

Rothco Ambidextrous Tactical Belt Holster

The Rothco Ambidextrous Tactical Belt Holster will fit most medium to large frame pistols. The holster features a hard plastic thumb break, webbing with a hard insert retention strap, and steel belt clip which are all movable to make the holster ambidextrous. Includes plastic slide for hook and loop adjustments and an open bottom for longer length barrels. Comes with a fully adjustable thumb break with snap closure and attached clip pouch with hook and loop closure.
