LANTERN OPERATION METHOD:

Press and hold down the power button on top for 3 lighting mode's: 20% lighting, 50%, 100% and Off.
Hold down power button for 2 seconds, when UV light flickers one time, this means the lantern is on.
When UV light flickers three times, means the lantern will turn off.

MOSQUITO KILLER:

Mosquito Killer works automatically during the night and will stop working during the day via Photoelectric sensor after mosquito killer is turned on.

INPUT CHARGE:

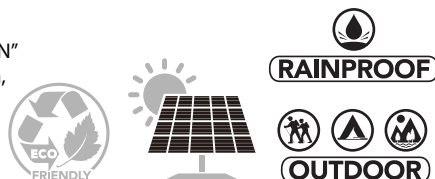

Micro USB cable (included) connects to the USB charging port, on the side at top, just below cap.
Charging indicator turns to red when charging and will be green after fully charged.

CAUTIONS:

Do not look directly into LED as this may cause damage to your eyes.
This product is not a toy. Contains small parts not suitable for children under 5 years of age. Turn off light during charging mode.

CLEANING AND STORAGE

Self cleaning brush will self clean per 72 hours, or if you hold down "ON" button, brush will cycle through. When storing Mosquito Killer lantern, make sure to turn off the unit and remove the batteries. Leaving batteries inside the unit for an extended periods of time may cause damage to the unit
