

## Cammenga G.I. Special Tritium Lensatic Compass

The Cammenga G.I. Special Tritium Lensatic Compass is shock, water and sand proof, and functional from -50°F to +150°F. Seven Tritium Micro Lights allow for navigation in low-light conditions. It is equipped with a magnifying lens, sighting wire, dial graduations in both degrees and mils to ensure accurate readings, and luminosity. Copper induction dampening system slows the rotation of the magnet without the use of liquids. Built to last with an aluminum frame and waterproof housing. All Cammenga Lensatic Compass models come with a carrying pouch, and belt clip.

## Specification

Property	Value
Color	Olive Drab
