

Rothco 3-in-1 Spec Ops Soft Shell Jacket

Rothco's 3-in-1 Spec Ops Soft Shell Jacket is three jackets in one thanks to its three-layer outer shell construction and removable inner fleece layer. This complete all-weather tactical jacket deflects wind, wicks away moisture, and retains heat to keep you warm and dry. The two jackets connect via attachment points at the back of the neck and cuffs, so you can wear them assembled or standalone. Featuring eight multi-functional pockets, including dual high-rise zippered slash pockets, the tactical soft shell jacket can hold all your essential everyday carry (EDC) gear while on the go. The military jacket's front zipper closure includes two zippers; this provides you with easy access to pants pockets, inside the waistband (IWB) holsters, and items on your tactical duty belt. In case it rains or snows, the stand-up collar contains a removable stowaway drawstring hood. Each sleeve on the tactical soft shell jacket features zippered shoulder pockets, loop fields for attaching flags and morale patches, and adjustable hook and loop elastic wrist cuffs. In the event the climate is too hot, the underarm ventilation zippers will keep you cool. The interior fleece liner comes with two zippered slash pockets and two interior mesh pockets to store additional supplies. No matter the weather, Rothco's 3-in-1 Spec Ops Jacket is the ideal outdoor coat to wear while traveling through the great outdoors.
