# BOW SIGHTS

Bright multi-pin and single-pin sights — providing accuracy and versatility to modern hunting bows.

**NEW**

# HYPER•STRIKE™

ULTRA-LIGHT, LONG-RANGE BOW SIGHT

4

BOW SIGHTS

Long-range precision alignment and torque reduction.

*New for 2017, HYPER•STRIKE™ combines fan-favorite features with brand new innovations in the world of bow sights. Decreasing Diameter Pins increase your effective range, while the new TRU•LITE™ PRO rotary light illuminates your pins to extend your hunt through crucial low-light prime-time. The MAXAMOUNT™ bracket provides more setup options than ever before while the available SIGHTLINE™ system assists in lining up long-range shots while monitoring and perfecting shooting technique.*

**NEW**

5-Pin - Black  
**TG5405SB**

## PRODUCT FEATURES

- Lightweight carbon-composite and aluminum construction
- SIGHTLINE™ system (Model TG5405SB) for long-range precision, alignment and torque reduction
- Micro-adjustable windage and elevation
- 2nd and 3rd axis adjustable level
- Extra-long fibers for maximum brightness
- Large circular field of view (1.9 in. dia.)
- Decreasing Diameter Pin design uses smaller pins for longer distances
- MAXAMOUNT™ bracket offers three sight radius positions with high / low mounting holes for numerous mounting options
- Glow-in-the-dark shooter's ring
- Adjustable for left and right-handed shooters
- TRU•TOUCH™ soft-feel technical coating
- Patented

### Decreasing Diameter Pin Design

With smaller pin sizes for longer distances, the patented DDP™ design blocks less of the target, resulting in more precise pin placement and more accurate aiming.

TRUGLO® ARCHERY / CROSSBOW 2017

**PRO•BRITE™**  
PIN TECHNOLOGY

**MAXAMOUNT™**

Three sight radius positions with high / low mounting holes for numerous mounting options.

**TRU•LITE™ PRO Included**

NEW for 2017, TRU•LITE™ PRO (TG57) gives you more pin illumination options with 3 brightness levels controlled by positive twist-click knob. See page 49 for details.

# CARBON HYBRID™ MICRO

LIGHTWEIGHT CARBON / ALUMINUM HYBRID BOW SIGHT

6

BOW SIGHTS

**PRO•BRITE™**  
PIN TECHNOLOGY

With TRU•FUSION™ Hybrid Technology, CARBON HYBRID™ Micro is the first and only micro-adjustable bow sight constructed with the optimum combination of carbon composites and aluminum, providing an excellent strength-to-weight ratio and unparalleled durability. Featuring PRO•BRITE™ Pin Technology, CARBON HYBRID Micro is the new standard for ultra-lightweight, multi-pin, micro-adjustable bow sights.

5-Pin Micro - Black  
**TG7515B**

## PRODUCT FEATURES

- Lightweight carbon-composite and aluminum construction
- Hybrid construction transfers less vibration
- Micro-adjustable / tool-less design
- Unique PRO•BRITE™ pin design for increased durability and brightness
- Extra-long fibers for maximum brightness
- Extra-long bracket increases sight radius
- Reversible bracket for increased vertical adjustment range
- For both left and right-handed shooters
- TRU•TOUCH™ Soft-Feel Technical Coating
- Patent pending

### Push-Button LED Included

Removable violet push-button sight light.

TRUGLO® ARCHERY / CROSSBOW 2017

**TRU•FUSION™**  
HYBRID TECHNOLOGY

TRUGLO® TRU•FUSION™ Hybrid Technology combines a carbon composite and aluminum construction, creating a durable, ultra-lightweight sight that can't be matched.

# CARBON XS™ XTREME

ULTRA-LIGHTWEIGHT, CARBON-COMPOSITE BOW SIGHTS

8

BOW SIGHTS

**PRO•BRITE™**  
PIN TECHNOLOGY

*You asked, we listened. CARBON XS™ Xtreme is the next generation carbon composite bow sight for any aspiring bowhunter. We added more shooter-suggested features than ever before, including a longer mounting bracket, extended windage and elevation adjustments, larger aperture and PRO•BRITE™ Pin Technology for even brighter pins. With a little bit of everything, CARBON XS Xtreme is the go-to sight for any bowhunter, at any skill level.*

5-Pin - Black  
**TG5805B**

## PRODUCT FEATURES

- Ultra-lightweight carbon-composite construction - weighs less than 4.2 oz.
- Unique PRO•BRITE™ pin design for increased durability and brightness
- TRU•FLO™ Fiber Design
- Extra-long fibers for maximum brightness
- Reversible bracket for greater vertical adjustability
- Adjustable for left and right-handed shooters
- Glow-in-the-dark shooter's ring for improved peep alignment
- TRU•TOUCH™ Soft-Feel Technical Coating

### Adjustable Brightness LED

(Included on model TG3015B) TRU•LITE™ XTREME (TG56) removable violet rheostat LED sight light. See page 49 for details.

Ultra-lightweight STORM™ provides incredible performance at an attractive price. Available in 3, 4, or 5-pin models, STORM features incredibly bright PRO•BRITE™ Pin Technology, a large aperture, and durable CNC-machined aluminum construction, making it one of the best value sights in the TRUGLO® lineup.

5-Pin - Black  
**TG3015B**

## PRODUCT FEATURES

- Lightweight and compact
- Unique metal pin design for increased durability and brightness
- Enlarged circular field of view
- Adjustable for left and right-handed shooters

### What is TFO?

TFO® refers to our patented combination of Tritium and Fiber-Optic technologies. The Tritium maintains the brightness level of the sight in low-light (or NO light) conditions. That means you can see your sight even in complete darkness with perfect transition through all lighting conditions. Tritium does not need batteries and does not need to be charged with light – it simply glows!

THE ULTIMATE TREESTAND BOW SIGHTS

16

BOW SIGHTS

TG700

TG701

*Experienced hunters are familiar with the incredible advantage of shooting from an elevated position. For years, PENDULUM Series sights have been the top choice of treestand hunters, due to their unique Pendulum Adjustment System, which automatically compensates for distances of up to 35 yards. Extremely quiet and constructed with lightweight, durable CNC-machined aluminum, these tool-less sights can also be locked in place for ground shooting.*

1-Pin - Black  
**TG700**

# ARROW RESTS

Advanced methods of holding your arrow for each shot.

NEW

# LOCK•FIRE™

ULTRA-FAST, CLICK-UP, DROP-AWAY ARROW REST

18

ARROW RESTS

## Colored Inserts

Choose between 5 included color-matching SILENT•DRAW inserts for a custom look and quiet arrow loading. Red shown on product.

## Speed-Activated Hammer

When firing, launcher remains up for maximum arrow support, then rapidly drops to avoid vane contact. Arrow remains captured even during let down.

*Load, Lock, Fire! Brand new for this year, LOCK•FIRE™ has it all. Lock the launcher in the upward position using the ergonomic thumb lever, or simply draw the bow to raise the launcher automatically. When fired, delayed-drop actuation allows the launcher to support the arrow longer for increased accuracy. The speed-activated hammer rapidly drops the launcher as the vanes approach. Fitting all bows and arriving in dedicated left-handed and right-handed models, LOCK•FIRE brings innovation and accuracy to any high-performance bow.*

NEW

Black  
TG650B

## PRODUCT FEATURES

- Full-capture rest holds arrow in place
- Independent windage and elevation adjustments
- Arrow is supported on SILENT•DRAW polymer insert (5 replaceable colored inserts included)
- Easy setup and tuning for all bow types
- Ergonomic thumb lever can also be used to lock the launcher up
- Raises when you draw, then locks up when you let down
- Operated by downward-moving buss cable – cable clamp included
- No launcher movement or vertical arrow movement during draw when launcher is locked up
- Delayed drop actuation – supports arrow longer for increased accuracy and consistency, then drops rapidly as vanes approach
- Cushioned adjustable down-stop absorbs launch momentum
- Available in dedicated left-handed and right-handed models
- Patent pending

LEFT-HANDED CONVERSION

# STORM™

ULTRA-LIGHTWEIGHT, CAPTURE-STYLE REST

### Colored Inserts

Choose between 5 included color-matching dual-coil inserts for a custom look and quiet arrow loading. Red shown on product.

### Left-Handed Conversion

Simple / Quick conversion for left-handed shooters

For archers preferring a capture-style rest, STORM™ combines waterproof nylon brushes with a technical rubber launcher – avoiding the wear and tear of felt and providing a full-containment system with minimal friction.

## PRODUCT FEATURES

- Capture-style arrow rest
- Adjustable brushes hold arrow at almost any angle
- Dual-coil launcher is adjustable / replaceable
- Reduced arrow contact increases speed and accuracy
- Fast and quiet arrow release
- Easy tuning adjustments
- Technical rubber insert for silent arrow loading – no more felt!
- Ultra-tough all-weather design
- Great for traditional target shooting, 3-D and hunting
- Quick and easy installation
- Universal design for left and right-handed shooters

# RELEASES

The critical link between the hunter and the bow.

NEW

# ACTIVATOR™

SINGLE-JAW ROLLER SEAR PRECISION RELEASE

### Jaw-And-A-Half Design

Single stainless steel moving jaw with fixed flat opposing jaw. Smooth release like a single-jaw, locks-on like a dual-jaw.

### Leather Strap Available

TG2570MLB features a leather wrist strap and steel single-buckle closure.

### BOA® Closure System

For glove-like fit and all-day comfort. Included with TG2570MBC.

### Side•Lock Connector

Connector locks release-head out of the way.

New for 2017, we've combined all of the advantages of a dual-jaw release with the simplicity and accuracy of our popular DETONATOR™ single-jaw design. The active jaw opens quickly and smoothly while the opposing side remains constant. An active spring reset quickly sets the action for your next shot. ACTIVATOR™ comes standard with a roller sear adjustable trigger and is available with the BOA® wrist strap or a leather strap and steel buckle.

NEW

BOA® - APG™  
TG2570MBC

## PRODUCT FEATURES

- Quiet, fast and accurate
- Automatic / active spring trigger reset
- Jaw opens away from the shooter for more comfort
- Roller sear design for a smooth trigger pull with a crisp break
- Adjustable trigger sensitivity
- Micro-adjustable trigger travel
- Uncompromising rock-solid connection system for ultra-precise length adjustments
- Precision stainless steel wear-free jaw
- Ergonomic hand and finger position
- 360° rotating head eliminates string torque
- Premium release strap for long-lasting comfort
- Patented

# TITANIUM X™ BROADHEADS

HIGH-PERFORMANCE TITANIUM BROADHEADS

40

BROADHEADS

## Fixed Blade Broadheads

TITANIUM X™ fixed blade broadheads are available in both an innovative 4-blade design and industry proven 3-blade configuration. Whether you want more cutting edges or more penetration, TITANIUM X delivers the strength, accuracy, and destructive power to get it done.

## Grade 5 Titanium Ferrule

Provides the strength needed to punch through bone, but also to prevent bends and dings that wear out other broadheads over time. Maximize your killing potential with broadheads that hit accurately, cut amazingly, and last longer.

*Precision broadheads for hunters, by hunters. TITANIUM X™ broadheads are spin tested and sharpness tested to ensure ultimate performance and quick kills. A CNC-machined titanium ferrule provides the unwavering strength and consistency needed to fly like a field point and punch through bone. The TRU•CUT™ titanium tip slices hide and flesh immediately upon impact and the tough stainless steel blades cut a devastating wound channel for maximum lethality and easier tracking.*

NEW

# TITANIUM X™ CROSSBOW BROADHEADS

HIGH-PERFORMANCE CROSSBOW BROADHEADS

42

BROADHEADS

### Grade 5 Titanium Ferrule

Provides the strength needed to punch through bone, but also to prevent bends and dings that affect accuracy and wear out other broadheads over time. Maximize your killing potential with broadheads that hit accurately, cut amazingly, and last longer.

Modern crossbows provide the energy needed to take advantage of all the cutting potential of a 4-blade broadhead – which is why we have created crossbow-specific TITANIUM X™ models to capitalize on this power by pairing our 4-blade designs with a ferrule shaped for maximizing the power of crossbow bolts.

## VERSA™ PEEP

- Versatile interchangeable inserts allow the shooter to customize peep for preferred size / color
- Lightweight aluminum construction
- Precision CNC-machined
- Metal peep sight is 1/4 in. dia. without insert
- Angled design for shorter axle-to-axle bows
- Patented

### Customize Peep Size

Change peep size / color with included interchangeable inserts.

Included with TG75X

1/8 in. 5/32 in. 3/16 in.

MODEL	COLOR	INSERT SIZES
TG75X	Black	Includes 1/8 in., 5/32 in. and 3/16 in. insert in each color

## CENTRA™ PRO•SERIES

- Lightweight aluminum construction
- Precision CNC-machined
- Angled design for shorter axle-to-axle bows
- Aperture diameter is 1/8 in., 3/16 in. or 1/4 in.
- Available in bulk

MODEL (Single)	MODEL (50-pack)	SIZE	COLOR
TG76A	TG76AN	1/8 in.	Black
TG76B	TG76BN	3/16 in.

Please note: Fiber diameter and length may vary per sight or installation application. Please check actual sight model before ordering.

## TRITIUM + FIBER-OPTIC PINS

- The most revolutionary innovation since we introduced fiber-optic sight pins
- Tritium source keeps the fiber bright under any lighting condition, including complete darkness
- Fits 3/16 in. slotted sights
- Perfect transition through all lighting conditions
- Glow-in-the-dark
- Uses the brightest Swiss tritium available
- Patented

TFD®

# TRU•BRITE™

10x42MM OPEN-BRIDGE BINOCULARS

### Neoprene Strap Included

Comfortable padded neck strap supports your TRU•BRITE™ binoculars for easy access.

### Single Wheel Adjustment

Click adjustment wheel back to set diopter adjustment, then lock-in your diopter setting and click the wheel forward to adjust focus.

TG91042G

## PRODUCT FEATURES

- Compact roof / BAK-4 prism design with phase coated prisms
- Single, ergonomic adjustment wheel for both focus and diopter settings
- Lockable diopter
- Long eye relief for use with eyewear
- Twist-up eyecups with click stops
- High transmission silver coating on prisms
- Textured surface provides a non-slip grip in all weather conditions
- Non-reflective matte finish
- Includes protective case

**TG988C**

4x fixed magnification gives hunters the precision needed for accuracy at the end of crossbow range while maintaining the speed and wide field of view that is advantageous for close-range hunting. CROSS•TEC™ builds on this concept with a compact design, multi-coated lenses, and a glass etched reticle with available red and green illumination.

## PRODUCT FEATURES

- DUAL•COLOR illuminated reticle allows choice of red or green for faster target acquisition in low-light conditions (TG8504AL4)
- Waterproof / fog-proof / nitrogen gas-filled
- Fully-coated lenses provide maximum brightness, clarity and contrast
- Adjustable rheostat brightness control
- Durable leaf-spring click adjustments for windage and elevation
- Wide field of view
- 1/2-MOA Windage / Elevation adjustments
- Weaver-style rings included
- Includes 3V-CR2032 battery

# HIP•SHOT™

CROSSBOW SHOOTING REST

### Universal Thread Pattern

HIP•SHOT™ can also be used as a camera, light or optics support.

An unsupported shot with a crossbow is often uncomfortable, inaccurate, or even dangerous. HIP•SHOT™ Crossbow Shooting rest provides a stable platform that easily goes with you on any hunt. By bracing against your hip or the ground, you can take advantage of a stable 3-point support that works while sitting, standing or kneeling. Compact and lightweight, HIP•SHOT is a trusted hunting companion for any crossbow shooter.

### Wrist Strap

Adjustable wrist strap keeps HIP•SHOT at close reach with a buckle that easily attaches to a pack or belt.

## PRODUCT FEATURES

- Increases stability for greater accuracy
- Great for tree stands and ground blinds
- Makes large / heavy crossbows easier to shoot
- Comfortably shoot from standing, sitting, kneeling or prone positions
- Vertical grip moves hand safely away from crossbow rail
- Lightweight folding design stores easily in a pack or on a belt
- Telescoping design fits all sized shooters
- Fully assembled

# ACCU•X™

CAPTURE-STYLE BOWFISHING ARROW REST

62

BOWFISHING

### Waterproof and Durable

With nylon brushes, a composite body, and stainless steel hardware, ACCU•X™ provides an accurate and sturdy rest for your next bowfishing adventure.

TG680B1

## PRODUCT FEATURES

- Fast and easy arrow loading
- Replaceable waterproof brushes
- Ultra-lightweight and compact design
- Full windage / elevation adjustment
- For left and right-handed bows

## MODEL SPECS

MODEL	DESCRIPTION
TG680B1	Nylon brush capture-style bowfishing rest

BLACK

## BOWFISHING NOCKS

- Contoured string groove improves arrow release
- High-visibility green stands out in a variety of water and lighting conditions
- Designed specifically for tapered bowfishing arrows

TG144A1

MODEL	DESCRIPTION
TG144A1	Bowfishing Nocks (6-Pack)

## STRING FINGER GUARDS

- Increases comfort and accuracy while reducing nock pinch
- Provides consistent arrow nocking point
- Includes installation tool

TG390G1

MODEL	DESCRIPTION
TG390G1	String Finger Guards

TRUGLO® ARCHERY / CROSSBOW 2017

# BOWFISHING SLIDES, STOPS & NOCKS

ARROW-SLIDE SAFETY SYSTEM

## Safe and Accurate

The arrow slide stays in front of the riser, preventing dangerous tangles, snags, or contact with the wrong side of the arrow rest.

When fired, the slide moves back and the line trails directly behind the arrow – following the shot without influencing it.

TG147A1

## PRODUCT FEATURES

- Includes three nocks, three arrow slides and three slide stops
- Balanced 360° slide stop
- Compatible with fiberglass or carbon arrows
- Nocks fit 5/16 in. diameter tapered bowfishing arrows
- Patented

## MODEL SPECS

MODEL	DESCRIPTION
TG147A1	Arrow slide safety system (Slides, Stops & Nocks)

## SPEED•SHOT™ BOWFISHING POINT

Whether using TRUGLO® arrows, or upgrading other arrows, bowfishermen can now take advantage of our 5-sided hardened stainless steel point, complete with reversible barb for easy fish removal.

- 250 grain, premium grade, hardened stainless steel tip with pivoting barb
- Pivoting barb for quick fish removal and improved penetration

TG145A1

## SPEED•SHOT™ REPLACEMENT TIPS

Unfortunately, everyone misses at some point, occasionally hitting rocks and damaging tips – which is why we made it as easy as possible to replace tips quickly and get back in the water.

- Elongated tip improves penetration
- Hardened stainless steel stays sharp and resists rust

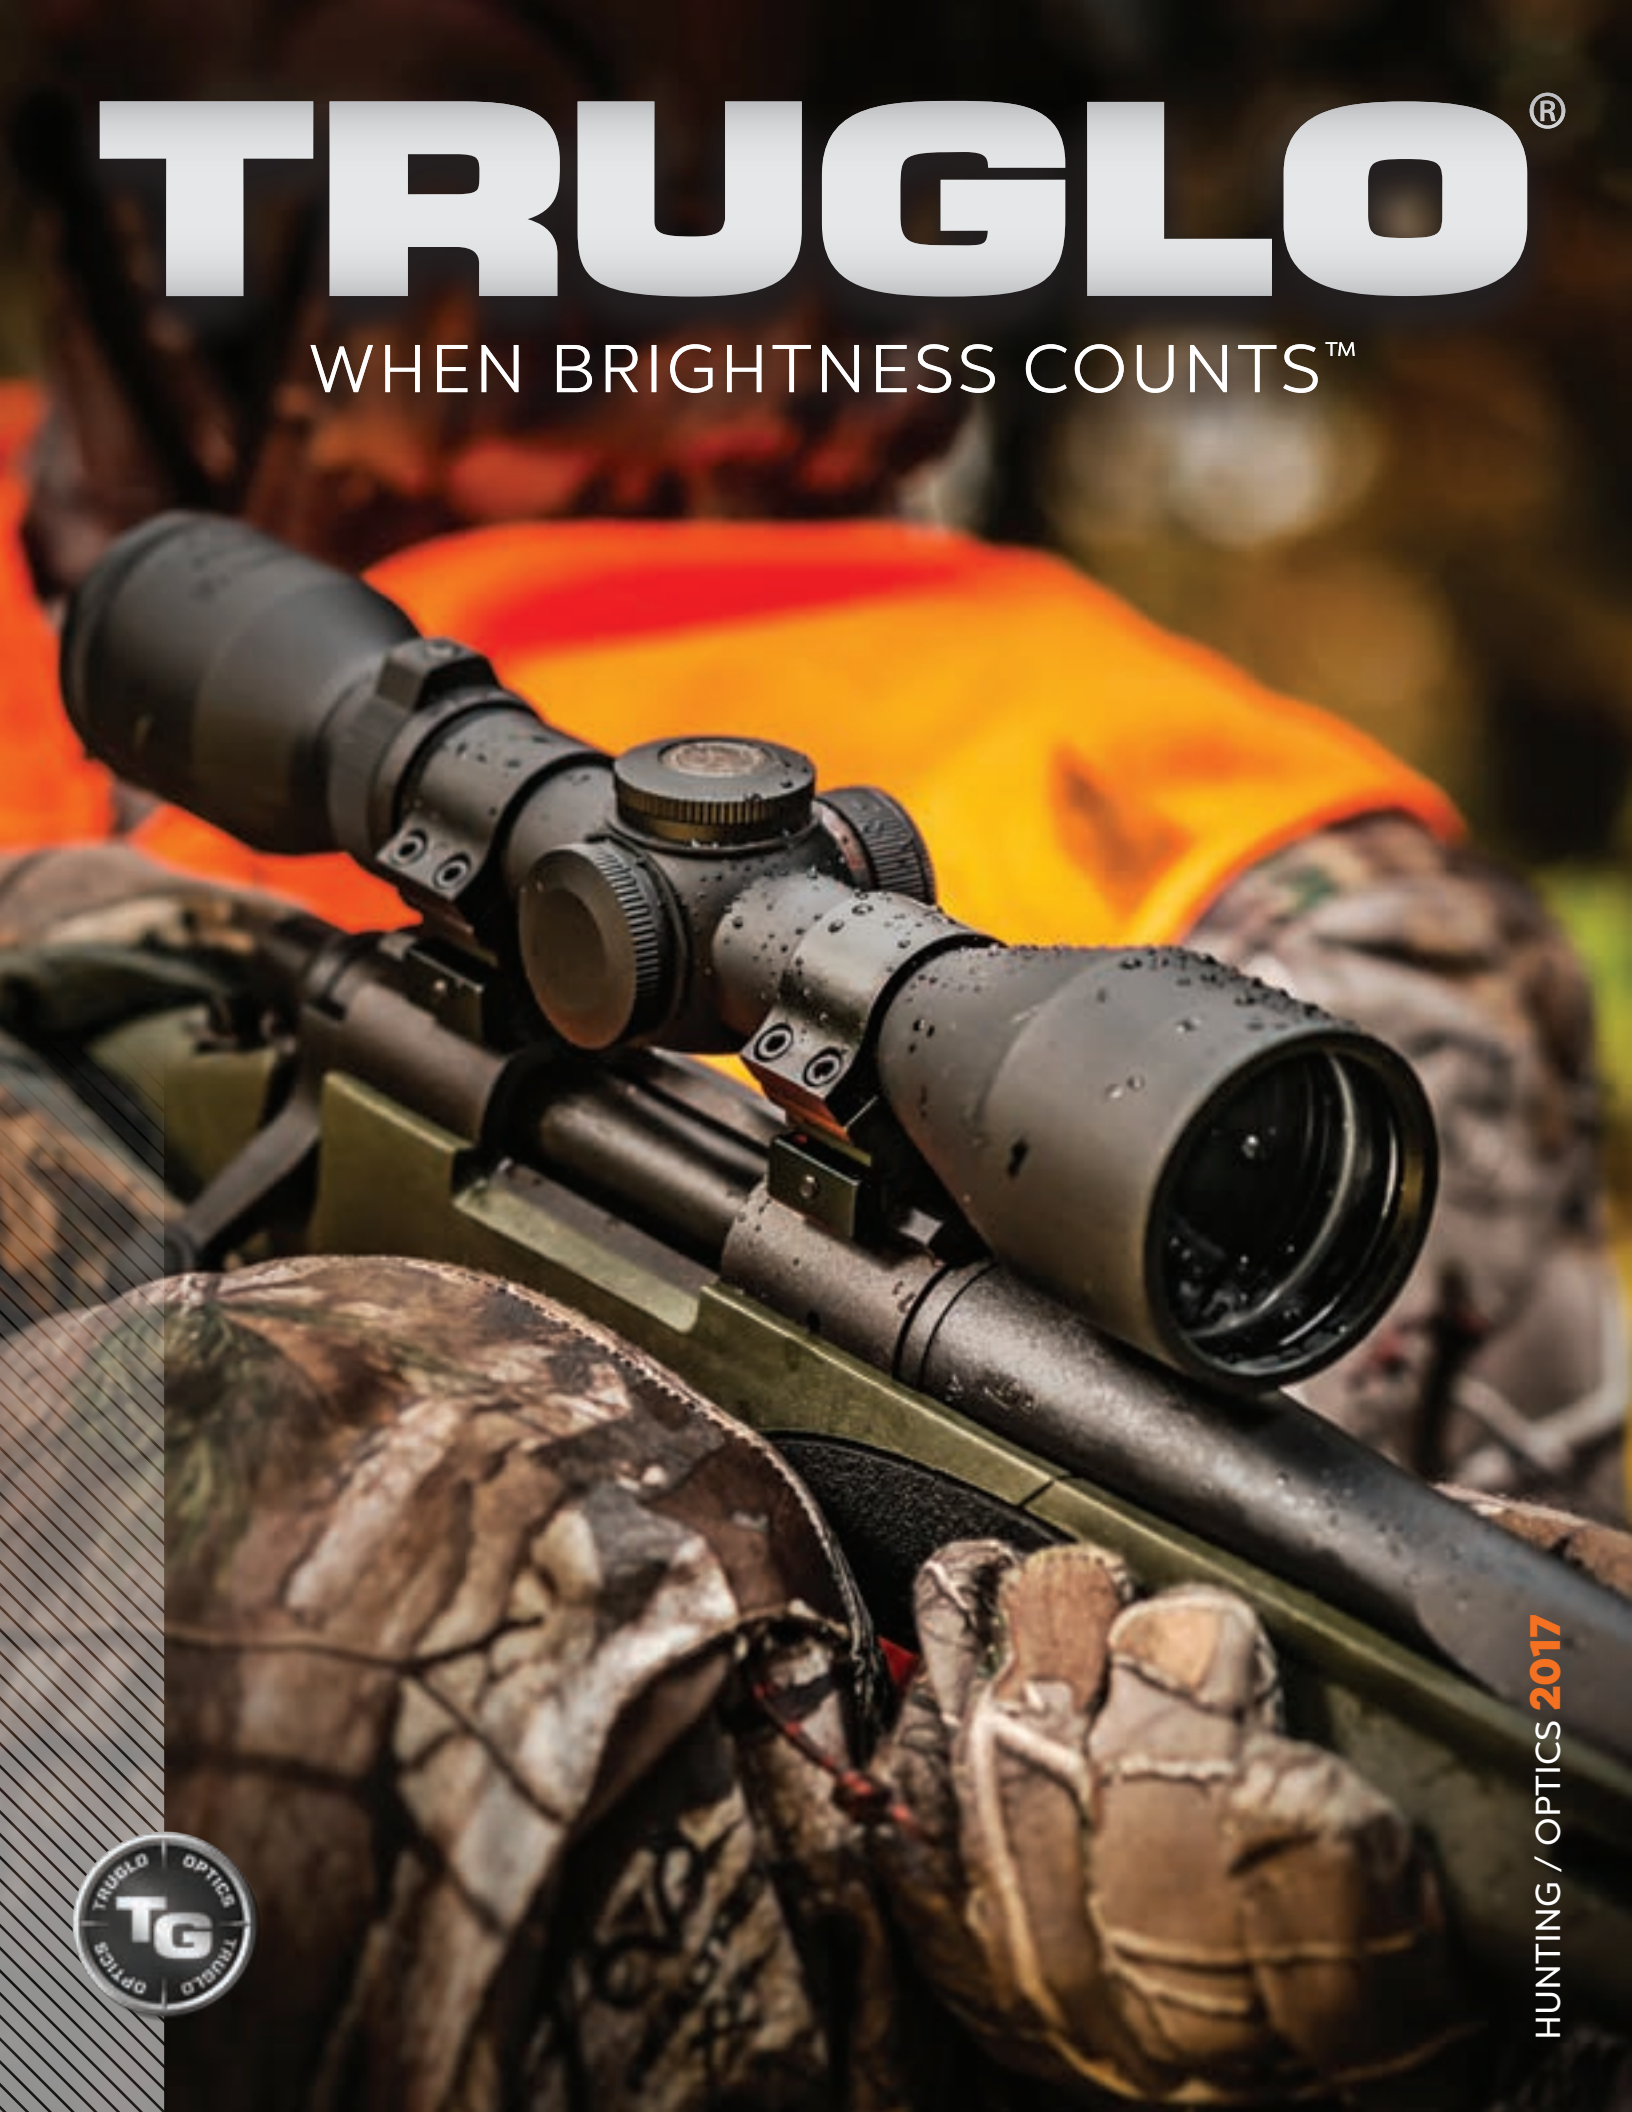

TG146A1

## TRI•COLOR

### 3-MOA CENTER DOT

Illuminated circle equals 24" at 30 yards.

TRITON™ Series dot optics are designed for every situation – any season, any target. TRI•COLOR reticle illumination gives you options for the ultimate contrast against any background while the ON / OFF pressure-sensitive switch will make your movements virtually undetectable. TRITON dot optics offer a bright and versatile targeting system, providing the perfect combination of comfort, clarity, and control.

### PERFECT FOR TURKEY HUNTING

(TG8230GB) Included sunshade, pressure switch and specialized reticle make for a deadly combination in the turkey woods.

30mm - Black  
**TG8230GB**

### Replacement Batteries

(3V-CR2032) Battery included.

See page 39 for replacement batteries.

### TG988C

### Included Pressure Switch

Remote ON / OFF momentary pressure switch puts the power of the TRITON™ at your fingertips.

## PRODUCT FEATURES

- Three choices of reticle color for contrast against any target / background (red, green or blue)
- 30mm objective lens
- Remote momentary ON / OFF pressure switch included
- Flip-up lens caps / lanyard system
- Integrated Weaver-style mounting system
- Model TG8230GB includes a detachable, extended sunshade that eliminates glare from the front lens
- Model TG8230GB includes a precise 3-MOA Center Dot reticle – perfect for turkey hunting
- Includes all the award-winning features of our TRADITIONAL Red•Dot Series (see page 12)

### TG988C

This compact TRITON™ reflex sight is designed to easily adapt to a wide variety of shooting and lighting conditions. Along with the innovative TRI•COLOR technology, this sight also includes the ability to choose between four reticle patterns, each with individual brightness settings. In addition to being compatible with any Picatinny or Weaver rail, TRITON 28mm sits at the ideal height for most modern sporting rifles.

28mm - Black  
**TG8365B**

### MSR CO-WITNESS HEIGHT

TRITON™ 28mm sits at the ideal height for flattop AR-15s and other modern sporting rifles.

## PRODUCT FEATURES

- Quickly toggle between 4 reticles with the intuitive rotary selector switch
- Lightweight / compact design
- Unlimited eye relief
- Wide field of view
- Anti-reflective coating on target side
- Parallax free from 30 yards
- Included detachable sunshade
- Integrated Weaver-style mounting system
- Ideal for shotguns, handguns, rifles, muzzleloaders, airguns and crossbows

## DUAL•COLOR

### ILLUMINATED BDC (Bullet Drop Compensating)

TRU•BRITE™ Xtreme Series scopes are built with high-quality optics that offer shooters a bright, clear, high contrast field of view in any situation. The DUAL•COLOR illuminated reticle helps ensure exact shot placement in low-light conditions. The large diameter fingertip windage and elevation knobs allow for easy adjustments when sighting in. With all these features in hand, you can be extremely confident when the time comes to take the shot.

4-16 x 50mm - Black  
**TG8514BxB**

## PRODUCT FEATURES

- Ultra-high contrast, high resolution mechanical and optical design
- DUAL•COLOR illuminated reticle allows choice of red or green for faster target acquisition in low-light conditions
- Reticle can be used in black without illumination
- BDC (Bullet-Drop Compensating) can be easily calibrated to most centerfire cartridges and accommodate targets up to 600 yards away
- Rubber-coated, speed-focus eye piece
- Specially formulated multi-coating provide maximum brightness, clarity and contrast even in the poorest of light conditions
- Special internal anti-reflective coating on metal parts
- Zoom index at 9 o'clock for more ergonomic use
- Low-profile, large diameter fingertip adjustments for W/E under screw cap

### Replacement Batteries

(3V-CR2032) Battery included.

ILLUMINATED-RETICLE MUZZLELOADER SCOPE

DUAL•COLOR

ILLUMINATED MUZZLELOADER BDC (Bullet Drop Compensating)

Based on the effectiveness and popularity of the TRU•BRITE™ rifle scope series, we created a model dedicated to muzzleloader hunters. The Muzzleloader BDC reticle helps shooters more accurately predict bullet drop for trajectories of slower projectiles, and can be easily calibrated to many bullet / powder combinations to provide aiming points out to 300 yards.

3-12 x 44mm - Black  
TG8531BLM

### Riser Mounts

Additional mounting options available. See page 39 for details.

## PRODUCT FEATURES

- BDC Muzzleloader reticle can be easily calibrated to many bullet / powder combinations and provides aiming points out to 300 yards
- DUAL•COLOR illuminated reticle allows choice of red or green for faster target acquisition in low-light conditions
- Reticle can be used in black without illumination
- Durable, textured, non-reflective matte finish
- Includes all the award-winning features of our TRU•BRITE™ XTREME Scope Series (see previous page)

ACCEPTS ALL WATERFOWL LOADS INCLUDING STEEL & HEVI•SHOT

DUCKS UNLIMITED OFFICIAL LICENSED PRODUCT

# TARGETS & ACCESSORIES

The critical components that help you make the most of your gear and your time – at the range or in the field.

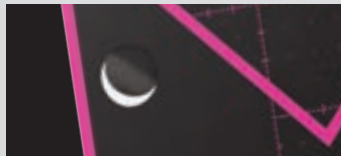

# TRU•SEE™ TARGETS

HIGH-VISIBILITY REACTIVE / SPLATTER TARGETS

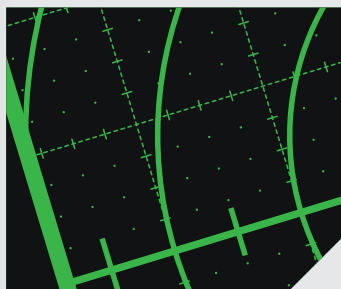

### Self-Adhesive Repair Dots

Cover your hits and shoot again!  
Included repair dots extend target life.

### ACCU•GRID Precision Sighting System

Accurate 1/4" measurements help you make precise sight adjustments.

## PRODUCT FEATURES

- Ideal for shotguns, handguns, rifles, muzzleloaders and airguns
- Point-of-impact visibility is enhanced by a fluorescent green or pink halo
- Flat finish with fluorescent green or pink background is easy to see downrange
- Self-adhesive replacement dots extend target life (Not available on Turkey target)
- Shoot target as is or peel-and-stick the target to your favorite backstop
- Printed on heavy stock paper with a self-adhesive backing for increased target life

TARGETS & ACCESSORIES

## PRODUCT FEATURES

- Compact roof / BAK-4 prism design with phase coated prisms
- Single, ergonomic adjustment wheel for both focus and diopter settings
- Lockable diopter
- Long eye relief for use with eyewear
- Twist-up eyecups with click stops
- High transmission silver coating on prisms
- Textured surface provides a non-slip grip in all weather conditions
- Non-reflective matte finish
- Includes protective case

TG91042G

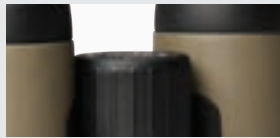

### Neoprene Strap Included

Comfortable padded neck strap supports your TRU•BRITE™ binoculars for easy access.

### Single Wheel Adjustment

Click adjustment wheel back to set diopter adjustment, then lock-in your diopter setting and click the wheel forward to adjust focus.

## HUNTER'S LITE™

- Multi-functional task light
- Hands-free operation
- Dual-position ON / OFF switch
- Flexible neck retains desired position
- Includes removable clip for convenient attachment to hats, belts, or jackets
- Attaches directly to clothing or other sporting equipment
- Bright blue LED

MODEL	LIGHT COLOR
TG982B	Blue

## GLO•BRITE™ PAINT KITS

- Increase visibility of firearm sights, adjustment knobs, and other details with high-visibility paints
- Adheres to metal, plastic, and many other materials with proper application

### GHOST GLOW PAINT KIT

MODEL	DESCRIPTION
TG985B	3 high-visibility gun sight coatings (green, orange and yellow) / 3 light-activated luminescent gun sight coatings (yellow, orange and green)

### BRITE SIGHT PAINT KIT

MODEL	DESCRIPTION
TG985A	5 high-visibility gun sight coatings (red, white, green, orange and yellow)

TRUGLO® HUNTING / OPTICS 2017

## REPLACEMENT FIBERS

- Replacement fiber-optic material for firearm and archery sights
- Efficient light transmission and vibrant color
- Available in a wide variety of colors and sizes

Please note: Fiber diameter and length may vary per sight or installation application. Please check actual sight model before ordering.

## REPLACEMENT BATTERIES

- Replacement lithium batteries for TRUGLO® and other brand lights and electro-optical sights

MODEL	DESCRIPTION
TG988B	For HUNTER'S LITE™ model TG982B (2 per pack, 3V-CR2016)
TG988C	For all TRUGLO® Dot Optics and Illuminated Scopes (2 per pack, Lithium 3V-CR2032)

TG988C

## PICATINNY RISER MOUNTS

- Mounts to existing Picatinny rail
- CNC-machined aluminum
- Easy to install without modification
- Ideal for mounting scopes or dot optic sights
- Great for any AR-15 flattop

\* Measured as the height between the top of the Weaver / Picatinny rail and the center of the optic.

\*\* Measured from top of Weaver / Picatinny rail to the top of optic (excluding turrets, buttons, etc)

## DOT

A traditional dot is great for simplicity, familiarity and speed. Our dot reticles are available in a variety of sizes and colors. A smaller dot is generally more precise, but a larger dot is faster to acquire and align.

## CENTER DOT

Our Center Dot reticle combines a traditional dot with a reference ring for faster acquisition. Listed size (in MOA) identifies the size of the central dot.

## CROSSHAIR

The illuminated Crosshair reticle provides a large shape that can be found quickly, and then centered for alignment like a traditional telescopic sight.

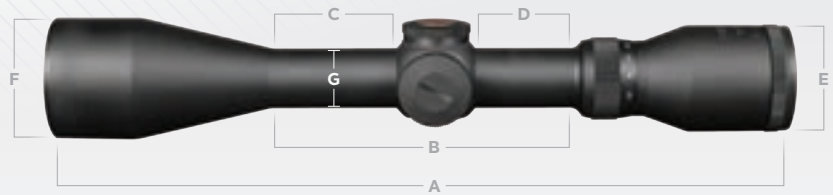

## PEEP

Our Peep reticle combines the Crosshair and Center Dot designs. Vertical and horizontal bars help the reticle to be found and positioned quickly, then the small central dot is used for precise aiming. Listed size (in MOA) identifies the size of the peep opening. (Negative space)

## BDC

Bullet-Drop Compensating reticle can be easily calibrated to provide aiming points from 100 to 600 yards for centerfire loads and aiming points out to 300 yards for various muzzleloader bullet / powder combinations.

## DUPLEX

Duplex reticle provides fast target acquisition in any lighting condition.

## CIRCLE DUPLEX

Duplex reticle provides fast target acquisition with a simple circular frame of reference for patterning shotguns, ranging targets, or simple holdover reference.

## DIAMOND BALLISTIC

Specially designed for the deer or turkey hunter. Diamond reticle measures 5 inches at 40 yards.

## 30MM RED DOT SIGHT WITH CANTILEVER MOUNT

4

DOT•OPTICS

### 2-MOA Red Dot

### Absolute Co-Witness

Co-witness height matches A2 Front sight and standard flip-up sights for a consistent point of aim.

### Motion-Sensing Wake / Sleep

When the optic or weapon is moved at all, the dot is on. When the weapon sits idle for a programmable amount of time (10min, 1hr, or 12hrs) the dot will sleep to save power, waiting for your next move.

### Power Source

TG988C (3V-CR2032)  
Battery and spare battery tray included. See page 34 for replacement batteries.

Welcome the newest member of the TRU•TEC™ team, TRU•TEC XS. Building on favorite features of TRU•TEC 20mm and 30mm units, the XS takes a bold new stance with a rugged cantilever mount, positioned perfectly for back-up iron sights and other optical accessories. With new motion-sensing technology, the dot wake ups instantly and powers down when sitting idle to provide years of battery life.

## PRODUCT FEATURES

- Motion-sensitive wake feature automatically turns on the dot when the optic is moved
- 2-MOA reticle for precision aiming
- 30mm objective lens
- Digital push-button controls
- Multiple brightness settings
- Operates for thousands of hours on single CR2032 battery
- Programmable automatic sleep mode
- Click windage and elevation adjustments
- Machined aluminum cantilever Picatinny mount included
- Integrated lanyard system prevents loss of screw-down W/E caps
- Wide field of view
- Unlimited eye relief
- Optimal co-witness height for backup iron sights
- Flip-up lens caps included
- Ultra-durable design
- Water-resistant / fog-proof
- Mounts to standard Picatinny or Weaver-style rails
- Owner's manual included
- Requires one CR2032 battery (included)

## 30MM RED DOT SIGHT WITH INTEGRATED LASER

6

DOT•OPTICS

### 2-MOA Red Dot

TRU•TEC™ 30mm combines industry-leading features with tactile digital controls and an integral laser. Whether you want the dot in your optic or on your target, control is at your fingertips. Coated optics and a precise 2-MOA dot provide a bright, crisp image for superior accuracy. This robust system is shock resistant, water-resistant / fog-proof, and ready for just about anything.

## PRODUCT FEATURES

- Ultra-durable design
- 2-MOA Reticle for precision aiming
- Water-resistant / fog-proof
- 30mm objective lens
- Digital push-button controls
- Programmable auto-off feature
- Flip-up lens caps included
- Next-generation, high-efficiency Green (520nm, TG8130GN) or Red (650nm, TG8130RN) laser diode
- Laser is independently adjustable for windage and elevation
- Mounts to standard Picatinny or Weaver-style rails
- Integrated wire lanyard system prevents loss of screw-down W/E caps
- Wide field of view
- Requires one CR123A battery (included)
- Multi-coated lenses for enhanced clarity and contrast

# TRU·BRITE™ XTREME

4 x 32MM ILLUMINATED-RETICLE COMPACT RIFLE SCOPE

16

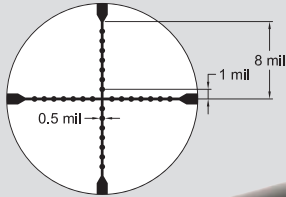

RIFLE SCOPES

## MIL-DOT

## Mil-Dot Reticle

Enables the user to determine the distance of objects of a known size and provides quick trajectory and wind drift aiming reference.

A fixed 4-power scope has been a long-standing favorite for combat optics—enough magnification to give you that added distance and precision, but not enough to slow you down up close. TRU·BRITE™ XTREME builds on that idea with a Mil-dot reticle, built-in sunshade, dual-color illumination, and an available mount optimized for AR-15 / M4-style carbines.

LIMITED  
LIFETIME  
WARRANTY

## NEXT GENERATION TRITIUM + FIBER-OPTIC XTREME HANDGUN SIGHTS

18

HANDGUN SIGHTS

**NEW!**

### MODELS FOR 2017

- Ruger® American 9mm & 45 ACP
- Walther® CCP
- Walther® PPS M2

First we created the original TFO® day / night sight, then made it virtually indestructible with our hermetically-sealed TFX™ capsules. Next, we took TFX™ technology even further for professionals and shooters requiring maximum performance from their handguns—providing ultimate reliability, accuracy, and brightness no matter how tough things get. With even more models available in the TFX PRO lineup, it is even easier to top all of your favorite pistols with the world's best handgun sights.

### Sealed Capsule Design

Provides maximum protection and durability.

TFX™ Pro  
TG13GL1PC

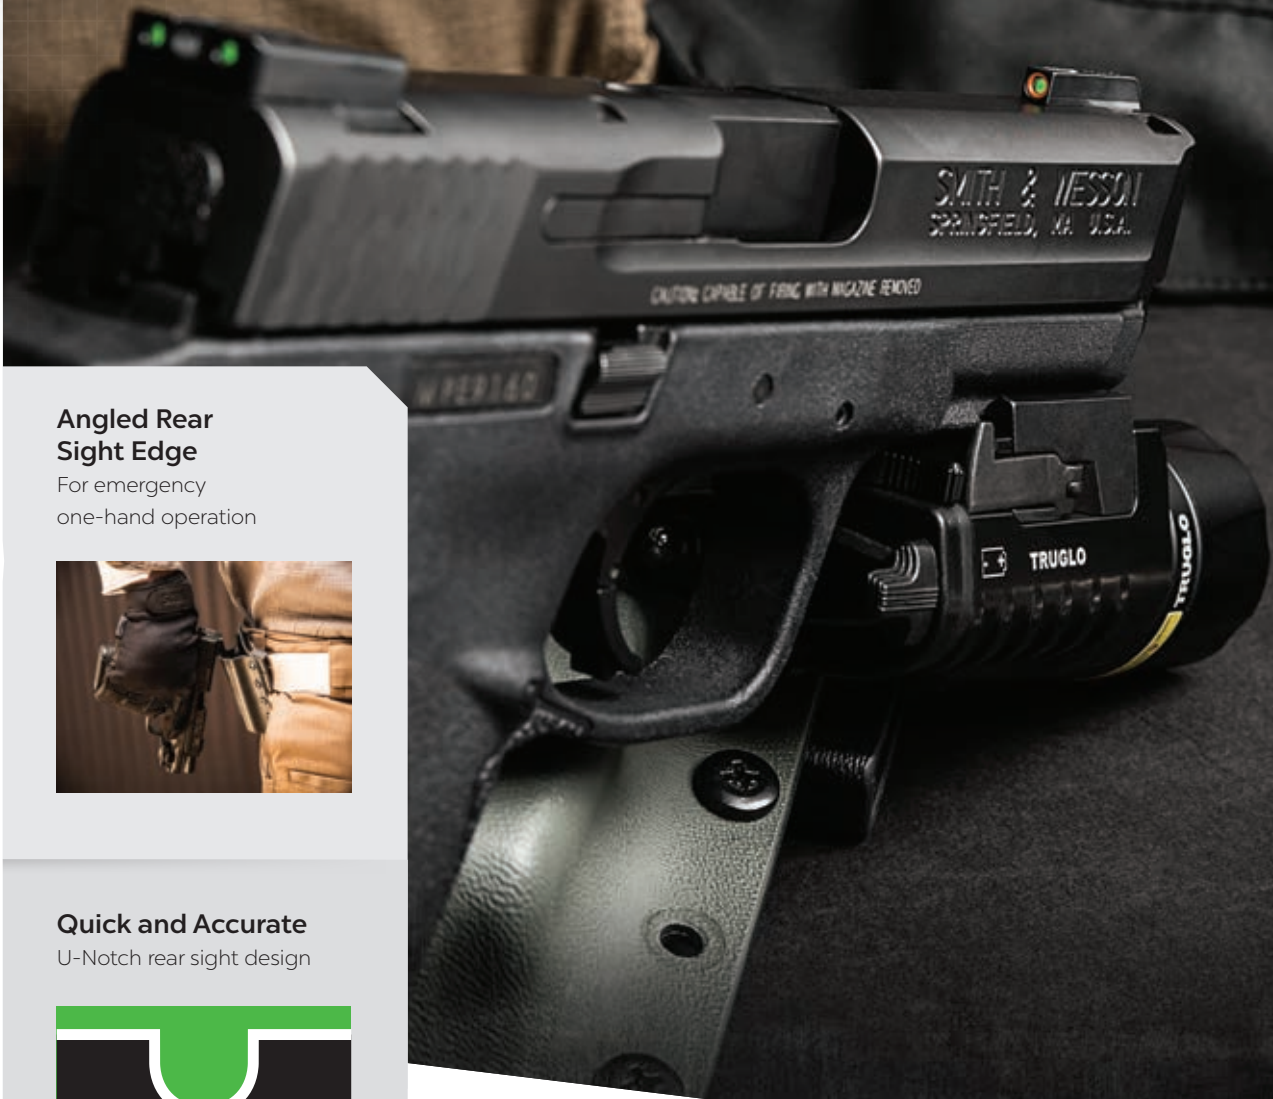

## PRODUCT FEATURES

- Contrasting colored front sight FOCUS·LOCK ring for even faster focus
- Quick and accurate U-notch Design
- Angled rear sight edge for emergency one-hand operation
- All features of our popular TFX™ Handgun sights (page 20)
- Unmatched visibility in all shooting conditions 24/7
- Assembled in USA with quality Swiss Tritium for maximum brightness
- Glows-in-the-dark
- No batteries required
- Concealed fiber cannot be seen by target
- FORTRESS FINISH™ provides a permanent protective coating for maximum protection
- Fits standard holsters
- Evaluated and recommended by National Tactical Officers' Association (NTOA) field testers
- Patented

## TRITIUM + FIBER-OPTIC XTREME HANDGUN SIGHTS

20

HANDGUN SIGHTS

### Sealed Capsule Design

Provides maximum protection and durability.

*Glowing bright both day and night, TFX™ sights are always ready. TFX™ takes our award-winning Tritium + Fiber-Optic technology even further with all the features our customers requested: compact snag-free design, longer sight radius, and amazingly durable construction built to handle just about anything. Illuminating elements are encased inside a virtually indestructible chemical and shock-resistant capsule and the CNC-machined steel is protected with a rust-resistant FORTRESS FINISH™. The white FOCUS•LOCK ring surrounding the front fiber makes it even more visible, encouraging the eye to rapidly focus on the front sight for improved speed and accuracy. TFX™ sights will amaze even the most discriminating shooters.*

### Suppressor-Height Models

Available for Glock® Pistols. (TG13GL4A, TG13GL5A).

## PRODUCT FEATURES

- Fully protected TFO® technology encapsulated in a virtually indestructible configuration
- Impervious to oils, chemicals, cleaning solvents and ultra-sonic cleaning processes
- Unmatched visibility in all shooting conditions 24/7
- Assembled in USA with quality Swiss Tritium for maximum brightness
- Glows-in-the-dark — no batteries or light exposure required
- Front sight FOCUS•LOCK for fast and accurate shooting
- Concealed fiber cannot be seen by target
- FORTRESS FINISH™ provides a permanent protective coating for maximum protection
- Fits standard holsters
- Evaluated and recommended by National Tactical Officers' Association (NTOA) field testers
- Patented

## TRITIUM + FIBER-OPTIC HANDGUN SIGHTS

The better you can see your sights, the better you can shoot. We brought fiber-optics to the shooting sports industry decades ago for this very reason. TFO® pairs our fiber-optic sights with our tritium night sights to create a consistently bright sight picture—day or night! Our patented combination of Tritium and Fiber-Optic technologies unites the best of both worlds — providing the same bright sight picture whether you are in glaring daylight or complete darkness.

### PRODUCT FEATURES

- The first of it's kind!
- Unmatched visibility in all shooting conditions 24/7
- Assembled in USA with quality Swiss Tritium for maximum brightness
- Glows-in-the-dark
- No batteries required
- Concealed fiber cannot be seen by target
- Available with green or yellow rear sights
- FORTRESS FINISH™ provides a permanent protective coating for maximum protection
- Snag resistant design / fits standard holsters
- Patented

## HANDGUN NIGHT SIGHTS

22

HANDGUN SIGHTS

### All New For 2017

All models are brand new, now including dedicated sights for Glock® MOS™, Ruger® American, and the Smith & Wesson® Bodyguard .380.

### Quick and Accurate

U-Notch rear sight design.

Simply put, TRUGLO® manufactures bright ideas. When TFX™ PRO sights immediately took off and gained critical acclaim, we noticed that the world of TRITIUM night sights needed a similar upgrade. Starting with the brightness and durability of our original TRITIUM night sights, we added all of our PRO level features to give you the advantage when you need it the most.

TRITIUM PRO  
TG231G1W

## PRODUCT FEATURES

- Front sight FOCUS·LOCK ring for even faster focus
- Quick and accurate U-notch Design
- Angled rear sight edge for emergency one-hand operation
- Assembled in USA with quality Swiss Tritium for maximum brightness
- Unmatched visibility in low-light shooting conditions or complete darkness
- Utilizes quality Swiss tritium for maximum brightness
- Glows-in-the-dark – no batteries or light exposure required
- FORTRESS FINISH™ provides a permanent protective coating for maximum protection
- Snag resistant design / fits standard holsters

## HANDGUN NIGHT SIGHTS

When the lights go out, your sidearm doesn't need to be left in the dark. Tritium night sights transition from standard white dot sights during the daylight, to glowing green dots in the dark. Tritium does not need batteries and does not need to be charged with light – it simply glows!

Daylight: Bright White Dots

Night: Green Tritium Dots

## LASER / LIGHT COMBO

### Laser / Light Modes

Constant Laser

Flashlight

Flashlight and Laser

### Quick-Detach Lever

Quickly attaches to any Picatinny rail.

### Versatile

Designed for maximum compatibility with rifle, pistol and shotgun.

### Power Source

TG988F (3V-CR123A)  
Batteries included. See page 34 for replacement batteries.

Why choose between a light or a laser when you can have both? TRU•POINT brings the power of illumination options to the rail of your favorite weapon. With the flick of a switch, choose between a laser for pinpoint accuracy, a 250 lumen medium flood LED light for target identification, or run them at the same time for the best of both world's.

Laser / Light Combo  
**TG7650G**

## PRODUCT FEATURES

- Laser located in flashlight housing for a more compact design
- Interchangeable back plates for left or right-hand use included
- Mounts to standard Picatinny or Weaver-style rails
- Quick-detach lever for fast and easy, tool-less removal
- Powerful 520nm green laser (TG7650G)
- Powerful 650nm red laser (TG7650R)
- Operating temperature: 14°F (-10°C) to 122°F (50°C)
- Remote momentary pressure ON / OFF switch also included

\* Front sight only

\*\*Novak® LoMount cut replacement sights are designed for 1911-style handguns with existing fixed Novak® LoMount dovetail cut slides, however some fitting may be required. Installation by a competent gunsmith is recommended.

Due to gun manufacturers' machining tolerances, point-of-impact may differ slightly.

Accept no compromises, choose only quality hunting & shooting products.
