

Rothco Kid's Tactical Cross Draw Vest

Rothco's Tactical Cross Draw Vest for kids has all the great features as our adult version but is the ideal fit for young adults. Features of the vest include 2 ammo pouches on the right side, above the ammo pouches; the right side has a large shell carrying pouch and a shooting pad. The left side of the tactical jacket features a pistol holster capable of carrying most medium-framed pistols, attached to vest with horizontal MOLLE straps, left side also features 2 pistol magazine pouches which are fully adjustable to the height of most normal-sized magazines. The kids tactical vest is mounted on tough mesh material which aids ventilation, shoulders on vest can be adjusted with long hook and loop strips, and also have 2 metal D-rings for the attachment of carabiners or other material, vest zips up in front, interior of vest has two zip-up document pockets left and right, rear of vest is double-ply mesh which allows for the addition of a hydration bladder, a carrying handle is provided, MOLLE straps across the back for the addition of camouflage material or other pouches, left and right sides can be adjusted for width through adjustable straps, right handed zipper when worn. The vest is offered in both solid and camouflage material.
