Innovation, Quality and Service

TACO Marine is a division of TACO Metals, Inc.. We are a family owned and operated company established over five decades ago that has steadily grown to become a global leader in the recreational marine industry while still maintaining our strong family values and commitment to serving our customers' needs. Today, the TACO Marine brand includes a wide selection of products from Rub Rail, Canvas and Tower Hardware to Sport Fishing Equipment, Seating Products and Specialty Custom Hardware.

We strive to deliver Innovation, Quality and Service in everything we do which is why boat builders, marine fabricators, distributors, dealers and repair yards all rely on TACO Marine products to meet their design and performance needs. This combined with our large on-hand inventory, same or next day shipping and dedicated service and technical support make TACO Marine a complete solutions provider well positioned to serve our customers for many more years to come.

STAINLESS STEEL SIDE MOUNT TABLE PEDESTAL

Side Mount Pedestal Component System

PRODUCT KNOWLEDGE

Side Mount Table Pedestal System made of Stainless Steel is ideal for limited space in interior and exterior of boat. 125° leg is easy to remove for storage and security.

It allows one pedestal to fit all side mount applications with slightly varying angles eliminating the need for wedges. Utilizing a unique injection molded glass filled nylon adjustable head, the table surface can be tilted to various degrees to provide for a flat horizontal surface. The pedestal is made from Stainless Steel tube welded to a wedge plate that fits securely in a cast Stainless Steel Type 316 mounting bracket.

Grand Slam 380

Stainless Steel Type 316

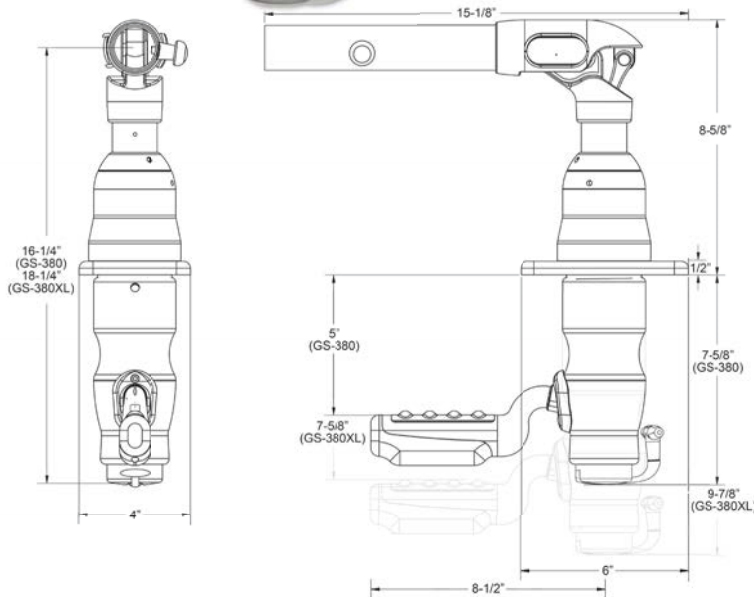

- > Accepts 1-1/2" outriggers
- > Versatile design for use on soft tops and hard tops up to 2" thick
- > Rotator handle offset at 30° for added hand clearance
- > Safe outrigger positioning from under the top
- > Heavy-duty grip for sure-handling to lock-in 12 fishing positions
- > Fold-up crank handle for maximum under-top clearance
- > Sealed to prevent water leakage through the mount
- > Outrigger locking pin secures outriggers
- > Polished Stainless Steel arm and brushed anodized Aluminum
- > 4"x6"x1/2" mounting base with easy bolt-down installation included
- > Fits Taco Marine Outrigger-Ready pre-drilled extrusion plates
- > Powder coated finish available by special order
- > Available with increased body length for thicker hard tops up to 4-1/2" (GS-380XL)
- > Ideal for up to 50' boats
- > Sold in Pairs

Grand Slam 170

Grand Slam 170

Stainless Steel Type 316

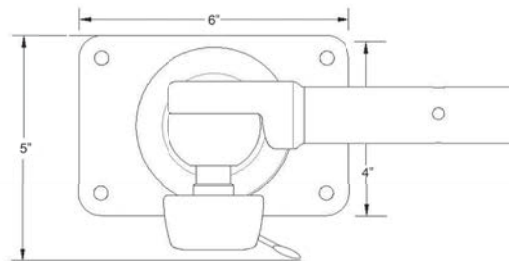

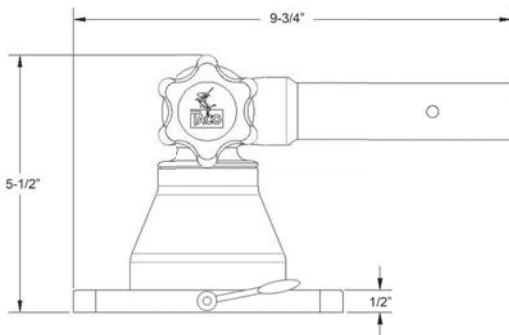

Designed for use with standard 1-1/8" outriggers

- > Uses Taco Marine Spline Lock Technology for secure outrigger elevation that locks every 18°
- > Delrin bearings and Stainless Steel internal locking mechanism offer smooth adjustments, secure positioning and prevent movement
- > Top mount outrigger positioning
- > Rugged, sure-grip knob adjusts and locks-in desired height and laydown position for safe trailering and navigation under bridges
- > Stainless Steel Type 316 arm with locking feature ensures Taco Marine outriggers remain securely in place
- > 4"x6"x1/2" mounting base with easy bolt-down installation included
- > Also available as convenient kit that includes Mounts, Outrigger Poles, Standard Rigging Kit and Line Caddy
- > Ideal for up to 24' boats
- > Sold in Pairs (GS-170) or as Each (GS-170-2)

Patent #8,186,095

Carbon Fiber Center Rigger Pole

NEW!

PRODUCT KNOWLEDGE

Carbon Fiber Tele-Outrigger Poles' precision locking pin is a Stainless Steel V-shaped pin

positioned and designed to put out at the full extension of each pole section.

Carbon Fiber Tele-Outrigger Poles' patent pending swivel roller design mechanism allows for movement of the rollers to swivel in the direction of lures or bait for a more natural swimming action which results in hooking more fish.

INCLUDES

Nylon mesh carry bag

Line Caddy for 16' Pole

Line Caddy for 20' Pole

ROD STORAGE

Rod Hanger

Stainless Steel Type 316

High Polished

- > Spring locking rod tip holder
- > Delrin inserts
- > Concealed installation screws
- > Also available as a kit that includes revolving rod tip holder and stationary rod hanger

Rod Hanger Rack

Stainless Steel Type 316

High Polished

- > Durable, UV-stabilized White poly racks
- > Three sizes for convenient 2-, 3- & 4-rod storage
- > Pre-drilled mounting holes and beveled edges
- > Mount vertically, horizontally and overhead
- > Sold in Pairs

Reel Hanger

Stainless Steel Type 316

- > Corrosion-resistant, Stainless Steel spring secures reel into position
- > Adjustable to fit most popular trolling reels
- > Also available as a kit that includes reel hanger with rod tip holder

Rod Hanger Racks

Patent #7,228,655

Outrigger Line Caddy

Mounting Plate

Aluminum

320 Grit Brite Anodized

- > Ideal for all mounts that require additional support on hard tops and gunnels
- > Backing plate offers additional strength and support from under the top
- > Wedge plate injection molded plastic wedges for use with curved t-tops
- > Sold in Pairs

Base Reducer

Aluminum & Nylon

- > Reduces ID from 1-1/2" to 1-1/8" to accept 1-1/8" diameter outriggers
- > Nylon outer sleeve fits 1-1/2" tube
- > Sold in Pairs

Rod Holder Liner

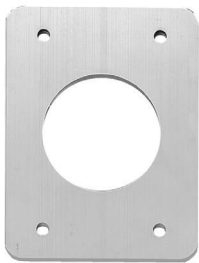

PVC

- > Extruded, tapered PVC
- > Available for both straight and flared rod holders
- > Press fit into rod holders

Outrigger Line Caddy

Nylon

- > Clamps to outriggers to eliminate tangling and maintain rigging when outriggers are retracted
- > Rugged, long lasting nylon
- > Sold in Pairs

Oval Step Tread

Round Pipe

Aluminum

- > Available as Schedule 40 or Schedule 80
- > Available in a variety of thicknesses
- > Designed for t-top, towers, leaning posts, poling platforms, bow rails, ski arches
- > Extruded to close tolerances

Oval Pipe

Aluminum

- > Ideal for step treads, grab rails, bow rails, canvas top and can be used on t-top for running wire chase

RUB RAIL

Rigid Vinyl Rub Rail Accepts Flex Chrome Insert

- > Elegant look of Stainless Steel without the high cost and labor
- > Clean, smooth, polished look
- > Easy handling and flexible
- > Installs with no fasteners
- > End caps available for select Rub Rails
- > Ideal for up to 30' boats

PRODUCT KNOWLEDGE
TM

Patented, flexible Vinyl Flex Chrome insert offers an elegant Stainless Steel look at a much lower cost. Co-extruded, specially formulated chrome mylar is applied and laminated in-line to the surface of the extruded flexible Vinyl insert. Flex Chrome Insert is available in three styles: V12-0307, V12-1069 and V12-9809 located on page RR78.

*Drilled and countersunk on 6" centers

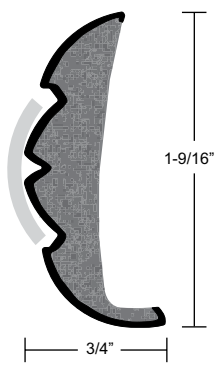

Flex Core Accepts Stainless Steel Insert

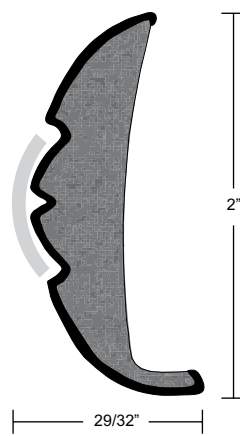

- > Lightweight
- > Easy handling and installation
- > Solid, rigid PVC cap stock exhibits traditional surface characteristics, appearance and impact properties
- > 50' and 60' are available in a continuous coil eliminating butt joints around gunwale
- > Improved bending characteristics and ability to cold form
- > Vacuum calibration tooling allows for tighter dimensional tolerance and sizing consistency
- > High-density core offers improved shock-absorbent impact resistance
- > Drilled and countersunk on 8" centers
- > End caps available for select Rub Rails

PRODUCT KNOWLEDGE
TM

Spray Rail is a Rigid Vinyl Rub Rail designed to provide protection from water spray and keep the boat dry. The wetness reduction of 50-60% when installed properly onto the hull makes this Rub Rail worth the expense. It also adds lift to your boat making for a faster boat!

V21-9140

Spray Rail

- > Provides protection against water spray
- > Keeps boat dry and improves performance and speed through lift
- > 50-60% wetness reduction
- > Undrilled

Canoe Rail

- > Fits hull thickness 1/4" - 3/8"
- > Specially designed built-in hand grip
- > Fits a wide variety of canoes
- > Offers additional structural support
- > Undrilled

CUSTOM PRE-FORMED RUB RAIL

Custom Pre-Formed Rub Rail Accepts Stainless Steel Insert

- > Eliminates heating and hand forming pieces at corners for improved appearance to Rub Rail
- > Reduces labor associated with installation of complex Rub Rail and metal insert shapes
- > Provides a matched continuous flow to Rub Rail and insert installation
- > Many profiles available as Pre-Form capable without distortion of profile
- > Stainless Steel insert is formed to Rub Rail Pre-Form, yet cut to transition effectively for joining

PRODUCT KNOWLEDGE

IM

Pre-Formed Rub Rail for bow and transom sections of a boat offer professional finished look and is easy to install.

EASY 4-STEP QUOTATION PROCESS

- 1. 2D drawings submitted by boat builder**
- 2. Taco Marine provides quote**
- 3. Quote approval initiates splashes to be made and supplied to Taco Marine**
- 4. Taco Marine delivers ready-to-install Pre-Formed parts**

VINYL INSERT

Flex Chrome Insert

- > Soft durometer provides cushion effect to absorb impact
- > Extremely durable
- > Stainless Steel appearance with approximate 30% cost savings
- > Quickly and easily install without fasteners
- > Continuous coil for one-piece installation without seams
- > Non-corrosive

FEATURE PRODUCT

V12-0307

V12-1069

V12-9809

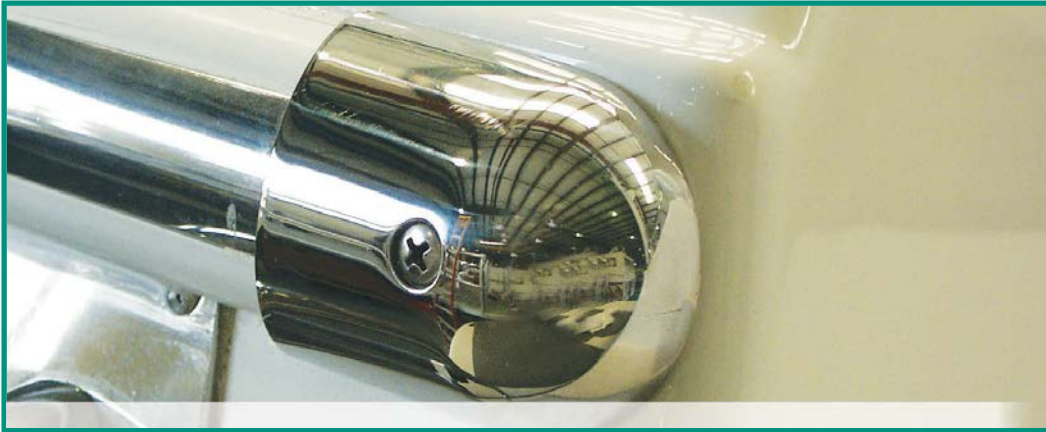

Patent #6,349,662

PRODUCT KNOWLEDGE

Patented, flexible Vinyl Flex Chrome insert provides the beauty of Stainless Steel without the high cost and labor. Developed originally for OEM automotive exterior trim applications, "Flex Chrome" by Taco Marine has passed extensive testing for heat/humidity freeze cycle, salt spray, shock and accelerated weathering. Flex Chrome Insert is available for the following Rub Rail: V21-9501, V21-9517, V21-9662 and V21-9909 located on page RR61 and RR65.

Part #	Retail #	Length	Height	Width	Rub Rail
V12-0307CP200	-	200'	3/4"	1/2"	V21-9501, V21-9517
V12-1069CP165	-	165'	5/8"	5/16"	V21-9662
-	V12-9809CP70-1	70'	1"	1/4"	V21-9811
V12-9809CP210	-	210'	1"	1/4"	V21-9811

End Cap

Stainless Steel Type 316 / Nylon

- > Caps Rub Rail to finish end of rail and ensures insert stays intact

Stiffener

Aluminum

- > Ideal for V11-4014 Rub Rail with V12-0003 Insert
- > Helps keep Rub Rail straight
- > Inserts into other Flexible Vinyl Rub Rail
- > Supports fasteners for smooth installation
- > Drilled and countersunk on 6" centers

V22-3162

"Sandwich-Style" insert is used with V11-3161 Rub Rail to cap over deck and hull joint and is typically used on sailboats.

Rigid Vinyl Insert

Sandwich-Style

- > Easy to handle
- > Typically used on sailboats

Rub Strake

Stainless Steel Type 304

- > Designed to prevent chafing of dock, fender and anchor lines
- > Recommended for yachts and larger boats with heavy lines
- > Ideal chafe protection with or without use of extruded Rub Rail

HINGES & LATCHES

Continuous Hinge

Continuous Hinge

Stainless Steel Type 304

Bright Annealed Finish

> 1/2" knuckle length

Polished Finish

> 1/2" knuckle length

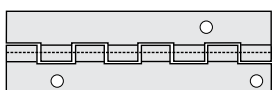

> Drilled on 2" centers

Aluminum

Mill Finish

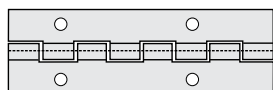

> 1/2" knuckle length

> Drilled on 4" centers

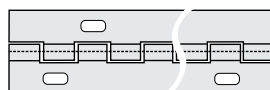

Style A:

Holes are drilled on 4" centers with 1/2" stagger

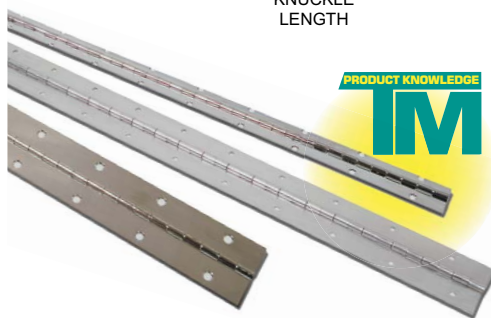

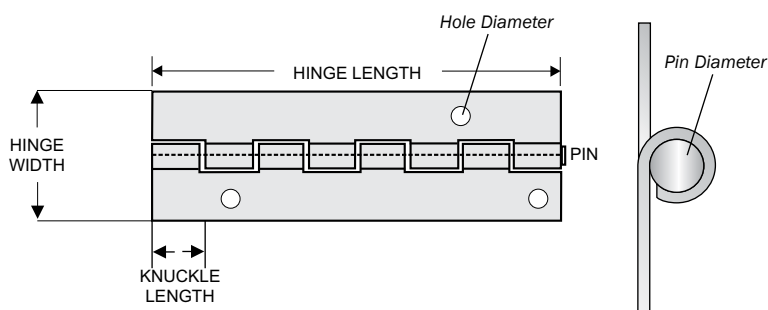

Style E:

Holes are drilled on 2" centers with no stagger

Style G:

Slots are drilled and countersunk on 6" centers with 1" stagger

Continuous Hinges "Piano Hinges" are...

- Strong throughout entire length because each knuckle is a load bearing point
- Increase product rigidity by supporting full length of the application
- Easier and more precise to align than two or more butt hinges
- Attractive and uniform in appearance
- Smooth in pivotal action, providing optional axial rotation
- Low-cost and economical
- Available in many variations and are customizable

HINGES & LATCHES

SPECIALTY HINGES

Command Ratchet Hinge

**Cast Stainless Steel
Type 316**

High Polished Finish

- > Meets ABYC H-31 Standards Class B* application, 250lb ft of torque load for pair
- > Designed for up to 4" cushion thickness
- > Seatback up to 28" W and 14" H
- > 15° locking inclination and ratchet up 4 positions
- > Returns to horizontal position at 100°
- > All Brass bearings for durability
- > Countersunk for 1/4" bolt and #10 fasteners
- > Sold in Pairs

Command Ratchet Hinge

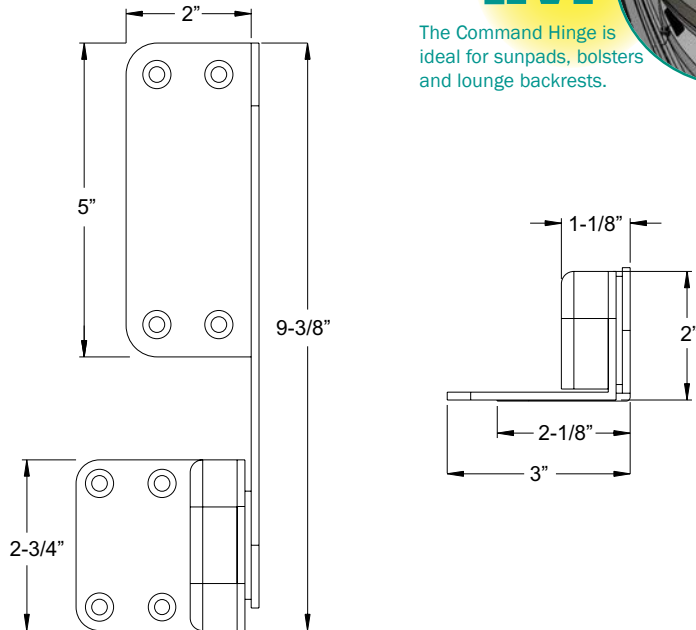

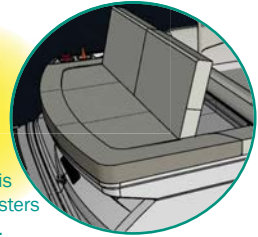

Patent #9,249,827

PRODUCT KNOWLEDGE
TM

The Command Hinge is ideal for sunpads, bolsters and lounge backrests.

* ABYC H-31 Standards Class B is a seat designed for occupancy only at boat speeds not exceeding five miles per hour

Part #	Description	Length	Width	Gauge	Screw
H25-0016	Command Ratchet Hinge	9-3/8"	3"	.10"	#10 or 1/4" bolt

Intelli-Hinge

Intelli-Hinge

**Cast Stainless Steel
Type 316**

- > Integrated ball and socket pivot point allows pivoting on concave, convex and multiple-plane surfaces
- > Offers 20° range of motion
- > Hinges from any two sides, unlike conventional fixed-axis hinges
- > Low-profile Euro styling enhances the look of any boat
- > Polished Stainless Steel Type 316 and Delrin insert prevent corrosion, galling and eliminates rattling

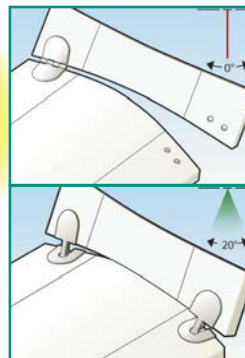

Patent #7,921,513

H90-0400

The Intelli-Hinge permits hinging concave surfaces where conventional hinges are unable to perform.

Hasp Hinge

**Stainless Steel Type 316
Deluxe Polished Finish**

- > Traditional style swivel lock secures latch
- > Concealed fastener for security
- > Allows for addition of lock
- > Over-sized hinge pins for added security

DOCKSIDE

Quick Release Fender Lock

Stainless Steel Type 316 Polished Finish

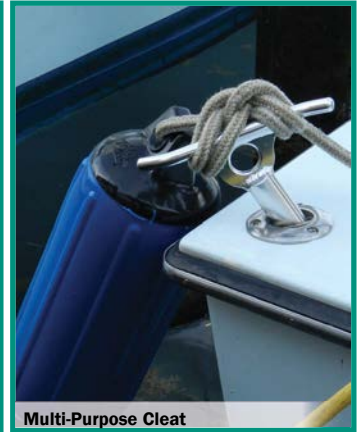

- > Designed for single hand operation
- > Will allow easy installation and removal of float style fenders
- > Large push-button for comfortable operation
- > Large .88 hole diameter for rope
- > Overall height above deck: 1-19/32"
- > Drain plug: 1/4" NPT
- > Quick Release Fender Lock Receiver only also sold separately as F16-0151R-1

Shore Power Cable Holder

Quick Release Fender Lock

Multi-Purpose Cleet

Shore Power Cable Holder

Stainless Steel Type 304

- > Fits into standard Rod Holders at 1-5/8" diameter
- > Quick, adjustable height ring to compensate for low or high tide settings
- > Clamp-on ring can be adapted to 1-1/4" or 1-1/2" tube diameter by removing Delrin Washer
- > Accommodates 30, 50 and 100 AMP shore power cables
- > Shore Power Cable Holder Adjustable Ring only also sold separately as F16-0804-1

ALSO SOLD SEPARATELY

Adjustable Ring only, F16-0804-1

Mounts to 1-1/4" & 1-1/2" Pipe

Gimbal design for secure locking placement

Dockside Filet Table

Big Game Rod Storage Cart

Trailer Glyde Slicks

Dockside Filet Table

High-Density Polyethylene

- > Brushed Aluminum legs
- > Permanently mounts to dock using continuous flat bar mounting pads
- > Water nozzle holder for convenient use and clean-up
- > Attached drink holder included
- > Filet plier and knife holder slots
- > Mounting hardware included
- > Holds up to 250lbs.

Big Game Poly Rod Storage Cart

High-Density Polyethylene

- > UV-stabilized White Polymer
- > Wash rods while in rack
- > Use indoor or outdoor
- > Locking casters offer easy mobility
- > Ideal for large spinning and conventional reels

Trailer Glyde Slicks

High-Density Polyethylene

- > Eliminates friction between the bottom of the boat and the runners
- > Easily installed on carpeted or bare bunks
- > Evenly distribute the weight of the boat
- > Includes Stainless Steel screws and instructions

Light Duty Glyde Slicks

- Ideal for boats under 600lbs.

Premium Glyde Slicks

- Ideal for boats up to 2000lbs.

LED LIGHTS

LED Deck Light Flat Mount

Polycarbonate Housing

- > 12-24V DC
- > USCG, ISO and SAE certified for Ignition Protection*
- > Compact design bolts directly to any flat surface 5" long and 1-3/8" width
- > 8' hidden power cable
- > Wire chase guards included for running wires through tube or pipe
- > Includes Stainless Steel Type 304 swivel bracket and 3M adhesive tape for mounting options
- > High impact, UV-resistant, lightweight White or Black Polycarbonate housing
- > Durable and self-extinguishing clear plastic lens
- > Anodized Aluminum heatsink
- > LED chips are silicone potted for IP67 Waterproof (non-submersion)

4-LED Deck Light

- 10.0 Watt equivalent to a 55 Watt halogen flood light
- Powerful 700 lumen output with 100° spread beam angle
- Low power consumption (0.9 amps @ 12V, 0.5 amps @ 24V)

3-LED Deck Light

- 8.0 Watt equivalent to a 55 Watt halogen flood light
- Powerful 540 lumen output with 100° spread beam angle
- Low power consumption (0.6 amps @ 12V)
- Available in Blue or Red LED lights

*Completely sealed lights tested in explosive environment and exposed to explosive atmosphere in high temperature that includes powering on-off 50 times without igniting the atmosphere at a temperature not exceeding 200° C. Meets statutory and regulatory requirements that assure customer satisfaction and safety. Ideal for use in engine rooms, battery compartments and anywhere fire safety is of most importance.

4-LED Flat Mount Deck Light

LED Deck Light Flat Mount has Stainless Steel Type 304 swivel bracket with 60° vertical pivoting rotation.

LED LIGHTS

Rub Rail Mounted LED Navigation Lights

Stainless Steel Type 304 High Polished Finish

- > Meets ABYC/USCG requirements for both sail and power boat designation
- > Anodized Aluminum heat sink for maximum heat dissipation
- > Set includes 3-Watt Port (Red) and Starboard (Green) LEDs
- > IP68 rating for "wet locations"
- > Easy installation with instructions included
- > Reliable long-life LEDs will provide years of maintenance-free service
- > 120° unobstructed view

Navigation Light Set, 4-1/2"

- Designed to fit Taco Marine's popular Rub Rail V21-9659 and Rub Rail V21-9959
- Ideal for up to 30' boats

Navigation Light Set, 2-5/8"

- Designed to fit Taco Marine's larger Flex Core Rub Rail V21-9906
- Ideal for up to 40' boats

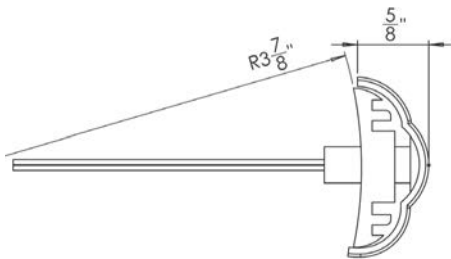

LED Navigation Light Set

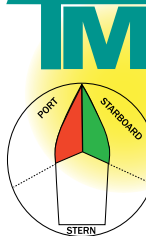

Patent #2014/0056013

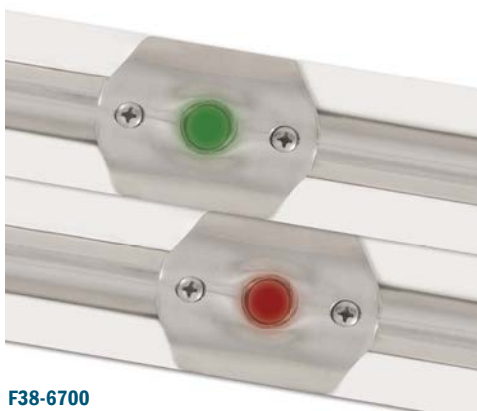

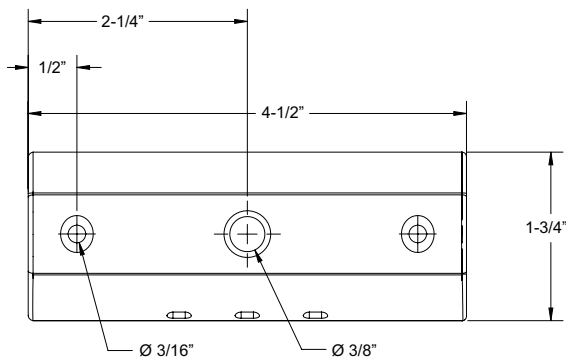

F38-6600

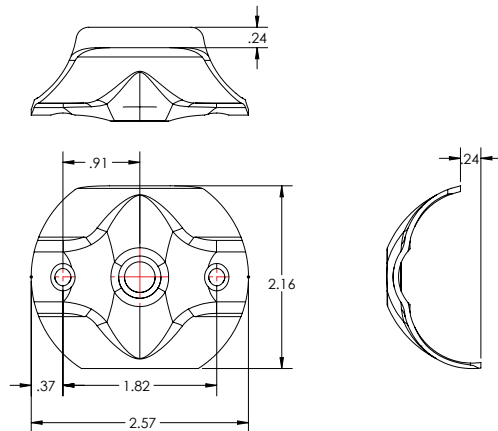

PRODUCT KNOWLEDGE

Each set of Rub Rail Mounted Navigation Lights include 2 lights: Red for port and Green for starboard.

King Starboard Anti-Skid Polymer Sheet

King Starboard® Anti-Skid Marine-Grade Polymer Sheet

- > UV-stabilized high-density polyethylene
- > Special high friction surface in a diamond pattern finish prevents slipping and promotes drainage when wet
- > Resistant to harshest marine environment
- > Passes ASTM D2047 Slip Resistant testing
- > Resists most stains and does not change color
- > Does not rot or delaminate
- > Does not need refinishing
- > Chemical resistant
- > Cleans easily with marine-grade soaps or cleaners using fresh water

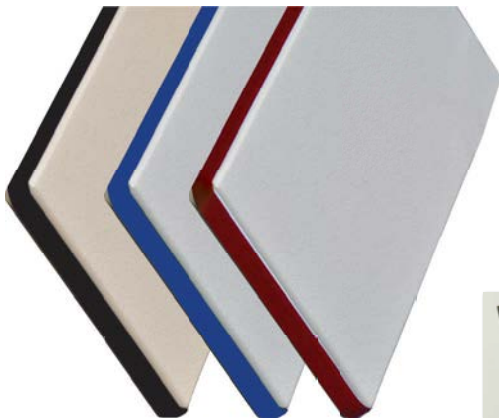

Anti-Skid

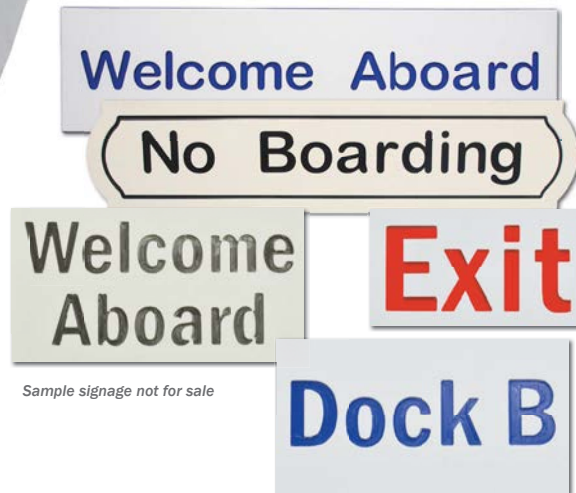

King ColorCore® Engravable Marine-Grade Polymer Sheet

- > UV-stabilized high-density polyethylene
- > Easy to engrave or machine with router
- > Cap thickness on both sides is .050"
- > Does not warp, rot or delaminate
- > Recommended for signage, plaques, ID plates

Finish Specifications

Finishes specified in this catalog reflect Taco Marine's stock finishes. Other finishes are available provided minimum quantity requirements are met and sufficient lead-time is given.

ANODIZED ALUMINUM FINISH

Anodizing is an electrolytic process that redeposits a protective coating on an Aluminum surface. This coating becomes an integral part of the Aluminum and will not peel or flake.

The following is a complete list of anodized finishes available either from stock and/or special order. Please refer to our finish codes when specifying a particular finish.

Brite Dip Finish

BLY: Silver Brite Dip and Anodized Anodized finish for chrome like appearance. Withstands corrosive environments. Extrusion flow lines may appear through the anodized finish.

Premium Brite Dip Finish

BLS: Brite Dip, Mechanically Linear Sanded and Anodized Fine wire brush and anodized finish. The mechanical brushing masks unsightly scratches that occur from contact and handling during fabrication or everyday use.

BSA: Silver Brite Dip, 320 Grit Mechanically spiral sanded and anodized, for round tube and pipe. Mechanically sanded and anodized finish for products with corrosive, high traffic exposure. The mechanical brushing masks unsightly scratches that occur from contact and handling during fabrication or everyday use.

BSS: Silver Brite Dip, 320 Grit Mechanically spiral sanded and anodized, for round pads. Mechanically sanded and anodized finish for products with corrosive, high traffic exposure. The mechanical brushing masks unsightly scratches that occur from contact and handling during fabrication or everyday use.

BSY: Silver Brite Dip, 180 or 320 Grit Mechanically lineal sanded and anodized, for extrusions. Mechanically sanded and anodized finish for products with corrosive, high traffic exposure. The mechanical brushing masks unsightly scratches that occur from contact and handling during fabrication or everyday use.

BXY: Polished, Brite Dip Anodized Simulated Stainless Steel finish for corrosive and highly aesthetically critical environments requiring the most blemish-free Aluminum extrusion available. Most extrusion flow lines are removed during the polishing process.

BXZ: Brite Dipped 800 Grit Mechanically Sanded and Anodized Finish for products with corrosive high traffic exposure. The mechanically brushed finish mask scratches that occur from everyday use and the anodic coating protects against the marine environment harsh elements. This finish matches up well next to either BSA or BXY finished products.

Standard Anodized Finish

TAL: Polished, Clear Anodized Mechanically buffed, semi-brite. A traditional anodized finish with a subtle polish. Most extrusion flow lines are removed during the polishing process.

VEL: Etch, Clear Anodized (satin) A cost effective, matte finish. Provides the greatest corrosion protection for minimal aesthetically important exposure.

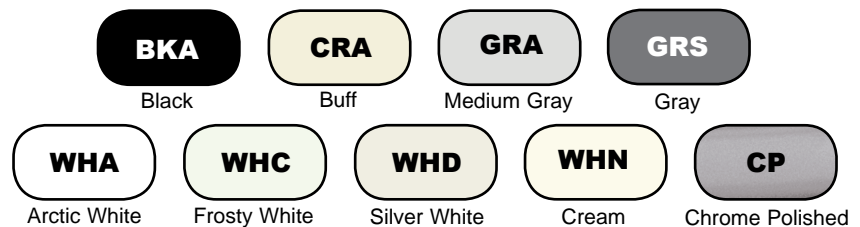

No Finish

AES: Mill finish - as extruded No secondary finishing. Primarily used for industrial applications or for third party finishing or powder coating.

AEY: Mill finish - as extruded No secondary finishing. Primarily used for industrial applications or for third party finishing.

RUB RAIL / TRIM & MOULDING COLOR GUIDE*

Colors specified in this catalog reflect Taco Marine's standard Rub Rail and Trim & Moulding colors. Custom colors are available provided minimum quantity requirements are met and sufficient lead-time is given.

*DUE TO VARIATIONS IN THE PRINTING PROCESS, COLOR MAY VARY SLIGHTLY FROM THE ORIGINAL PRODUCT. COLOR SAMPLES AVAILABLE UPON REQUEST.

Taco Marine products are all carefully tested and inspected to ensure optimal levels of performance.

Taco Marine warrants to the original purchaser of its products that should any product be proven defective in material or workmanship within one, three or five year of original purchase, they will be repaired or replaced without charge, subject to the performance guarantees stated in this warranty.

The Taco Marine limited warranty applies to all products unless otherwise noted.

Five Year Limited Warranty:

Rub Rail Products

Trim and Moulding Products

General Hardware including Pipe and Tubing

Hinges and Latches

Taco Marine warrants to the original purchaser of its Rub Rail products that should any product be proven defective in material or workmanship within five years of original purchase, they will be repaired or replaced without charge, subject to the performance guarantees stated in this warranty. These products are intended for pleasure crafts, used for recreation. Exposure to harsh marine environments requires all products to be rinsed with fresh water after use and be regularly maintained.

Taco Marine guarantees the performance of these products as follows:

Aluminum Extrusions and Hardware are guaranteed against fading of anodized finish, corrosion, except for non-anodized surfaces resulting from cutting, machining, tight radius bending, scratching, metal to metal contact or other exposure of the base Aluminum. This guarantee does not extend to corrosion resulting from galvanic reaction (improper electrical grounding). Slight fading or dullness of finish over time is a normal occurrence of weathering and does not constitute a defect.

Vinyl Extrusions and Nylon Hardware are guaranteed against significant fading, cracking or swelling and significant reduction of plasticity, modulus, tensile strength and dimensional integrity. Slight color variation is a normal occurrence of weathering and does not constitute a defect.

Stainless Steel Lineals and Cast or Stamped Hardware are guaranteed against loss of luster, corrosion and rust, except that resulting from cutting, machining, scratching or metal to metal contact. This guarantee does not extend to corrosion or rust from galvanic reaction (improper electrical grounding). Slight luster variation over time is a normal occurrence of weathering and does not constitute a defect.

Taco Marine's liability and purchaser's exclusive remedy for damages shall not be greater than the purchase price of the actual supplied product claimed to be defective and Taco Marine shall not be liable for any indirect, incidental or consequential damages, including, but not limited to, present or prospective profits, reliance expenditures or commitments, reputation, goodwill or claims of third parties.

During this warranty period, your Taco Marine product will either be repaired or replaced without charge to the original purchaser, when returned prepaid and insured with proof of purchase date. This warranty covers repair or replacement costs and freight back to the original purchaser-consumer.

This warranty does not apply to any product that has been damaged through alteration, mishandling, misuse, neglect or accident, unless otherwise stipulated. This warranty is in lieu of all other warranties, expressed or implied and no persons or representative is authorized to assume for the company any other liability in connection with the sale of this product. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitations of incidental or consequential damage, so the above limitations or exclusions may not apply to you.

This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

Three Year Limited Warranty:

Sport Fishing Products

Taco Marine warrants to the original purchaser of Taco Marine Sport Fishing products to be free from factory defects in materials and workmanship for a period of three years from the date of purchase. Should they be proven defective in material or workmanship within three years of original purchase, they will be repaired or replaced without charge, subject to the performance guarantees stated in this warranty.

These products are intended for pleasure crafts, used for recreation. Exposure to harsh marine environments requires all products to be rinsed with fresh water after use and be regularly maintained.

This warranty excludes the following:

Damage by collision, faulty or incorrect release clips, damage of components due to corrosive cleaners or lubricants, damage as a result of a combination of rough seas and high speeds, and failure to wash off salt water. This warranty is void if product has been damaged by neglect, unreasonable use, improper service or failure to follow maintenance guidelines.

Taco Marine's liability and purchaser's exclusive remedy for damages shall not be greater than the purchase price of the actual product claimed to be defective and Taco Marine shall not be liable for any indirect, incidental or consequential damages, including, but not limited to, present or prospective profits, reliance expenditures or commitments, reputation, goodwill or claims of third parties.

During this warranty period, your Taco Marine product will either be repaired or replaced without charge to the original purchaser, when returned prepaid and insured with proof of purchase date. This warranty covers repair or replacement costs and freight back to the original purchaser-consumer.

Three Year Limited Warranty:

Seating and Table Pedestal Products

Taco Marine warrants to the original purchaser of Taco Marine's Seating and Table Pedestal products to be free from factory defects in materials and workmanship for a period of three years from the date of purchase. Should they be proven defective in material or workmanship within three years of original purchase, they will be repaired or replaced without charge, subject to the performance guarantees stated in this warranty.

Metal components are guaranteed against loss of luster, corrosion and rust, except that resulting from cutting, machining, scratching or metal to metal contact. This guarantee does not extend to corrosion or rust from galvanic reaction (improper electrical grounding). Slight diminishing of luster may occur over time as a normal occurrence of weathering and does not constitute a defect.

Fabrics are guaranteed against significant fading and shape distortion. Minor discoloration or stretch may occur over time as a normal occurrence of weathering and use and does not constitute a defect.

These products are intended for pleasure crafts, used for recreation. Exposure to harsh marine environments requires all products to be rinsed with fresh water after use and be regularly maintained.

This warranty excludes the following:

Damage by misuse, overloading, faulty or incorrect installation, damage of components or fabrics due to corrosive cleaners or lubricants, and failure to wash off salt water and otherwise provide proper care and maintenance. This warranty is void if product has been damaged by neglect, unreasonable use, improper service or failure to follow general maintenance guidelines.

Taco Marine's liability and purchaser's exclusive remedy for damages shall not be greater than the purchase price of the actual product claimed to be defective and Taco shall not be liable for any indirect, incidental or consequential damages, including, but not limited to, present or prospective profits, reliance expenditures or commitments, reputation, goodwill or claims of third parties.

During this warranty period, your Taco Marine product will either be repaired or replaced without charge to the original purchaser, when returned prepaid and insured with proof of purchase date. This warranty covers repair or replacement costs and freight back to the original purchaser-consumer.
