67" | 68" | **ITEM** 262316001

**BARON SLALOM SKI**

The Baron is designed to enjoy carving to intermediate slalom skiing levels of riding. With its fibreglass layup and a slightly narrower tail, the back of the ski sits deeper in the water, allowing the ski to initiate turns easier. The combination of design and performance gives this ski a large sweet spot; creating a stable ride.

**SIZE** 65" | 67" | 69" | **ITEM** 262316005

**FLORA SLALOM SKI**

This ski is great for carving to advanced slalom skiing. The Flora features all design characteristics with added surface area; it's loaded with performance and stability. This slightly softer ski features a flex pattern for lady skiers. The slightly wider profile allows the ski to carry more speed in turns while still having the edge design of the higher end skis!

**SIZE** 65" | 67" | **ITEM** 262316002

**MODE SLALOM SKI**

This ski offers a wider tip profile and comes with added channels and narrow tails for a smooth transition from combo skiing to free ride slalom skiing. The Mode combo skis are equipped with direct mount ski bindings and EVA foot beds for perfect control and comfort.

**SIZE** 67" | **ITEM** 262516001

***PADDED SHAPED SLALOM BAG 65"- 69"***

"This heavy duty polyester bag is padded throughout the entire bottom. It fits shaped and any other type slalom ski with a tail to mid zipper and comes with a large separate bindings compartment. Its shoulder strap makes it easy to carry and the water drains make it fast drying."

**ITEM**

**221113001**

***NEOPRENE SLALOM BAG***

This easy to use, 2.5 mm neoprene bag fits all Jobe slalom skis. It comes with a tie-down strap and keeps your ski protected.

**ITEM**

**221113002**

### COMFORT BINDING

This is a performance built, comfort managed boot to make skiing enjoyable for everyone. Its easy entry and snug, relaxed fit make it a binding that riders of all levels can depend on! The bungee cord enables safe emergency ejects. The ladies binding has a modified inner liner specially designed for ladies feet.

**SIZE** 5/8 | 8/11 | 11/14  
**FRONT** 333113001

**SPORT SERIES SECTIONED**

Slalom rope and handle with detachable sections according to competition standards.

- 2 SECTION 210001054
- 5 SECTION 210808003
- 8 SECTION 210001052

**INTERNATIONAL MAINLINE SECTIONED**

Jobe's section rope has the market's lowest elongation and highest break strength. It's the official rope of the International Pro Tours.

- 8 SECTION 210000019
- 10 SECTION 210000020

**B2 SPECTRA HANDLE**

This B2 Spectra Handle is suitable for all levels of skiing and comes with a superior grip. The rope protection grommet inside the handle reduces rope wear.

- 24MM 210008013
- 26MM 210008014
- ELLIPTICAL 210008012
- RADIUS 210008015

**ROGUE PRO HANDLE BLUE**

This is a top of the line slalom handle, manufactured with an extra strong double-D aluminium bar and comes equipped with a durable and extra tacky rubber grip.

- 26MM 211112001
- 27.4MM 210512001

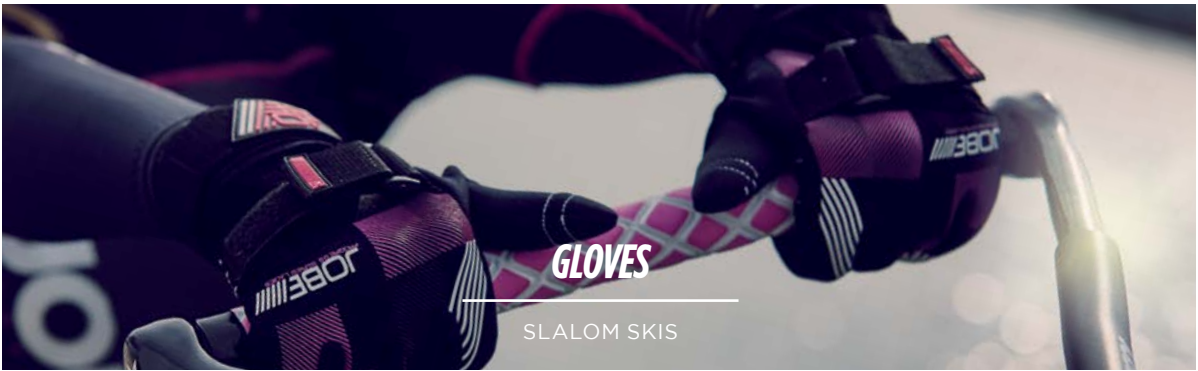

**15 EASY UP DEEP V DELUXE**

Comfy Eva grip and float coupled with our 70ft mainline makes for a very slick rope and handle combo that makes slalom starts easier than ever!

- 15" 210008007

**ROGUE GLOVES**

These gloves feature pre-curved fingers with padded fingertips for better grip and comfort. They're also non-slip and thin, yet equally durable because of the Amara and Ralvec fabrics.

**SIZE** XS | S | M | L | XL | 2XL  
**ITEM** 341113002

**PALM PROTECTORS**

These palm protectors provide an extra neoprene layer for underneath your gloves to protect your hands from forming calluses and blisters. One size fits all!

**SIZE** One size  
**ITEM** 340807002

**STREAM GLOVES**

Strength and softness are combined in these gloves with suede fabric palms. They also come with knuckle protection on top of the glove and a webbing strap with Velcro closing.

**SIZE** S | M | L | XL | 2XL  
**ITEM** 340811001

**PRO GLOVES SILICONE**

These non-slip gloves with silicone-printed palms for extra grip are super thin yet equally durable because of the Amara fabric.

**SIZE** XS | S | M | L | XL | 2XL  
**ITEM** 340410001

**PROGRESS GLOVES WOMEN**

Enjoy the option of cutting your full covered finger design to a ¾ finger design! These non-slip gloves are thin, yet equally durable because of the Amara fabric in the palms.

**SIZE** XS | S | M | L | XL  
**ITEM** 341113001

**PROGRESS GLOVES SWATHE**

These short model gloves give you for more freedom of movement and feature a segmented finger design. They come outfitted with padded panels and nonslip Amara.

**SIZE** XS | S | M | L | XL | 2XL  
**ITEM** 341713001

**PROGRESS GLOVES RALVEC**

These ergonomically fitted gloves for men come with the option of cutting back the full-covered finger design to a ¾ finger design. They're non-slip because of the Ralvec fabric.

**SIZE** XS | S | M | L | XL | 2XL  
**ITEM** 341113003

**RUTHLESS GLOVES SUCTION**

These short model gloves come with added panels and a nonslip palm (amara fabric) for extra grip. The segmented finger design allows for more freedom of movement.

# *BINDINGS*

WAKEBOARDS

---

EVO short for evolution can be defined as a gradual and progressive process in which something changes into a different and in general better form. Extensive research and development by Jobe's experienced developers down to the last detail lead to one of the most innovative product releases in the wake scene up to date. The Jobe EVO is a modular Binding including a slim, comfortable and unique sneaker, binding and skin all customizable to your likings. Modularity comes with essential advantages such as a centre mounted configuration giving direct control, zero heel lift and flex control. The Jobe EVO is not just better, it is game changing.

ITEM 211313002

# WAKESURFERS

---

Whether surfing or skating, we've got you covered. Our wake-surf boards vary in shapes and sizes to accommodate all riders and skill levels for nonstop surf sessions while our wakeskates allow for "skate style" maneuvers. All boards are thoroughly tested to deliver the best in both performance and fun.

# WAKESURFERS

---

You like surfing? We've got you covered. Our wakesurf boards vary in shapes and sizes to accommodate all riders and skill levels for nonstop surf sessions.

**SOURCE WAKESURFER**

The Source uses a 9-layer maple plywood laminate construction and is a super stable wakesurfer making it fun for the whole family!

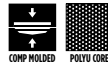

ITEM 582316001

**EXUS WAKESURFER**

Go wireless and manoeuvre with style. This wakesurfer's 9-layer maple plywood laminate construction features a kick pad for maximum grip making your feet stick while speeding through the sharpest turns.

ITEM 582316003

**FADE WAKESURFER**

The Fade has a progressive shape that utilizes a lightweight EPS core for quick response. The balance between the right thickness and length for best manoeuvrability and floatation make this wakesurfer supremely suited for seasoned surfers.

ITEM 582316002

**WAKESURF ROPE**

This wakesurf rope's weave is thicker than the mainline, so that you can hold on better when looking for that sweet spot on the wake.

ITEM 211514001

# WAKESKATES

Our wakeskates allow for "skate style" maneuvers. Thoroughly tested to deliver the best in both performance and fun.

## SAVAGE WAKESKATE

The Savage features a 9-layer maple plywood laminate construction. Featuring two 0.9" centre fins, this is the go-to entry-level wakeskate. Oh and have you seen its brutal design?!

SIZE

109 | 114 | ITEM

572316001

## EXCEED WAKESKATE

Big-Spin or kickflip, with a high concave EVA deck and 14-layer maple plywood laminate construction this wakeskate provides most control and stability for your next trick session.

### ***ADDICT TOWER 1.3***

---

This tower is the best looking tower on the market, hands down. It's manufactured out of the best aviation-grade aluminium available AND is higher than other towers, giving you extra airtime and more space inside the boat. The 2 tubes connect to its horizontal bars, which run parallel to most window-lines, making the tower more rigid and stable.

It fits on boats from 76 - 108 wide. The 1.3 model has improved mounting blocks (connection with the boat) for a stronger and more durable build. It fits boat decks from 76/ 193 cm to 108/ 274 cm in width and is made from aluminium, increasing corrosion resistance and surface hardness. The whole tower can be folded down for winter storage.

---

**ANODIZED** [400709009](#)  
**POLISHED** [400708004](#)

---

### ***ADDICT TOWER 1.1***

---

This tower is manufactured with 2 diameter aviation-grade aluminium tubes and easily folds down completely. The tower has polished mounting blocks (connection with the boat) and is very easy to install. It looks super stylish on any boat and is hard to match in price and performance! Its telescopic top section with 2 diameter tubing fits boat decks from 76/ 193 cm to 108/ 274 cm in width.

---

**ITEM** [400708002](#)

### **WAKE-/KNEEBOARD RACK**

This Jobe swivel wake/kneeboard rack is super easy to mount on your tower and can be mounted at any desired angle. Its bungee cord securely holds the boards and the rubber layer in between the forks protects your boards. This wake/kneeboard rack is finished with a high-polished aluminium.

ITEM 405613007

### **SWIVEL BOARD RACK**

This high-polished aluminium Jobe swivel board rack fits Ø 1.875"-2" tubing and can be mounted at many different angles. Its bungee cord securely holds 2 boards and the rubber layer in between the forks protects your board.

ITEM 405613004

### **SWIVEL WATERSKI RACK**

This exclusive designed for Jobe swivel waterski rack fits Ø 1.875"-2" tubing and has a super easy system to connect and disconnect. It can be mounted at any desired angle. The rubber layer in between the forks protects your waterskis at all times. This waterski rack is finished with a high-polished aluminium.

ITEM 405613006

### **PIV. SWIVEL BRD RACK ANODIZED**

This exclusively designed pivoting swivel board rack provides quick and easy access to your boards. It swings your boards towards you in a 90-degree angle from the tower. It fits Ø 1.875"-2" tubing and can be mounted at any desired angle. The bungee cord securely holds two wakeboards or wakeskates and the rubber layer in between the forks protects your board.

ITEM 405614001

### **LAUNCH PAD WITH PUMP**

This UV-resistant, heavy duty vinyl pad has an inner bladder, protection cover and lock tight straps, for easy refills. A 12V water pump comes included.

ITEM 400800002

### **CONTOUR FENDER BLACK**

These fenders stay put and stow under boat seats. They hinge to wrap around the gunwale and hull, following the contours of the boat. The fenders are constructed of a marine-grade tri-laminate cover with closed-cell foam inside. There's a tough polycarbonate grommet at each end for hanging from cleats.

ITEM L | XL  
ITEM 400014005

### **PWC FENDER**

This fender is engineered specifically for PWC. It hinges in the centre to better protect your PWCs body from docks designed for bigger boats. It hooks under the rub rail with a molded acetyl hook integrated into the back of the fender. If not, simply thread the strap through the rubber block provided and place it inside the PWCs storage compartment, then shut it. The block holds the strap perfectly and will not damage the body. We recommend 2 fenders per PWC.

ITEM 400014010

### **ANCHOR SACK**

The Anchor sack is ideal for anchoring PWCs in shallow water to keep the impeller off the beach. Fill up this super durable tri-laminate Anchor sack with up to 14 kg/35 pounds of rocks or sand, drop it and its buoy will mark the spot. Tie-ups are easy with the 6 ft long rope and oversized finish friendly acetyl snap hook.

ITEM 400014003

### **BOAT MIRROR**

This fully adjustable convex mirror with quick-mount system is meant to be installed just above or below the windscreen or on the dashboard. It's a universal model mirror.

ITEM 420805004

### **SAFETY MIRROR**

This universal interior mirror mounts just above or below the windscreen. It fits frames from 5 / 8" (1.1 cm) to 1.0" (2.5 cm) thick and is fully adjustable with its anti-scratch quick mount bracket.

ITEM 420805003

### **CURVED MIRROR ARM W. MIRROR**

This easy to mount mirror fits on all Jobe towers and any other tower with 1.875"-2" tubing. It's curved for a larger viewing area and increased safety.

ITEM 400710004

### **SUCTION CUP MIRROR**

This fully adjustable mirror stays in position without any holes to drill, or even using any tools! It simply attaches to any clean, non-porous surface; e.g. dashboard, console or windscreen mount. Absolutely scratch free!

ITEM 420709001

### **EXTREME MIRROR**

This mirror fits windshield frames from 3 / 8" (10 mm) to 1-1 / 4" (32 mm). It's a multi-lens mirror with one stationary and two adjustable lenses. The ball & socket tension adjustment knob keeps the mirror in place. Its bracket mounts to both rectangular and rounded windshield frames from 3 / 8" (10 mm) to 1-1 / 4" (32 mm) and it's meant to be installed just above or below the windscreen.

420806001

### **BULLET SPEAKERS**

These speakers match your Jobe tower. The rubber layer behind both speaker grills prevents water from coming in. They are 6.5 Coaxial waterproof speakers with an internal wiring system. Mounting diameter Ø 155 mm.

Technical specs: Nominal Impedance 4 Ω +/- 15%, Dc Resistance 3.6 Ω, Nominal Power Handling 60, Max. Power Handling: 120 W.

ITEM 400709001

### **BOAT BIMINI ALU UV COATED NYLON TOP**

This Bimini is easy to install and provides maximum protection against the sun. It mounts directly onto the surface of your boat deck and is available in a lightweight aluminium frame version, with protective UV coated nylon top.

SIZE ITEM S | M | L 400816001

### **ADJUSTABLE PRO SKI PYLON**

This pylon is an adjustable short ski tube for any boat. Its telescopic brace arms adjust from 33" (83.5 cm) up to 57" (144 cm) and its main pylon adjusts from 34" (86 cm) up to 58" (147 cm) tall. Made from stainless steel with a Delron swivel top... Quick and easy to disconnect.

ITEM 400705003

## TOWABLES

### QUICK CONNECTER

A quick connector buckle makes it super easy and fast to connect your tube to the towrope.

### 2 WAY TOWABLE

Users can tube in different positions all with the same item.

### HALKEY ROBERTS VALVE

The Halkey Roberts valve with double seal leak protection is the most reliable valve available.

### BOSTON VALVE

One way valve with two caps.

### SAFETY CHAMBER

In case of a leaking chamber, the tube will always remain floating due to the extra chamber.

### FULLY COVERED

better protected against sharp objects.

### EASY BOARDING

The most easy towable to climb back on to after falling off.

### BOARDING HANDLES

To help you get back on the towable more easy.

**MULTIPLE POSITIONS** Choose your position you want like. Kneel, Sit or Lie down.

### WATER DRAIN

water drain ensures a good water release from the inside of the nylon cover.

### DOUBLE TOWPOINT

The load is divided over two towpoints instead of one.

### NON FRICTION FLOAT

Streamlined sidefloats create less friction.

## SOFTGOODS: WETSUITS, VESTS, SWIMWEAR, CASUAL WEAR

### NEOPRENE VALUES

designed to give ultimate freedom of movement.

### NEUTRON FLEX

Keeps you warm and flexible.

### ATOM FLEX

Provides a good fit, comfort, and freedom on the water.

### GYMNAST CONSTRUCTION

super soft, flexible and perfect for all water sports activities

### MELTDOWN THERMO

This thermo lining is used for maximum flex, warmth and comfort.

### HYDROPHOBIC SKIN

Strategically positioned panels to help maintain warmth and repel water.

### ANTI CHILL

better protected against sharp objects.

### BUBBLEGUM SEALS

prevent water entry by utilizing doublesingle barriers.

### AQUA BLOCK

Helps block water entry from the top of the wetsuit.

### SPARTAN FABRIC

Absorbs less water, dries quickly and is super light.

### AQUA KILLER

Quick dry thermo fabric which helps water wick away from the skin.

### THERMO FABRIC

For additional warmth during the colder days

### EXTENDED FORCE

GBS construction combined with an extra fluid rubber tape for added durability.

### COMFORT LOCK

A comfortable stitch construction that is soft on bare skin and super strong.

### H2O LOCK SEAMS

Combination of glued, blind-stitched and taped seams.

### NYLON FABRIC

Heavy duty nylon.

### ATOMIC KNEE

Ultra-resistant and ultra-high endurance kneepad.

### BOMBPROOF INK

Provides extra protection on the kneepads.

### DRY LOCK CUFFS

Dry Lock wrist cuffs are designed to block water entry and provide a snug and comfortable fit.

### GLIDE SKIN

Both soft and comfortable! our glide skin seal prevents water entry.

### NEOPRENE VALUES

A combination between a neoprene suit and a neoprene jacket.

### NEOPRENE VALUES

Short zipper on the side of the vest. Unobtrusive, comfortable and easily removable.

### SIDE ZIPPER

The higher the numbers the warmer your suit.

### FOAM PANELS

Extra foam panels at the side of the vest for additional protection..

### COMP VEST

A completely flat top for a "snapper" more lively board to binding feel.

### SLACK PANELS

Split foam panels giving you extra flexibility and mobility where needed.

### NEOPRENE VALUES

Our tall sizes are made to have a length suitable for taller participants.

### PVC PANELS

Front panels use PVC foam; the panels on the back are made out of PE Foam.

### PE FOAM

Light foam that is made from our signature lay up.

### APPROVED VEST

50N floating device, CE-approved according to ISO 12402.5.

### REVERSIBLE

Wear it inside out or outside in.

### UL APPROVED

A floatation device in compliance with the United States Coast Guard requirements.

### OPTIONAL CUT

You decide the length.

### NEOPRENE VALUES

The higher the numbers the warmer your suit.

### NEOPRENE VALUES

The higher the numbers the warmer your suit.

### NEOPRENE VALUES

The higher the numbers the warmer your suit.

### NEOPRENE VALUES

The higher the numbers the warmer your suit.

### QUICK DRY

Dries faster compared to regular fabrics

**H2O REPELLENT**  
Water repellent coating.

**GYM STRETCH**  
4-way stretchable fabric.

**UPF FABRIC**  
The higher the number the more protection.

**NEOPRENE VALUES**  
The higher the numbers the warmer your suit.

**SHORT LENGTH**  
The number indicates the shorts length.

## KNEEBOARDS

**NEOPRENE VALUES**  
Connects you to the board.

**COMPRESSION MOULDED**  
Lightweight compression molded products to meet our high level demands regarding design and functionality.

**MOULDED FINS**  
To help to stay on edge when you need some extra stability.

**BLENDED CORE**  
The perfect marriage between the wood and PU.

**ABS SIDEWALL**  
A thermoplastic sidewall construction that primarily functions to protect the core and edge from damage.

**DOUBLE LOCK STRAP**  
To keep your strap snug at all times.

**SINGLE LOCK STRAP**  
To keep your strap tight at all times.

**SWALLOW TAIL**  
provides more surface area from rail to rail to add speed and lift where needed most.

**HANDLE HOOK**  
Place the handle on the hook for an easier start!

**DBL DENSITY**  
Reduces impact by adding an extra layer absorbing and dispersing shock.

## SKIS

**ENTRY LEVEL**  
Indicates the suitability for the level of the skier.

**CHEATER KIT**  
Minimises drag and water turbulence while still producing the same surface area. This enables the ski to slow down and drop the tail into the water during the turns..

**ALUMINIUM FINS**  
When plastic just won't cut it.

**BRIGHT FINS**  
Helps with visibility when your ski is upside down.

**STANDARD FIN**  
This is our tried and true drop through aluminium fin that allows front and backwards movement with a proven performance blade shape.

**COMP FIN**  
fully adjustable fin system gives the finest adjustments to personalise your ski to suit the individual skier..

**EDGE TO EDGE**  
This concave is designed to generate true edge holding capability, while still maintaining real control.

**TUNNEL**  
Utilises a narrower concave from the tail through the tip area.

**V-BOTTOM**  
This design produces stability for the ski on starts and during skiing while the blended tail adds speed and improved turning when you want to push the limits..

**HYBRID**  
Specially designed concave; blends the edge to edge concave in the tail with a unique concave under the fore-body.

**PU CORE**  
The more traditional foam core is a molded core that still produces functionality and durability.

**CARBON FIBER**  
The composite construction of this layout gives characteristics of a full carbon construction, but is slightly more affordable than a 100% carbon layout.

**FIBERGLASS**  
used to give specific flex characteristics for different areas of the ski.

**CARBON**  
Carbon/graphite is stronger, lighter and higher quality than fiberglass

**GLOSS TOP**  
Added to enhance strength and improved resistance against surface scratches and discolouration

**NEOPRENE VALUES**  
Our direct mount binding is our luxury boot featuring more support and a softer footbed to keep your feet as comfortable as possible.

**TIP INSERTS**  
Our extra insert in the tip of the ski can be used for a stabilizing bar.

**HORSE SHOE**  
The traditional combo ski binding

**RIM CORE**  
Injection molded products are the industry standard to help shed weight and increase strength during the manufacturing process.

## WAKE

**3-STAGE ROCKE**  
Causes your wakeboard to respond with more pop (height) when you hit the wake.

**CONTINUOUS ROCKER**  
provides fast, smooth rides and allows you to turn more easily.

**HYBRID ROCKER**  
the best of both worlds: fast pop and consistency.

**NEOPRENE VALUES**  
The higher the numbers the warmer your suit.

**SOLID CORE**  
Functional and reliable molded polyurethane core.

**CENTER FINS**  
React quickly and provide a better overall "edge hold".t.

**PLASTIC FINS**  
A quick releasing and reacting profile that offers better edge hold and a smooth release.

**SLIDE FINS**  
Nylon with fiberglass reinforced slider fins with a flat top design which prevents board damage by obstacles.

**MOLDED FINS**  
Integrated fins improve the boards grip in the water and provide stability when landing.

**ROLLED EDGE**

Prevents the board from splitting at the edges.

**CROSS BREED**

A "Rolled edge" at the midsection which blends into sharp end rails towards the tip and tail for more "edge hold" and aggressive cuts.

**HIT BASE**

High Impact Technology. Sintered damage-resisting base, slightly harder than the Armor Base that makes it even faster on obstacles.

**PRESS TECH**

Our press technology is used to add additional surface area to the board in specific areas to help maintain speed and stability on both rails and kickers.

**COMPRESSION MOULDED**

This is used to ensure that each and every product is made to meet our high level demands with regard to design and functionality. Perfectly moulded every time, the best in the biz.

**PU CORE**

Our Polyurethane Core is used in our top level boards for its responsiveness, lightweight and durability.

**EPS CORE**

Lightweight core made out of EPS. Keeps the strength and durability without the added bulk!

**PLYWOOD**

Uses a strong, lightweight wooden board consisting of several layers glued and pressed together with the direction of the grain alternating for enhanced strength and durability.

**TAILKICK**

Never lose grip again! Our tail kick is designed for maximum grip to ensure your feet stay planted during hard turns.

**BINDINGS****ALUMINIUM PLATE**

Lightweight and flat aluminium base plate brings your feet even closer to the ski, giving you more control and feeling during a set

**NYLON PLATE**

Strong and reliable base plate with indestructible sidebars in which the overlay is mounted to the plate.

**DUAL DENSITY**

Soft ergonomic shaped foot-bed gives you all the comfort you need.

**COMFORT INSOLE**

Soft ergonomic shaped foot bed that absorbs energy overload on the water and gives you the comfort you want.

**INNER LINER**

Three levels and blends of foam provide a precise performance, superior impact resistance and pro level support.

**FOOT CLOUD**

the custom like fit, this is the liner your feet are screaming for.

**PULL LOOP**

Allows you to cinch down the laces to be completely locked in.

**KIDNEYS**

Locks your Achilles in place and helps keeping your ankle positioned properly to ensure proper foot placement and support.

**ARTICULATED HEEL**

Makes the upper part of the bindings flex easier with your lower legs while still giving all the necessary support you need.

**DUAL LACE**

Offers better support and fit because you can tighten and loosen the laces on the upper ankle and foot independently.

**LACE BASE**

The higher the numbers the warmer your suit. The higher the numbers the warmer your suit.

**VELCRO STRAPS**

Three 1.8"/ 4.5 cm heavy duty Velcro straps deliver a fast, energy saving binding entry and exit.

**ADJUSTABLE**

For a large range of various foot sizes. Share one pair with family and friends.

**M6 INSERTS**

The metric thread on the new M6 hardware means the insert in the boards can be smaller. This means we have way more room for activities!

**ROPES AND HANDLES****MAINLINE HANDLE**

The number indicate the length.

**EVA**

provides a lightweight, smooth, and soft handle.

**SUBLIMATED**

An excellent sticky nylon grip with a soft touch and slick graphics.

**LEATHER**

is extremely durable, provides excellent grip and has an EVA layer underneath for a softer feel.

**PENCIL FLOAT**

Slim EVA floats that improve the floatability of the handle.

**V HANDLE**

Deep V handles make slalom starts effortless. It keeps the ski in line with the boat and helps you while getting up.

**RUBBER GRIP**

The rubber grip provides a durable handle with a lively feel.

**DIAMETER**

The number indicator the diameter of the handle

**COMP STANDARD**

Our competition and sport series shortings are competition standards as used throughout the world.

**MAINLINE**

The number indicate the length.

**NEOPRENE VALUES**

Spectra rope offers maximum stiffness and is ultra-light-weight. It's extremely durable, 100% non-stretching and resistant to UV, saltwater, and abrasion.

**PE COATED**

Includes a polyethylene coating that improves floatation; makes the rope stiffer and prevents knotting.

**STRAND MAINLINE**

The number indicate the strands.

**DETACHABLE**

Detachable sections make it easy to customize the rope length.

**FLOAT**

Our float keeps your rope or handle floating on the water and away from the propellor.

**BREAKSTRENGTH ROPES**

Maximum weight.

**STAINLESS STEEL HOOKS**

Our stainless steel hooks are designed to stay rust free and avoid corrosion from saltwater.

**BRIDLE**

This bridle is designed to be used by 1 person..

**SECTIONED ROPE**

The number indicates the sections.

**PVC COATED**

100% Dyneema braided core with a Urethane abrasion free, 100% non-stretching, snag resistant cover for the best possible wake line on the market.

**HELMETS****ADJUSTABLE CHIN STRAPS**

Adjustable nylon strap makes sure the helmet stays where it needs to be: On your head, to protect your melon!

**EAR PADS**

Ear pads provide extra protection for your ears when you need it the most, so make sure you wear them!

**FIT PADSE**

Soft brushed nylon fit pads at the sides and the top give extra comfort and make sure the helmet has a great overall fit.

**REAR ADJUSTMENT**

Nylon plastic size adjusting belt to provide the perfect fit..
