pond boss® carries a superior line of pumps for your pond, fountain or waterfall. Comprised of state of the art technology, our pumps deliver unmatched performance and reliability at affordable prices.

PUMPS

FOUNTAIN

50 GPH Fountain Pump
Item #PF50

- Ideal for tabletop fountains
- 1 ft. pumping height
- 45 Gallons per Hour
- 6 ft. cord length
- 2.7 watts
- 0.04 amps
- Suction cups for mounting
- UL listed pump
- Flow control

75 GPH Fountain Pump
Item #PF75

- Ideal for tabletop and small fountains
- 1.5 ft. pumping height
- 90 Gallons per Hour
- 6 ft. cord length
- 4 watts
- 0.05 amps
- Suction cups for mounting
- UL listed pump
- Flow control

140 GPH Fountain Pump
Item #PF140

- Ideal for small fountains
- 3 ft. pumping height
- 160 Gallons per Hour
- 6 ft. cord length
- 7 watts
- 0.09 amps
- Suction cups for mounting
- UL listed pump
- Flow control

320 GPH Fountain Pump
Item #PF320

- Ideal for medium to large fountains
- 5 ft. pumping height
- 360 Gallons per Hour
- 16 ft. cord length
- 23 watts
- 0.4 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

525 GPH Fountain Pump
Item #PF525

- Ideal for large fountains
- 5-7 ft. pumping height
- 580 Gallons per Hour
- 16 ft. cord length
- 42 watts
- 0.6 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

KEY FEATURES:

- Oil free, magnetic drive pumps
- Energy efficient designs
- Epoxy encapsulated, fully submersible
- Built-in variable flow control
- Quiet operation
- 1 year limited warranty

To determine pumping height, measure from water line up.

TIP:

When in doubt, more pumping height is better since you can adjust the flow with our flow control feature.

Fits ID Tubing: (tubing not included)

Fits 3/8 in. ID tubing

Fits 3/8 and 1/2 in. ID tubing

Fits 3/8 and 1/2 in. ID tubing

Fits ID Tubing: (tubing not included)

Fits 1/2 and 3/4 in. tubing

Fits 1/2, 5/8, and 3/4 in. ID tubing

PUMPS

LOW WATER AUTO SHUT-OFF FOUNTAIN

170 GPH Fountain Pump
Item #PF185AS

- Ideal for small fountains
- Up to 2-3 ft. pumping height
- 170 Gallons per Hour
- 16 ft. cord length
- New energy efficient design
- 10 watts
- 0.12 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

170 GPH Fountain Pump with Light
Item #PF185ASL

- Ideal for small fountains
- Up to 2-3 ft. pumping height
- 170 Gallons per Hour
- Single, detachable, LED light included
- 16 ft. cord length
- 10 watts
- 0.12 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

420 GPH Fountain Pump
Item #PF420AS

- Ideal for large fountains
- Up to 3-5 ft. pumping height
- 420 Gallons per Hour
- 16 ft. cord length
- New energy efficient design
- 40 watts
- 0.55 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

420 GPH Fountain Pump with Light
Item #PF420ASL

- Ideal for large fountains
- Up to 3-5 ft. pumping height
- 420 Gallons per Hour
- Single, detachable, LED light included
- 16 ft. cord length
- 40 watts
- 0.55 amps
- Suction cups for mounting
- ETL listed pump
- Flow control

Fits ID Tubing* (tubing not included)

Fits 1/2 in. ID tubing

Fits 1/2 in. ID tubing

Fits 1/2 in. ID tubing

Fits 1/2 in. ID tubing

1. If the water level drops below the center of the pump, a sensor detects that there is low water and automatically turns off the pump.

2. Once water is added, the sensor detects the presence of water and automatically turns the pump back on.

NOTE:
Pump will not operate if not submerged in water (while plugged in).

KEY FEATURES:

- Low water internal shut-off sensor
- Energy efficient design
- Never runs dry which prevents pump burnout
- Oil free, magnetic drive pumps
- Epoxy encapsulated, fully submersible
- Built-in variable flow control
- High quality impeller and shaft
- Quiet operation
- 1 year limited warranty

PUMPS

POND

KEY FEATURES:

- Oil free pump
- Energy efficient designs
- Epoxy encapsulated, fully submersible
- Flow control
- Ceramic shaft and bearings
- Quiet operation
- 16 ft. cord length
- Safe for fish and plants
- 3 year limited warranty

225 GPH Pond Pump
Item #PP225

- **Ideal for small ponds**
- Approximate pond size:
3 ft. x 6 ft. x 1.5 ft.
- 265 Gallons per Hour
- 7 ft. ideal pumping height
- 16 ft. cord length
- 27 watts
- 0.45 amps
- ETL listed pump
- Flow control

350 GPH Pond Pump
Item #PP350

- **Ideal for medium ponds**
- Approximate pond size:
6 ft. x 9 ft. x 1.5 ft.
- 350 Gallons per Hour
- 9 ft. ideal pumping height
- 16 ft. cord length
- 42 watts
- 0.8 amps
- ETL listed pump
- Flow control

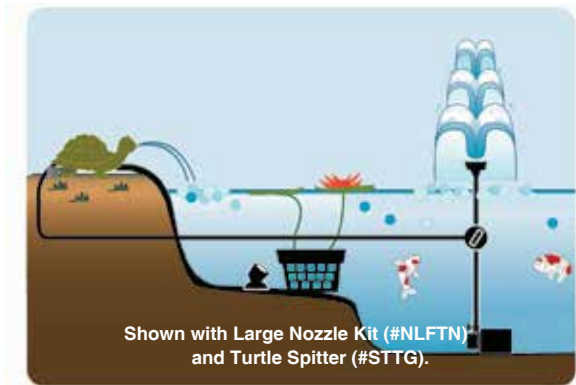

575 GPH Pond Pump
Item #PP575

- **Ideal for large ponds**
- Approximate pond size:
9 ft. x 16 ft. x 1.5 ft.
- 575 Gallons per Hour
- 11 ft. ideal pumping height
- 16 ft. cord length
- 68 watts
- 1.2 amps
- ETL listed pump
- Flow control

800 GPH Pond Pump
Item #PP800

- **Ideal for large ponds**
- Approximate pond size:
9ft. x 16ft. x 1.5 ft., 1000 gallons.
- 800 gallons per hour
- 11 ft. ideal pumping height
- 13.4 ft. maximum pumping height
- 16 ft. cord length
- 50 watts
- 0.8 amps
- ETL listed pump
- Flow control

Fits ID Tubing: (tubing not included)

Fits 3/4 in. ID tubing

Fits 3/4 in. ID tubing

Fits ID Tubing: (tubing not included)

Fits 3/4 in. ID tubing

Fits 3/4 in. ID tubing

PUMPS

WATERFALL

KEY FEATURES:

- Anti-clog technology
- Superior energy efficient design
- Epoxy encapsulated, fully submersible
- Quiet operation
- 16 ft. cord length
- Safe for fish and plants
- 3 year limited warranty

PUMPSHIELD® INCLUDED

- Protective mesh barrier bag

1250 GPH Waterfall Pump
Item #PW1250

- Ideal for waterfalls up to 5 ft. in height
- 16.5 ft. pumping height
- 1250 Gallons per Hour
- 16 ft. cord length
- 1 ¼ in. threaded outlet
- 70 watts
- 1.0 amps
- ETL listed pump

2300 GPH Waterfall Pump
Item #PW2300

- Ideal for waterfalls up to 10 ft. in height
- 20 ft. pumping height
- 2300 Gallons per Hour
- 16 ft. cord length
- 1 ¼ in. threaded outlet
- 130 watts
- 1.5 amps
- ETL listed pump

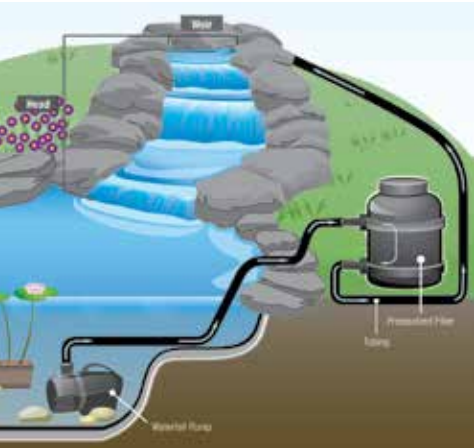

3600 GPH Waterfall Pump
Item #PW3750

- Ideal for waterfalls up to 12 ft. in height
- 21 ft. pumping height
- 3600 Gallons per Hour
- 16 ft. cord length
- 1 ½ in. threaded outlet
- 170 watts
- 1.8 amps
- ETL listed pump

5000 GPH Waterfall Pump
Item #PW5000

- Ideal for waterfalls up to 15 ft. in height
- 23 ft. pumping height
- 5000 Gallons per Hour
- 16 ft. cord length
- 2 in. threaded outlet
- 230 watts
- 2.5 amps
- ETL listed pump

TIP:

How to choose your Waterfall Pump:

The rule of thumb is for every 1 in. of weir width you need 100 gallons per hour flow to achieve a “Sheet” look.

- Divide by two for a “Trickle” look
- Multiply by two for a “Niagara” look

Be sure to check the pump’s specifications for the ideal pumping height of your pump at the head of your waterfall. Keep in mind excessive bend or in-line filters will reduce the flow.

Fits ID Tubing: (tubing not included)

Fits 1 and 1 ½ in. ID tubing

Fits 1 and 1 ½ in. ID tubing

Fits ID Tubing: (tubing not included)

Fits 1 ½ and 2 in. ID tubing

Fits 1 ½ and 2 in. ID tubing

PUMPS

WATERFALL

KEY FEATURES:

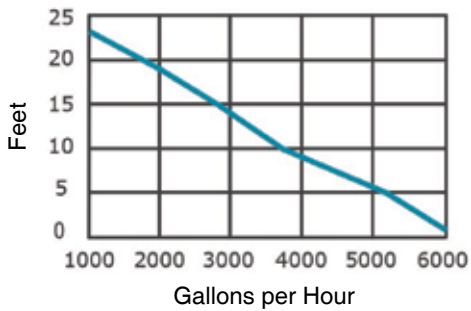

- High Performance
- Sturdy asynchronous motor
- Submersible or inline use
- Vortex impeller
- Water-cooled ceramic bearings
- Oil-free, epoxy encapsulated
- Safe for fish and plants
- 20 ft. cord length
- Easy to clean pre-filter
- 3 year limited warranty

6600 GPH Waterfall Pump
Item #PW6600

- Ideal for waterfalls up to 18 ft. in height
- 26.3 ft. pumping height
- 6600 Gallons per Hour
- 20 ft. cord length
- 2 in. threaded outlet
- 460 watts
- 3.8 amps
- UL listed

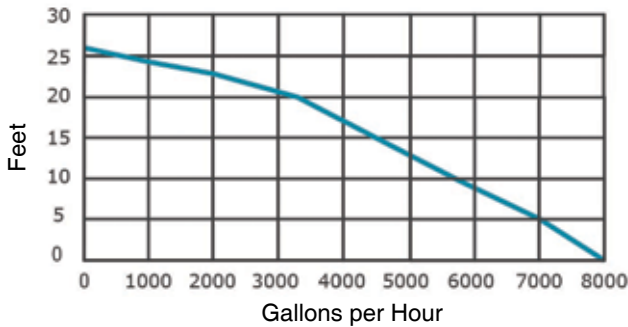

Fits ID Tubing: (tubing not included)
Fits 1 ½ in. and 2 in. ID tubing

8000 GPH Waterfall Pump
Item #PW8000

- Ideal for waterfalls up to 20 ft. in height
- 29.5 ft. pumping height
- 8000 Gallons per Hour
- 20 ft. cord length
- 2 in. threaded outlet
- 600 watts
- 4.8 amps
- UL listed

Fits ID Tubing: (tubing not included)
Fits 1 ½ in. and 2 in. ID tubing

PUMPS

SPECIALTY FOUNTAIN

Floating Fountain with Lights Item #DFTN12003L

- For ponds up to 1/4 acre
- 1/4 Horsepower
- Powerful, energy efficient 2000 GPH pump
- Durable, ceramic shaft & bearing construction
- Aerates and decorates large ponds
- 3 fountain heads included (Trumpet, Single Tier, 3-Tier)
- Three 1 watt LED lights with dusk-to-dawn sensor
- Low-profile float design
- 100 ft. mooring line included
- 50 ft. power cord length
- Minimum operating depth of 2.5 ft.
- 120V / 60Hz
- 130 watts / 1.5 amps
- 3 year limited warranty
- ETL listed pump and transformer

Trumpet Dimensions: 15.75 ft. diameter
3.6 ft. height

3-Tier Dimensions: 6.5 ft. diameter
10 ft. height

Single Tier Dimensions: 9 ft. diameter
8 ft. height

LED Lights
Illuminate nozzle spray

FILTRATION

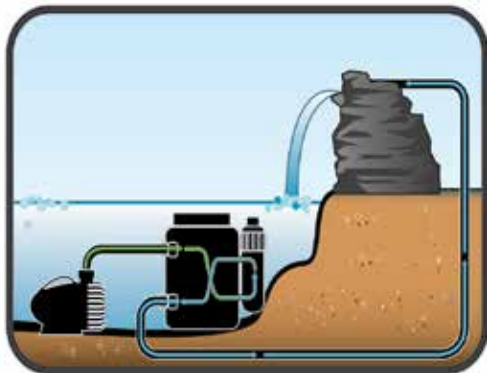

FEATURED ITEMS

Pressurized Pond Filters	20
UV Pond Clarifier	24
UV Filter with Pump	26
Pump Filters	28
Filter Kit with Pump	30
Pond Aerator with LED Lights	34

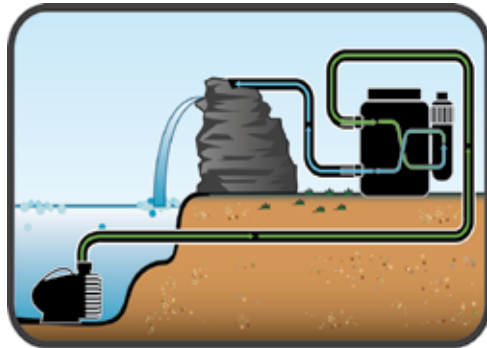

Filtration is a critical component of any water garden or pond since it promotes a healthy and ecologically stable pond environment. The variety of filtration equipment offered by pond boss® ensures a thriving ecosystem for fish and plants.

FILTRATION

PRESSURIZED POND FILTERS

CAN BE USED IN YOUR POND

CAN BE USED OUT OF YOUR POND

Pressurized Pond Filter
Item #FP900

- For ponds up to 900 gallons
- Combines mechanical and biological filtration to clean your pond
- Promotes growth of beneficial bacteria
- Improves water quality

Fits ID Tubing: (tubing not included)

Fits 3/4 and 1 in. ID tubing

Pressurized Pond Filter with UV
Item #FP1250UV

- For ponds up to 1200 gallons
- Combines 9 watt UV clarifier with pressure for maximum cleaning efficiency
- Mechanical and biological filtration cleans your pond
- Promotes growth of beneficial bacteria
- Improves water quality
- 16 ft. cord length
- 120V/60Hz
- UL listed

Recommended Pumps: (pump not included)

PP575 or PW1250

Fits 3/4 and 1 in. ID tubing

PP575 or PW1250

UV Clarifier (only in #FP1250UV)
Cleans water with ultraviolet light

Air Tight Lid

Water Inlet

Connect your pump to the inlet

Filter Pads

1. Coarse to catch large debris
2. Fine to catch the small debris

BioBalls

Aid in the growth of beneficial bacteria providing more surface area for growth

Water Outlet

Clean, filtered water is run back out into your pond

Replacement UV Bulb - Item #FUV9RB

- Replaces 9 watt UV Bulb for #FUV9 and #FP1250UV
- 8000 hours of life

Replacement Filter Pad - Item #FRP

- Contains a coarse and a fine filter
- Safe for fish and plants
- Dimensions: 8.5 in. x 8.5 in. x 3 in.

HOW DOES IT WORK?

The pressure in these filters help keep the water moving quickly, not giving debris a chance to settle in your pond.

Each BioBall provides surface area for the beneficial bacteria to grow.

The pump works with the filter to mechanically keep your pond clean. The filter pads catch debris from the water as it passes through the filter.

TIP:

UV Bulb (FUV9RB) should be changed every year.

Filter Pads (FRP) should be changed once a year for maximum efficiency.

FILTRATION

PRESSURIZED POND FILTERS

Pressurized Pond Filter with UV Item #FP1320UV

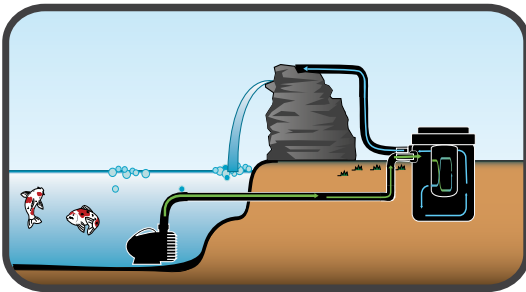

- For ponds up to 1300 gallons
- Promotes growth of beneficial bacteria
- Combines 7 watt UVC with pressure for maximum cleaning efficiency
- Improves water quality
- Easy to install
- Easy filter maintenance
- 15 ft. cord length
- 7 watt UV bulb lasts up to 8000 hours
- Maximum flow rate: 1050 GPH
- 110-120V/60Hz
- 2 year limited warranty

Fits ID Tubing: (tubing not included)

Fits 3/4 in. and 1 in. ID tubing

Recommended Pumps: (pump not included)

PP575 or PW1250

CAN BE EASILY HIDDEN OUTSIDE YOUR POND

TIP:

Filter Pads and UV Bulb

should be changed once a year for maximum efficiency.

Pressurized Pond Filter with UV Item #FP2600UV

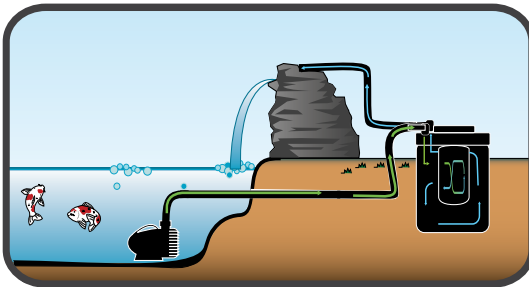

- For ponds up to 2600 gallons
- Promotes growth of beneficial bacteria
- Combines 9 watt UVC with pressure for maximum cleaning efficiency
- Improves water quality
- Easy to install
- Easy filter maintenance
- 15 ft. cord length
- 9 watt UV bulb lasts up to 8000 hours
- Maximum flow rate: 2120 GPH
- 110-120V/60Hz
- 2 year limited warranty

Fits ID Tubing: (tubing not included)

Fits 3/4 in. and 1 in. ID tubing

Recommended Pumps: (pump not included)

PP575, PW1250, or PW2300

CAN BE EASILY HIDDEN OUTSIDE YOUR POND

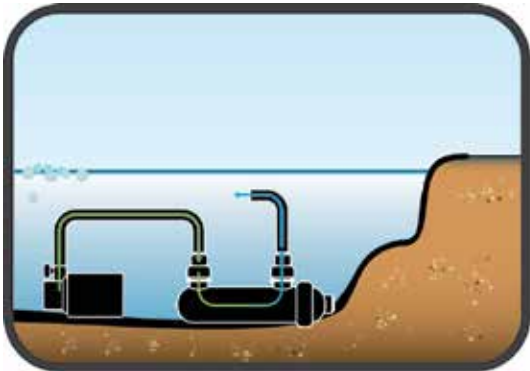

HOW DOES IT WORK?

The pressure in these filters help keep the water moving quickly, not giving debris a chance to settle in your pond.

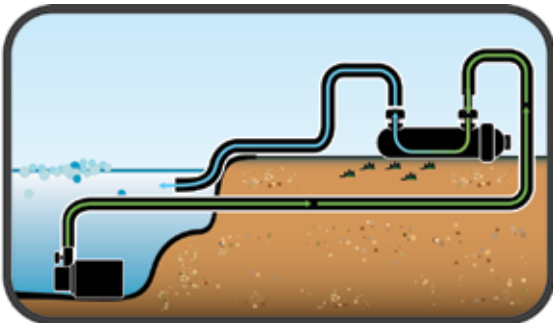

Your pump works with the filter to mechanically keep your pond clean. The filter pads catch debris from the water as it passes through the filter.

FILTRATION

UV POND CLARIFIER

CAN BE USED IN YOUR POND

CAN BE USED OUT OF YOUR POND

9 Watt UV Pond Clarifier Item #FUV9

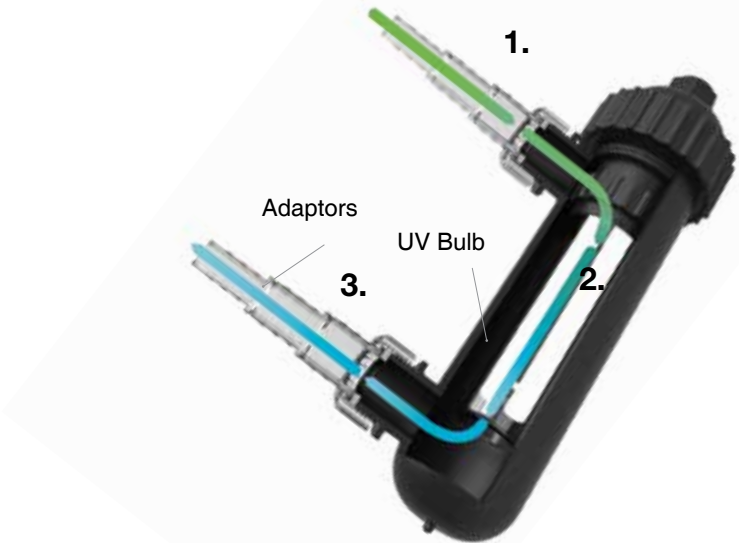

- Cleans the green out of the water
- Uses ultraviolet technology to clean pond water
- Helps balance the pond and maintain clean water
- For use with ponds up to 2000 gallons
- Helps keep fish healthy
- UL listed
- Prevents nasty odors and murky water
- 9 watt UV bulb lasts up to 8000 hours
- Continuously improves water quality
- Energy efficient

Fits ID Tubing: (tubing not included)

Fits 1/2 in., 3/4 in. and 1 in. tubing

Recommended Pumps: (pump not included)

PP225, PP350, or PP575

1. The pump pushes water through the inlet and into the UV clarifier.
2. Water is pumped through our carefully calibrated UV chamber at just the right speed to ensure maximum exposure to UV light to clear the green out of the water.
3. Clean water exits the clarifier through the outlet and back into your pond.

Replacement UV Bulb • Item #FUV9RB

- Replaces 9 watt UV Bulb from #FUV9 and #FP1250UV
- 8000 hours of life

WHY ULTRAVIOLET (UV)?

Ultraviolet Light (UV) Technology has been used for years in high-end Koi and fish farms to ensure water clarity and also a healthy pond environment for both plants and fish. Water passes over the ultraviolet bulb, cleaning the green out of the water, thereby reducing the need for chemicals.

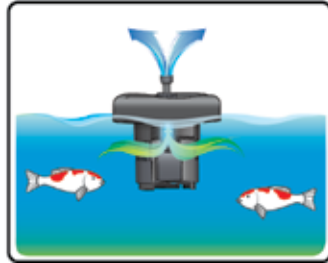

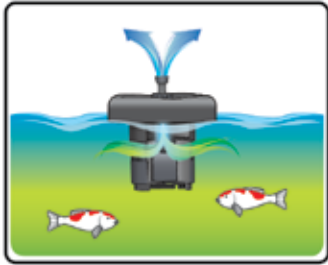

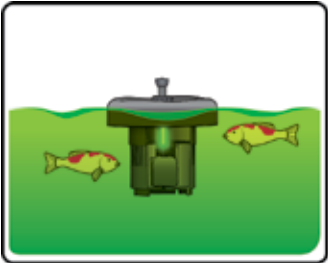

TIP:

UV Bulb (FUV9RB) should be changed every year.

FILTRATION

UV FILTER WITH PUMP

IMPROVES WATER CLARITY WHERE YOU NEED IT THE MOST, THE SURFACE OF YOUR POND.

Complete Floating UV Filter with Pump Item #FUVFL

- Moves water with energy efficient pump
- Cleans water with built-in 5 watt UV light
- Aerates pond with nozzle
- Illuminates nozzle spray with 4 built-in white LED lights
- Waterspray up to 3 ft. height
- Includes: 200 GPH pump and pumpshield®
- For ponds up to 750 gallons with no pre-existing algae issue
- No assembly required, runs on a single cord (16 ft. length)
- 16 watts
- UL listed
- 1 year limited warranty
- Dimensions: 10 in. x 10 in. x 10.57 in.

White LED Lights
Illuminate nozzle spray

Nozzle
Aerates and accents your pond

Flotation Ring
Keeps filter at the surface

UV Light
5 watt bulb cleans pond water

Energy Efficient Pump
Oil free, 200 GPH pump circulates water

Anchor Ring
Allows you to anchor your filter in your pond

pumpshield®
Prevents harmful debris from entering your filter

1. The pump pulls water into the filter. The pumpshield® prevents large particles and debris from entering the filter.
2. Water is then pumped into the UV light chamber, where it is cleaned.
3. Clean water is pumped back through the nozzle, which aerates the pond.
4. Decorative white lights illuminate the nozzle spray.

Replacement UV Bulb - Item #QRB4N1

- Replaces 5 watt UV Bulb for FUVFL
- 8000 hours of life

WHY ULTRAVIOLET (UV)?

Ultraviolet Light (UV) Technology has been used for years in high-end Koi and fish farms to ensure water clarity and also a healthy pond environment for both plants and fish. The addition of the UV Clarifier provides an extra step of filtration. The water passes over the ultraviolet bulb, cleaning the green out of the water.

TIP:

UV Bulb (QRB4N1) should be changed every year.

FILTRATION

PUMP FILTERS

Universal Pump Filter Box
Item #FM002

- Ideal for use in ponds up to 500 gallons
- Works with most pond pumps
- Cleans water
- Protects pump from debris
- Promotes growth of beneficial bacteria
- Includes coarse filter pad, fine filter pad and bioballs
- Dimensions: 12.25 in. x 6.25 in. x 6 in.
- Replacement filter pad: #FRM002

Pond Pump Pre-Filter
Item #FM001

- Protects pumps from debris
- Improves water quality
- Filter attaches to pump inlet
- Replacement filter pad: #FRM001

pumpshield®
Item #A16555

- Prevents harmful debris from entering and clogging your pump
- Industrial grade mesh material
- 15 in. x 15 in.
- Helps extend the life of your pump
- Reduces maintenance
- Works with most pumps (pump not included)
- Drawstrings tightly around pump

Recommended Pumps: (pump not included)

PP225, PP350, or PP575

PP225, PP350, or PP575

Fits most pumps

Replacement Filter Pads for FM002 and FM002P • Item #FRM002

- Contains a coarse and a fine filter
- Safe for fish and plants
- Easy to install
- Dimensions: 10 in. x 5 in. x 1 in.

Replacement Filter Pads for FM001 • Item #FRM001

- Safe for fish and plants
- Easy to install
- Dimensions: 2.5 in. x 2.5 in. x 4 in.

PROTECT YOUR PUMP

Help extend the life of your pump by protecting it with our range of pump filtration. Each of these filters will prolong the life of your pump by preventing debris from entering and clogging it.

TIP:

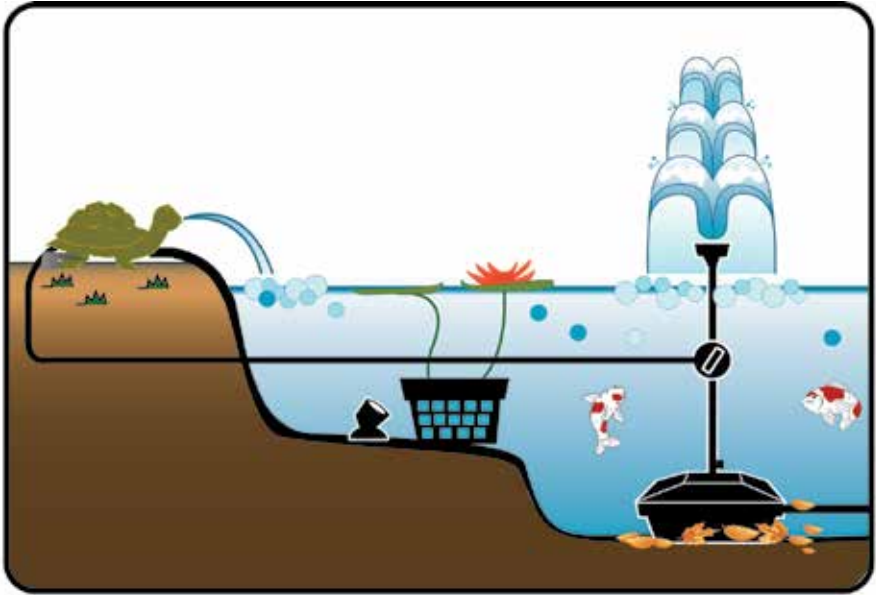

Filter Pads should be changed once a year for maximum efficiency.

FILTRATION

FILTER KIT WITH PUMP

Complete Filter Kit with Pump Item #FM002P

- Ideal for use in ponds up to 500 gallons
- Includes a 320 GPH pump
- Protects pump from debris
- Pumps and cleans water
- Promotes growth of beneficial bacteria
- Patented sloped lid prevents accumulation of debris
- Earth-friendly biological filter
- Nozzle kit included
- Diverter Valve fits 1/2 in. ID tubing
- Runs on a single cord (16 ft. length)
- Energy efficient
- ETL listed pump
- 1 year limited warranty
- Assembled height: 22.7 in. (max)
- Dimensions: 12.25 in. x 6.25 in. x 7 in.

Our Complete Filter Kit with Pump will clean your pond in an efficient and cost effective way. It includes an energy efficient pump that can circulate up to 320 gallons every hour, two filter pads that collect large and small debris and BioBalls which aid in the growth of beneficial bacteria, these items work together to filter your pond. This kit also includes a waterspray nozzle head and a diverter valve so you can enjoy a variety of water displays.

Replacement Filter Pads for FM002 and FM002P • Item #FRM002

- Contains a coarse and a fine filter
- Safe for fish and plants
- Easy to install
- Dimensions: 10 in. x 5 in. x 1 in.

KEY FEATURES:

- 320 GPH pump
- Cleans water
- Sloped lid prevents accumulation of debris
- Promotes growth of beneficial bacteria
- The combined set costs less than purchasing a filter, pump, and nozzle kit separately

TIP:

Filter Pads (FRM002) should be changed once a year for maximum efficiency.

FILTRATION

FILTER KIT WITH PUMP

Complete Filter Kit with Pump Item #FM003P

- Ideal for use in ponds up to 1300 gallons
- Includes a 580 GPH pump
- Pumps and cleans water
- Promotes growth of beneficial bacteria
- Sloped lid prevents accumulation of debris
- 4 nozzle attachments included, plus one diverter valve
- Diverter Valve fits 3/8 in. and 1/2 in. ID tubing
- Pivoting telescopic extension for individual nozzle height adjustment
- Maximum fountain height: 7.2 ft.
- 15 ft. cord length
- Energy efficient
- 110-120V/60Hz
- 2 year limited warranty
- Dimensions: 14.5 in. x 10.8 in. x 5.5 in.

Large Trumpet

Waterbell

Trumpet

Single Tier

KEY FEATURES:

- 580 GPH pump
- Cleans water
- Sloped lid prevents accumulation of debris
- Promotes growth of beneficial bacteria
- Pivoting telescopic extension for individual height adjustment

TIP:

Filter Pads should be changed once a year for maximum efficiency.

Our Complete Filter Kit with Pump will clean your pond in an efficient and cost effective way. It includes an energy efficient pump that can circulate up to 580 gallons every hour, two filter pads that collect large and small debris, and bio-media which aid in the growth of beneficial bacteria. These items work together to filter your pond. This kit also includes 4 nozzle heads and a diverter valve so you can enjoy a variety of water displays.

FILTRATION

POND AERATOR WITH LED LIGHTS

USE IN YOUR POND TO KEEP THE WATER FLOWING AND OXYGENATED.

CAN BE USED DURING WINTER TO RESIST ICE FORMATION ON THE SURFACE OF YOUR POND.

Pond Aerator with LED Lights Item #DPAR

- Aerates, filters, and beautifies your pond
- Energy efficient 280 GPH pump provides oxygen to your pond
- Use during winter to resist ice formation
- White LED lights illuminate the bubbles for a glowing effect
- Comes with an artificial floating lily pad to hold air tube above water level
- Runs on a single cord (16 ft. length)
- 18 watts
- 1 year limited warranty
- Dimensions: 7.75 in. x 7.75 in. x 6.75 in.

KEY FEATURES:

- Stimulates aquatic plant growth
- Oxygen from the aerator promotes growth of the beneficial bacteria which naturally breaks down organic decaying material
- Energy efficient LED lights illuminate the bubbles for a beautiful night time effect
- Creates a healthy environment for fish and plants

Energy Efficient LED Lights

Illuminates the bubbles

Filter Pad

Removes debris

Ceramic Bio-Media

Aids in the growth of beneficial bacteria

Energy Efficient Pump

280 GPH pump helps to keep your water moving

- The air tube allows air to flow into the aerator.
- Water is pulled into the aerator and is cleaned with the filter pad and Bio-Media.
- The pump mixes the air and filtered water, which together exit the aerator in the form of bubbles.
- The LED lights illuminate the bubbles.

CONSTRUCTION

A photograph of a garden pond. The pond is surrounded by large, light-colored rocks. In the foreground, there is a dense patch of green, low-growing plants. In the center of the pond, there are several tall, green plants with large, heart-shaped leaves. The water in the pond is dark and reflects the surrounding environment. In the background, a white fence is visible.

FEATURED ITEMS

Liners

Accessories

Tubing

The construction of a pond requires the use of quality materials that are built to last and provide satisfactory results. Liners, accessories and tubing all fit into this equation and are critical for the adequate development, maintenance and dependability of a pond and its components.

CONSTRUCTION

LINERS

Pond Skins® PVC Pond Liner

- 14.5 mil thickness
- Puncture and UV resistant
- Lightweight, easy to install
- Promotes the growth of beneficial bacteria
- Reinforced mesh construction
- Highly flexible even in extreme temperatures
- 20 year limited warranty
- Fish safe
- Color: Black

7 ft. x 10 ft.
Item # PVC7X10

10 ft. x 13 ft.
Item # PVC10X13

13 ft. x 20 ft.
Item # PVC13X20

Pond Skins® EPDM Pond Liner

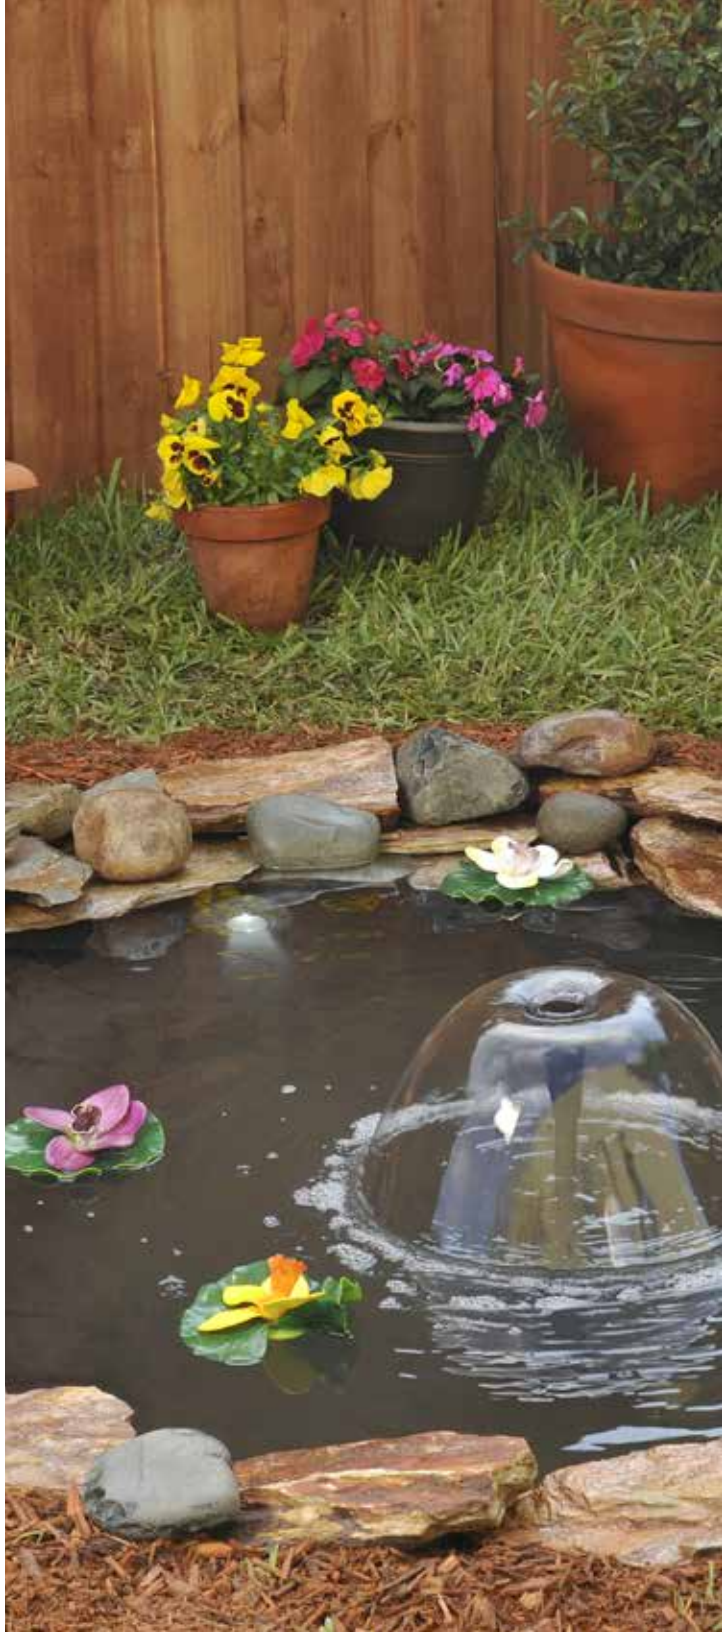

- 45 mil thickness
- Extremely durable
- Easy to install
- Highly flexible even in extreme temperatures
- UV and weather resistant
- Professional grade quality
- 20 year limited warranty
- Fish safe
- Color: Black

10 ft. x 15 ft.
Item # EPDM10X15

15 ft. x 15 ft.
Item # EPDM15X15

15 ft. x 20 ft.
Item # EPDM15X20

20 ft. x 20 ft.
Item # EPDM20X20

BEFORE YOU BUILD A POND, CONSIDER THE FOLLOWING:

- **Safety.** Always dig with caution. Call 811 or your local utility company before you begin digging to locate buried pipes or power lines on your property.
- **Location.** Consider how the water garden will enhance your landscape.
- **Elevation.** Your pond should not be built on a slope or grade. It also should not be located at the lowest elevation of the yard; you will have rainwater run-off that will muddy the water, wash away fish and destroy plants.
- **Sunlight.** If you wish to include plants that require moderate to full sunlight, you will need to choose a location with a minimum of 6 hours of sunlight.

1. CHECK FOR LEVEL GROUND AND USE ROPE TO MARK THE OUTLINE OF YOUR POND

2. DIG A HOLE APPROXIMATELY 18 IN. DEEP

3. LAY LINER AND FILL WITH WATER

4. LINE WITH ROCKS AND TRIM EXCESS LINER

5. ADD PUMP AND ACCESSORIES

6. RELAX AND ENJOY!

CONSTRUCTION

ACCESSORIES

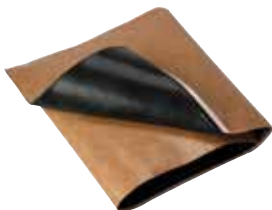

Pond and Stone Sealant
12 oz.
Item #CWFS

- Expandable black foam
- Fills gaps and ensures efficient water flow over rocks
- Dries in minutes and cures fully in 24 hours

Pond Skins®
Seaming Tape - 25 ft.
Item #DST25

- Connects and seals two or more pieces of liner
- 25 ft. long
- 3 in. wide
- Waterproof
- For use on PVC and EPDM pond liners
- Resists cracking
- Safe for fish and plants

Pond Skins®
Pond Liner Patch
Item #DLPK

- Quick and easy way to repair your Pond Skins® PVC or EPDM Pond Liner
- Cures in 12 hours
- 6 in. x 18 in. patch

TUBING

CONSTRUCTION

A detailed photograph of a garden pond. In the foreground, there are large, smooth, dark grey rocks. The water is calm, reflecting the surrounding greenery and the sky. On the left, there are tall green plants with large leaves. In the center, there are some lily pads. On the right, there is a small waterfall cascading over a series of rocks. The background is filled with more rocks and dense green foliage.

MAINTENANCE

FEATURED ITEMS

Vacuum

Pond Skimmer

Maintaining a clean and healthy pond environment is simple and easy thanks to pond boss®. Our products allow you to clean your pond without the hard labor of draining your pond and starting over.

MAINTENANCE

VACUUM

Pond and Pool Vacuum Item #MVAC

- Can be used as a wet or dry vacuum
- Maximum suction depth: 6.6 ft.

NOZZLE PATTERNS:

Waterspray nozzle

Trumpet nozzle insert

Waterbell nozzle insert

Nozzle Adaptor
For the Waterbell and
Trumpet nozzle insert

YOU CAN BUILD A CONTAINER FOUNTAIN IN 4 EASY STEPS!

1.

If necessary, widen existing hole to approximately 1 1/4 in. diameter.

2.

Place the pump inside planter and run cord through newly drilled hole.

3.

Use the stopper on the cord to plug the hole, making your container watertight.

4.

Fill planter with water. Once pump is fully submerged, plug in and enjoy!
