# SPECIALTY COYOTE VENT

#### TACTICAL HAND PROTECTION

Beat the heat wherever your mission takes you. Extremely hot or humid conditions can cause sweaty hands leading to the loss of valuable control in the field. Specialty Vent Coyote shooting gloves provide evaporate cooling when the heat is on with a fully ventilated design. Breathable mesh combines with a perforated 0.6mm high-dexterity palm to allow cool air in and circulate throughout the glove. Specialty Vent shooting gloves feature perforated trigger fingers and dedicated flex joints to improve mobility.

## EVAPORATIVE COOLING

Breathable mesh allows cool air to circulate throughout the glove.

## PALM VENTILATION

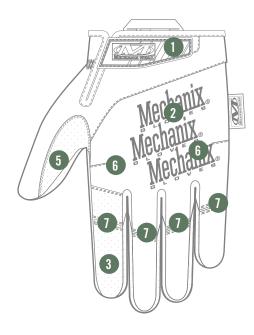

Ventilated 0.6mm palm material provides evaporative cooling.
