

Rothco Tactical MOLLE Bottle Carrier

Rothco's Tactical MOLLE Bottle Carrier is designed to provide you access to hydration during any mission or outdoor activity. This MOLLE pouch integrates with anything with a MOLLE panel, making it perfect for soldiers, public safety professionals, MilSim players, and more. This water bottle carrier features four rows of MOLLE webbing plus two six-inch MOLLE straps with snap closures for mounting on assault packs, tactical belts, and plate carrier vests. A drawstring closure with a barrel lock adjuster at the top of the MOLLE water bottle pouch secures your water supply during intense activities. The bottle carrier measures 8.75 inches tall with a 3.5-inch diameter to accommodate most water bottles. An aerated mesh bottom helps drain excess water to keep the MOLLE attachment dry.

Specifications

Property	Value
