

Rothco MOLLE II Canteen & Utility Pouch

Maintain access to your canteen and other small accessories with Rothco's MOLLE II Canteen & Utility Pouch. The main compartment of the tactical utility pouch can easily fit a 1-quart canteen with measurements of 6 1/2" X 5 1/4" X 2 1/4". In addition to the main compartment, the two hook and loop side utility pockets are ideal for storing water purification tablets, matches, fishing line, and other small essentials. Attach the canteen bag to your military pack, tactical vest, or other MOLLE compatible gear with the dual MOLLE (Modular Lightweight Load-Carrying Equipment) straps. Securely store your canteen with the flap cover with quick release buckle y-strap and adjustable drawstring closure. The y-strap design allows the cap of your canteen to fit in between both straps and features an elastic loop to prevent the excess strap from moving around.
