

## Rothco Pop-Up Solar Lantern And Charger

Rothco's Pop-Up Lantern and Charger is a multifaceted light that is the perfect addition for any outdoor enthusiast's gear collection. This solar light can be used as a standard lantern, or condensed and used as a flashlight. The 3 watt LED pop-up lantern can be charged via solar energy or with the charging cable. Along with 3 different light modes (Dim, Bright and Flashing), the solar lantern can charge mobile devices through the USB port. Metal hooks allow these camping lanterns to be hung-up when needed. Made from lightweight plastic material, Rothco's collapsible lantern can be stored away for easy travel.
