- Powerful Emergency Battery
- Fully Charges Mobile Devices
- USB and Micro USB Compatible

BE SAFE, BE PREPARED

The Share A Watt™ Emergency Light and Power Bank provides you with a convenient source of light as well as a power source for when your phone or tablet starts running out of juice. Telescoping design keeps the unit compact while in flashlight mode, simply expand it to reveal the lantern function. Extend the bottom and you'll find a USB input and micro USB output.

In an emergency you can activate the flashing red strobe and the magnetic base lets you attach it to your car or other metal object.
