

Frequently Asked Questions

I have a XxXXxX (Cartridge), what ammo box fits it best?

At MTM we do not just have one box; we have 2 to 8 different style ammo boxes to choose from. Example: The common 38 caliber handgun round has no rattle; 6, 12 and 18 round ammo wallets are available. Also available are 2 styles of 50 round fliptops, 2 styles of 50 round sliptops and 1 100 round fliptop ammo box. Our detailed Ammo Box Charts will help you find the box you are looking for quickly.

Having problem getting old labels off products?

For years I have simply sprayed them with WD-40, allowed to soak, then pulled them off. If it is an oldie, it might take two applications to remove residual adhesive. Works for me!
