

Ready For Some Simple Outdoor Living

UDECX is a growing brand that is focused on giving you the best possible outdoor living products. Our recycled plastic product is proudly made 100% in the U.S.A. Almost any outdoor or indoor environment can be transformed into a one-of-a-kind area for entertainment or relaxing. Our patented and award winning patio decking system is easy to design and can be set up with two people in almost any environment within just a few hours. We have developed a virtually maintenance and construction free outdoor surface that doesn't attract insects or other unwanted pests. We have paired with trusted reputable retailers to help us give more people incredible lasting outdoor memories.

UDECX is headquartered just outside of Dayton, Ohio, where we are passionate about contributing to the growth of our local and national economy by partnering with suppliers, engineers and manufacturers in and around the Dayton region. We're proud to be a valuable productive part of our local community. Our company is built on honesty, integrity, innovation and hard work. Every product we make is intended to improve you and your loved ones outdoor experience.

UDECCX is a modular, portable and easy to install DIY composite decking system that transforms your outdoor living space.

MODULAR

The UDECCX decking surface is composed of standardized 40-inch square surface pads for easy construction or arrangement. Our starter kit is conveniently shipped in one box with easy-to-follow instructions that make it ideally suited for quick set-up in practically any outdoor environment. Because it is modular it can be easily adapted and changed to meet changing needs or requirements. The surface pads are made of composite material to ensure strength and durability and feature a non-slip synthetic wood grain texture. These pads support 100lbs per square foot. We offer a 15-year manufacturers warranty and our products are proudly made 100% in the U.S.A from recycled materials.

PORTABLE

Our patio units are lightweight and incredibly durable. We've designed our patio decking system to be portable and temporary - as well as strong enough to be installed permanently. Our starter kit is delivered directly to your driveway and includes everything needed to transform your unique outdoor space into a personalized comfortable area to enjoy with friends and family for years to come.

DO-IT-YOURSELF

Anyone can enjoy the benefits of the easy-to-install and minimal maintenance do-it-yourself UDECCX decking system. The UDECCX starter kit comes with one simple tool – which is all you need to create a unique area for outdoor lounging or dining. Our modular patio system gives you all the benefits of a traditional deck/patio without all the hassles that are associated with construction. There's no cutting, drilling or dealing with permits or contractors, extensive costly excavation or cost of materials. Unlike wooden surfaces our durable, easy-to-clean patio surface won't decay or attract insects or pests and won't need constant maintenance.

EASY TO ASSEMBLE

No cutting, nailing or drilling are required. Most installs can be done with two people and in a few hours you can be living carefree outdoors.

NO WOOD ROT, INSECTS OR PESTS

Because UDECX is made of a composite material with no wood filler you will never have to worry about your deck being damaged from the effects of water or insects.

UDECX comes with a 15 year limited warranty. The only maintenance needed is a suggested annual cleaning.

NO CONTRACTORS AND LIKELY NO PERMITS REQUIRED

UDECX was designed with the consumer in mind. Our modular components make it easy for anyone to install in just a few hours with only a few tools.

Most municipalities won't require a building permit since UDECX isn't permanently attached to your home and is less than 30" off the ground.

IDEAS + PLANS

UDECX is a patented and award-winning DIY patio and decking solution, with practically unlimited practical applications; limited only by your imagination.

Use the ideas below in our design center to help you conceive and design your outdoor living and recreation space.

UDECX's modular, portable, DIY features along with ultra-low maintenance make it an ideal patio/decking solution for tiny houses!

UDECX IDEA 1

100 Square Feet with Railing on 3 sides

100 SQFT WITH RAILINGS ON 3 SIDES

The UDECX system has an optional railing system that was specifically designed to provide the same **modular flexibility allowing you to create your custom patio/deck**. Available in black or white, the railing provides a traditional look to your patio/deck.

UDECX IDEA 2

400 Square Feet with Perimeter Railing

400 SQFT WITH PERIMETER RAILING

The modular design means you can **combine multiple kits together to create a larger patio/deck to meet your needs**. The risers and shims that are used to adjust for uneven ground during install can also be used to elevate it above grade creating a step up design.

UDECX IDEA 3

900 Square Feet Deluxe Multi-color

900 SQFT DELUXE MULTI-COLOR

UDECX surface pads are available in two colors, flint grey and cedar red. Our system allows for you to easily mix colors to **create distinctive areas in a larger deck for things like seating areas, cooking areas or fire pit locations**. With UDECX the only limitation is your imagination.

UDECX IDEA 4

200 Square Feet with Accent Railing

200 SQFT WITH ACCENT RAILINGS

UDECX is the perfect solution to **extend an existing patio to create your dream outdoor living space**. The modular components allow for you to create specific areas for things like a grilling area and a seating areas that can be defined with the optional railing. Add an outdoor rug to dress up you patio/deck.

UDECX IDEA 5

100 Square Feet plus additional Pad and 8 Risers

100 SQFT PLUS ADDITIONAL PADS AND RISERS

The modular design makes **UDECX** an ideal portable decking solution for **RV's, modular homes and trailers**. Whether you are setting it up for a weekend, a season or permanently, UDECX makes it easy to create an outdoor living area that can be disassembled and taken with you to your next adventure.

UDECX IDEA 6

400 Square Foot Multi-level

400 SQFT MULTI-LEVEL

UDECX is a great solution for your seasonal vacation home or rental. The modular design allows you to create sidewalks, raised patio sections and more. The system comes apart as easily as it goes together, so that at the end of the season you can take it up and move it inside until you are ready to set it up again next year.

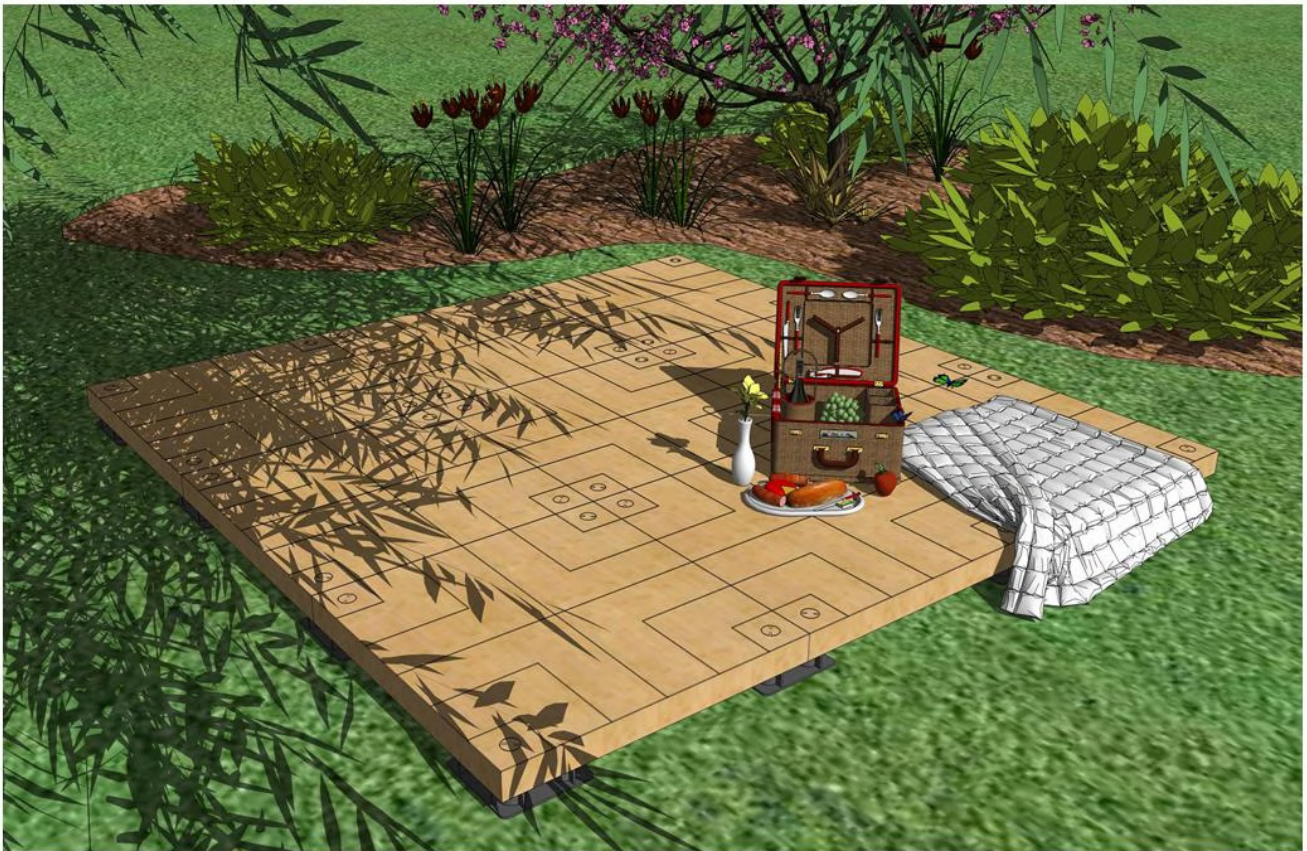

UDECX IDEA 7

100 Square Feet with Standard Railing on 3 sides

100 SQFT WITH STANDARD RAILING ON 3 SIDES

Many new homes come with just a single step off of an entry or back patio doors. **UDECX is the simple solution to create a patio entry – with or without railing – in just a day.** The modular design means you can start small and expand it in the future as you and your family's needs change.

UDECX IDEA 8
100 Square Foot Kit

100 SQFT KIT

Be it a **deck for a family reunion or a dance floor for an outdoor wedding**, UDECX is the solution you have been looking for. You can set it up for a special event and then store it until you need it again. The modular components make it as easy to disassemble as it is to set up providing you a portable floor solution.

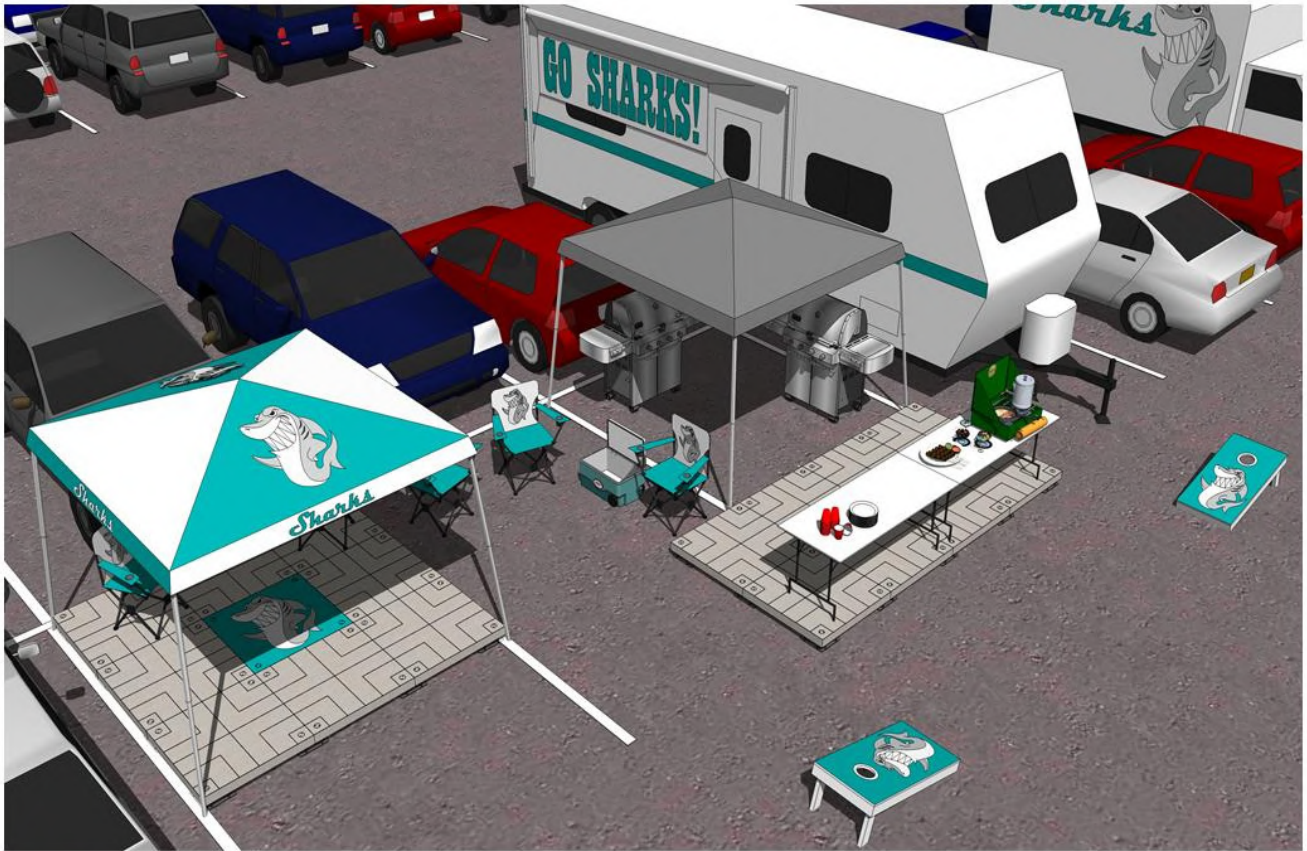

UDECX IDEA 9

100 Square Foot Kit plus 5 Pads and 9 Piers

100 SQFT KIT PLUS 5 PADS AND 9 PIERS

UDECX is the patio solution that moves with you. Unlike traditional decks or patios UDECX allows you to take your investment with you when you move. **UDECX is just right for mobile homes, modular homes, tiny homes and apartments as well.**

UDECX IDEA 10
Two 100 Square Foot Kits

2-100 SQFT KITS

Take tailgating to the next level with UDECX. The portable design means you can take the party with you, set it up and then move on to the next venue. The elevated pads get you out of the mud and water in the rain.

1-100 SQFT KIT PLUS 6 PADS AND 9 PIERS

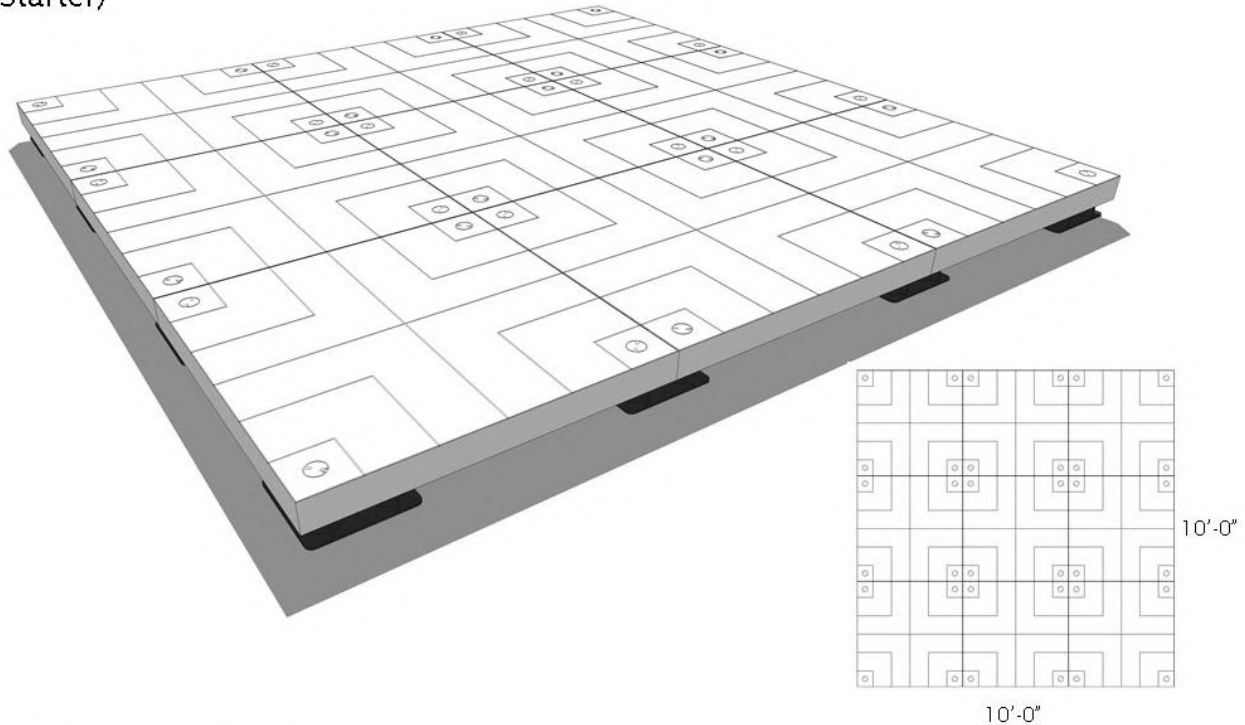

How about a floor for your shed? UDECX is a great alternative to a plywood floor (they don't hold up over time) or pouring a concrete pad (permanent and probably requires a contractor). Just build your UDECX floor, place your shed on it and secure it to the floor. Need to move your shed? No problem, just relocate the floor and reconnect the shed! The elevated pads get your shed up out of the mud and water in the rain. And, never any mildew. Easy to clean — just use soap and water. UDECX is revolutionizing the way shed floors are being implemented!

UDECX DESIGN TEAM PLANS
