

Rothco Battle Harness

Rothco's Tactical Battle Harness provides you with a superior load bearing solution that will keep your battle belt from slipping down in combat. The harness attaches to Rothco's Battle Belt (item #10679 - which is sold separately) with 4 durable webbing straps that connect to the D-Rings located on the corresponding battle belt. The battle harness features padded shoulder straps and yoke for added comfort. Each strap of the harness features elastic loops, 2 MOLLE loops and plastic D-Rings which have been designed to provide you with the ability to add quick-access attachments. The back panel of Rothco's Battle Harness is equipped with a breathable double-layer mesh backing for superior comfort and load bearing support. In addition, the back panel features MOLLE loops and 8.5" x 4" loop field, and drag handle. Rothco's Battle Harness works in conjunction with our Battle Belt and Riggers belt (both sold separately) to create the ultimate low-profile tactical load bearing solution for Airsoft Players, Law Enforcement and Tactical Operators.
