TRUST THE PROCESS

Trust the process. Trust that the time you put in the cage, on the tee, and hustle between the lines—it is all part of the journey to perfect the art of hitting. Like your game, we work on ours too—every log, every grain, every cut must be perfect or we don't stop working. We don't stop until we have provided you the performance you need to be your best.

- **NEW Ultra-light end cap** accelerates swing speed equating to max distance
- **Approved by ASA/USA, USSSA, NSA, ISF, ISA and all other associations** using 98 MPF w/ABI

- **The Governor:** A composite inner barrel allows for the most reactive outer barrel and adds just enough weight to create an endloaded feel
- **Ultimate Flex:** handle/barrel connection designed to accelerate speed through contact
- **Vibration Dampening Technology (VDT):** silicone-infused collar creates smooth feel at contact
- **Approved by ASA/USA, USSSA, NSA, ISF, ISA and all other associations using 98 MPF w/ABI**

Compression refers to the pounds of force (lbs) necessary to compress the ball ¼ inch.

RED DOT® 3-PIECE TECHNOLOGY

A step above competitor's 2-piece softballs: that is why the best players in the nation choose Rawlings. The inner core uses Rawlings' proprietary dense cell formulation, creating a ball worthy of being the Official Championship Softball of the NCAA® and NAIA®. With the addition of the C-LOK™ adhesive and moisture barrier, the improved pro-leather cover with just the right amount of tack, there is no wonder why Rawlings has a rich tradition in fastpitch softball.

Balls without Rawlings' C-LOK™ and poly-core combination can absorb moisture and lose compression (get softer).

C-LOK™ plus Rawlings' proprietary dense cell poly-core technology repels moisture and maintains higher compression.

DREAM SEAM® HIGH-DENSITY CORK

For teams wanting the distinctive sound and feel of cork, Rawlings offers a complete line of NFHS®, ASA®, USSSA®, NSA® and ISC™ cork game balls. Made of high-density cork and Rawlings' patented Dream Seam® Technology, they offer the performance you demand while giving a lower cost option in game balls.

RIF® TRAINING BALLS

Rawlings was the originator of RIF® balls designed to reduce the severity of ball impact injuries. Since the original RIF® game balls, Rawlings has expanded its offering to practice-level soft-training balls. These products are great for outdoor as well as indoor training.

DO WASH UNIFORMS PRIOR TO FIRST USE AND IMMEDIATELY AFTER EACH USE. Naturally occurring PH levels in sweat may cause dye migration in first use. We recommend a detergent similar to Tide™ for cold water to help decrease the chance of this happening. Prior to washing in cool water, turning the garments inside out will help preserve Twill, Perma-Print®, and Embroidery. Clasping Velcro® prior to washing may help prevent snagging or picking.

DO NOT WASH UNIFORMS WITH OTHER ITEMS. Bleeding may occur.

DO NOT USE BLEACH. Bleach will deteriorate fabric fibers and may cause color loss.

DO NOT OVERLOAD WASHER OR DRYER. Hang dry is recommended for best results. In the dryer, overloading may cause the uniforms to stick together, especially those with Perma-Print® ink. Remove garments immediately after both wash and dry cycles. To avoid static and lint build-up, use an anti-static agent such as Bounce® Dryer Sheets.

DO NOT EXPOSE UNIFORMS TO HIGH HEAT. Excessive heat is the enemy of your uniform. Heat presses, ironing, dry cleaning, or heat transfers may cause dye migration and may break down fabric fibers. Also excessive heat, especially in dryers, can cause shrinkage above normal tolerances, cause Perma-Print® ink to crack, and Twill to wrinkle. If you use a dryer, please use a “damp dry” or “air dry” setting.

DO STORE IN A DRY, ROOM TEMPERATURE AREA, AWAY FROM DIRECT SUNLIGHT. Excessive sunlight may cause discoloration.

Heavily soiled garments (grass, dirt, clay mud), pre-treatment is recommended

Spray on products such as Spray'n Wash®, Shout®, or ESPRO® cleaner have been tested with positive results.

Products such as Stick Stain® or Shout Gel® can be used for stubborn stains.

For blood stains, it is best to rinse in room temperature water as soon as possible, and if necessary, soak in room temperature water before washing. One of the above pretreatments can also be used, or an oxygen based laundry booster such as Oxi Clean® can also be used.

For ink stains, use hair spray as soon as possible. Delaying the application of hair spray may decrease results. Spray on stain and rub until the ink is gone. Wash as normal.
