

**> LARGE VIEWING AREA**

Allows faster target acquisition and engagement with reduced "tube effect".

**> ADJUSTABLE  
BRIGHTNESS SETTINGS**

Eight brightness settings with a mid-position  
"Off" feature.

**> AMBIDEXTROUS  
BRIGHTNESS CONTROL**

Brightness dial is equally usable by left or right-handed operators without having to remove hand from fire control.

## **> EASY-TO-SET ADJUSTERS**

Adjusters provide positive-click reticle movement in  $\frac{1}{2}$  MOA increments and require no special tools for operation.

**> AIRCRAFT-GRADE  
ALUMINUM HOUSING**

Forged 7075 housing and fully-sealed construction protects against the toughest elements.

**> SURFACE-FLUSH ADJUSTERS**

Eliminates snag hazards and ensures  
against inadvertent adjustment or loss of zero.

TRIJICON  
**MRO™**

**> WATERPROOF  
TO 30 METERS (100FT.)**

Dry-nitrogen filled to eliminate fogging.

TRIJICON  
**MRO™**

## > **SINGLE LITHIUM BATTERY**

5 years of continuous use at day-setting 3  
(setting 5 of 8) at 70°F with supplied  
lithium battery.

Trijicon puts everything within reach.
