

Q: How do I set or reset the combination on my model #8114 Set-Your-Own combination bike lock?

A:

To set the combination on the #8114 Set-Your-Own combination bike lock, follow these steps:

1. Open the lock & withdraw the cable.
2. Turn the collar (circular, ribbed & in front of the combination wheels) - clockwise until it stops (about halfway around).
3. Set the combo wheels to your desired combination.
4. Turn the collar counterclockwise until it stops at its original position.
5. Record your new combination in a safe place.

When it comes to quality bike tools & maintenance, Master Lock is the brand you can depend on.
