

Rothco 10-Watt Cree Flashlight

With a powerful light output and lightweight design, Rothco's 10-Watt Cree Flashlight is one of the most convenient flashlights for tactical, outdoor, and everyday use. The Cree tactical flashlight features five light modes: high for maximum visibility, mid, low, flare, and SOS. You can cycle through the light modes and turn off the combat flashlight with the end button. Measuring 5 1/4" X 1 3/8" and featuring a metal pocket clip, the outdoor flashlight is perfect for everyday carry. Made of aluminum alloy, the flashlight is lightweight yet resilient. Requires 3 AAA batteries (not included).
