

# 6280 SLS LEVEL II RETENTION™ HOLSTER

Model 6280: Mid-ride

## 6280 SLS LEVEL II RETENTION™ HOLSTER

### 6282/6285 SLS HI-RIDE AND LOW-RIDE LEVEL II RETENTION™ HOLSTER

The Safariland® 6280/6282/6285 SLS Level II Retention™ duty holsters feature the SLS (Self Locking System) rotating hood for increased weapon retention, yet still affords ease of draw and quick, secure re-holstering. With no snap, the SLS allows for a smoother, single-motion draw, and greater protection against attempted weapon takeaways.

The hood can only be released by being simultaneously pushed down and rotated forward. When upward force is applied, the holster becomes even more secure. The Hood Guard further protects against attempted takeaways. The holster can be adjusted to a Level III Retention™ with the addition of an optional Sentry device.

Constructed of long-lasting SafariLaminate™ material and lined with suede to protect the weapon's finish, this top draw holster features a tensioning device for fit customization. Offered in mid-ride, low-ride, and hi-ride models, the 6280/6282/6285 holsters feature a molded Universal Belt Loop (UBL) in two sizes to mount to a 2" (50 mm) or 2.25" (58 mm) duty belt.

Model 6282: Hi-ride

Model 6285: Low-ride
