The culmination of years of technological research and development, the Kodiak Air rifle sling from LimbSaver enables you to carry your bow for longer periods while in the field without discomfort.

Made from LimbSaver's proprietary NAVCOM technology (Noise and Vibration Control Material), the Kodiak Air sling features an extra-flexible design that molds and bends to the contours of your body and a comfortable, adjustable ergonomic hand grip that provides custom positioning, comfort, and control.

Made out of high-strength composite with a non-rusting stainless steel locking rod, the innovative Universal Quick Detach System provides a secure hold to keep your rifle safe and at your

- Advanced sling designed for use with rifles, enables you to carry it comfortably in the field for longer periods Breathable Air-Web pattern with extra-flexible design molds and bends to your body's contours; distributes weight evenly across your shoulders
- Made from LimbSaver's proprietary NAVCOM technology; non-slip material keeps your crossbow in place
- High-strength Universal Quick Detach System locks securely and quickly releases with the press of a pin
- Durably built to be used outdoors in harsh environments -- from heat to rain to freezing temperatures
