

6390 ALS® LEVEL I RETENTION™ HOLSTER

Model 6390:
Mid-ride

6390 ALS® LEVEL I RETENTION™ HOLSTER

6392/6395 ALS® HI-RIDE AND LOW-RIDE LEVEL I RETENTION HOLSTER

The Safariland® 6390/6392/6395 ALS® Level I Retention™ duty holsters are designed for duty officers, and feature the patented ALS (Automatic Locking System), which secures the weapon immediately upon holstering and stays that way until the user deactivates the device with the thumb as the weapon is drawn in an efficient, straight-up motion. The removable Hood Guard, an external shield over the thumb lever, provides additional safety by protecting the release mechanism against takeaway attempts. Further, this holster can be upgraded to Level II Retention™ with the optional ALS Guard.

Constructed from durable, thermoformed SafariLaminate™ material, it features a suede lining to help protect the weapon's finish. The holster attaches to belts up to 2.25" in diameter and is offered for mid-ride, hi-ride and low-ride carry. A variety of textures and finishes make it easy to match the 6390/6392/6395 holster to any duty belt.

PATENTED

Model 6392: Hi-ride

Model 6395: Low-ride
