

TECHNOLOGY

CHANGING HUNTING OUTCOMES FOR THE BETTER

BIG IDEAS FOR BETTER HUNTS

TRAIL CAMERAS

EXPOSURE CONTROL

Three exposure settings allow you to select the perfect blend of image clarity and distance that works for you.

SILENT SHIELD™ TECHNOLOGY

Every camera action has been engineered with Silent Shield™ technology. This means your camera goes unnoticed by nature, and that big buck keeps coming back.

ZERO DETECTION

Zero noise, zero detection. Keep camera operations completely silent so you capture natural wildlife behavior without any alert.

LIGHTSOUT™ TECHNOLOGY

Lightsout™ technology uses invisible IR LEDs with an extended range to maintain concealment when capturing flash images.

TRU-DUAL CAM™

Two are always better than one. Dual cameras – one optimized for day and one for night – give you digital HD photos with superior clarity.

ATTRACTANTS

AIRBORNE TECHNOLOGY™

Airborne attractants disperse 600% more scent molecules than ordinary attractants. If you can smell the potency of these products – just think what it smells like to game.

PROTEIN & FAT CONTENT

Attractants don't just train game to find your spot; they become an integral part of animals' health by feeding them ample protein and fat to bulk up to trophy status.

GLO-COTE

Glo-Cote® uses ultraviolet enhancement to give attractants an added neon-blue glow that game can see, but humans can't.

FLAVOR PROFILES

We know what brings game to dinner. Flavor profiles of apple, persimmon, corn, chestnut, sugar beet, molasses and acorn make our attractants irresistible.

FEEDERS

VARMINT GUARD

Protect your unit and eliminate feed waste with this rigid varmint guard that encases everything you don't want nature messing with.

WELDED CONSTRUCTION

These heavy-duty designs won't wear or tear because we built them good and strong. Welded construction models are our most durable feeders yet.

POLY BARREL CONSTRUCTION

Dependable and effective yet mobile: poly barrel feeders are light enough to easily move and test multiple feeding locations.

QUICK ASSEMBLY

Quick assembly feeders require minimal effort and only steal 15-20 minutes of your time before they're fully operational.

ULTRA-STRONG SQUARE LEGS

The square shape plus a powder-coating on tube legs is two-folds beneficial – adding both stability and strength.

ZERO+ TRACE™

PureION™

Science beats scent.

ZeroTrace™ safely reduces human scent - with none of the damaging effects of harsh oxidation to your health or gear. Now you can get closer to the action without detection.

HOW IT WORKS

Using PureION™ Technology, ZeroTrace™ disperses positive and negative ions.

Those ions attach to the odor molecules in your orbit.

The molecules are then neutralized and taken out of the game.

SAFE

- + The ZeroTrace™ PureION™ Field Generator makes scent control safe to breathe and safe on gear.
- + ZeroTrace™ generators are the only in-field scent elimination system using plasma ions to neutralize human scent.
- + PureION™ technology safely distributes molecules without the health risks of ozone.

DISCREET

- + Compact unit easily mounts above stand or blind to deliver continuous concealment from game.
- + Ultra-quiet fan evenly spreads ion particle flow.
- + The durable, textured housing conceals the ZeroTrace™ generator, and with a secure mount, it will surely fit any setup in the field.

CONVENIENT

- + ZeroTrace™ scent elimination generators are powered by a rechargeable battery for up to 6 hours of continuous aircover - up to 8-12 hours with use of the included second battery.
- + Standard purchase includes two rechargeable battery packs and USB charging cable.
- + Lightweight with adjustable mount that fits any setup; perfect for the stand or in the blind.

IMAGERY WITH INTELLIGENCE

The Advantage You've Been Waiting For

INFO IS THE
BEST AMMO.

Through an exclusive partnership, the newest trail cameras from Wildgame Innovations now integrate with HuntStand, the industry-leading property and asset management system. With select trail cameras, you can directly sync your photos with weather, solunar and geolocation data to build a behavioral profile that will pinpoint that trophy buck.

Exclusive HuntStand Features **ONLY** Available to Wildgame Users

Designed to work both on and offline, HuntStand is packed with invaluable data for hunting properties, land management, boundaries, mapping, weather, tracking and social features – all vital to the success of your hunt. Pair these features with Wildgame Innovations trail camera data, and you'll have the ultimate edge not just on game, but also your hunting buddies.

Easily import photos into the cutting-edge HuntStand ecosystem

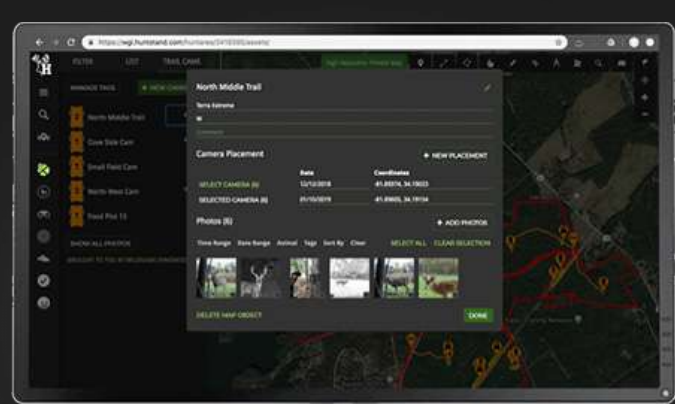

Receive 40 GB of free storage space for your photos

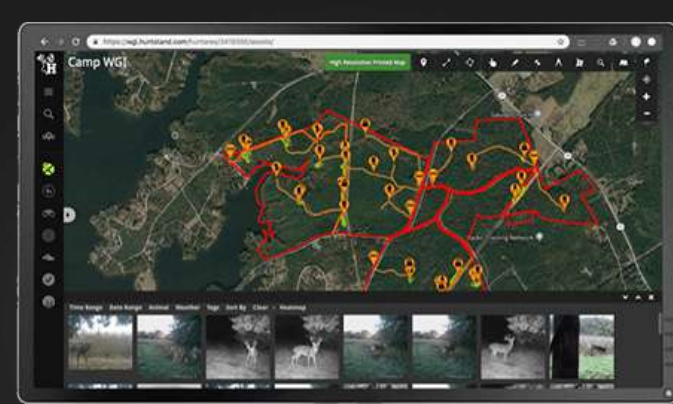

WILD ORGANIZATION

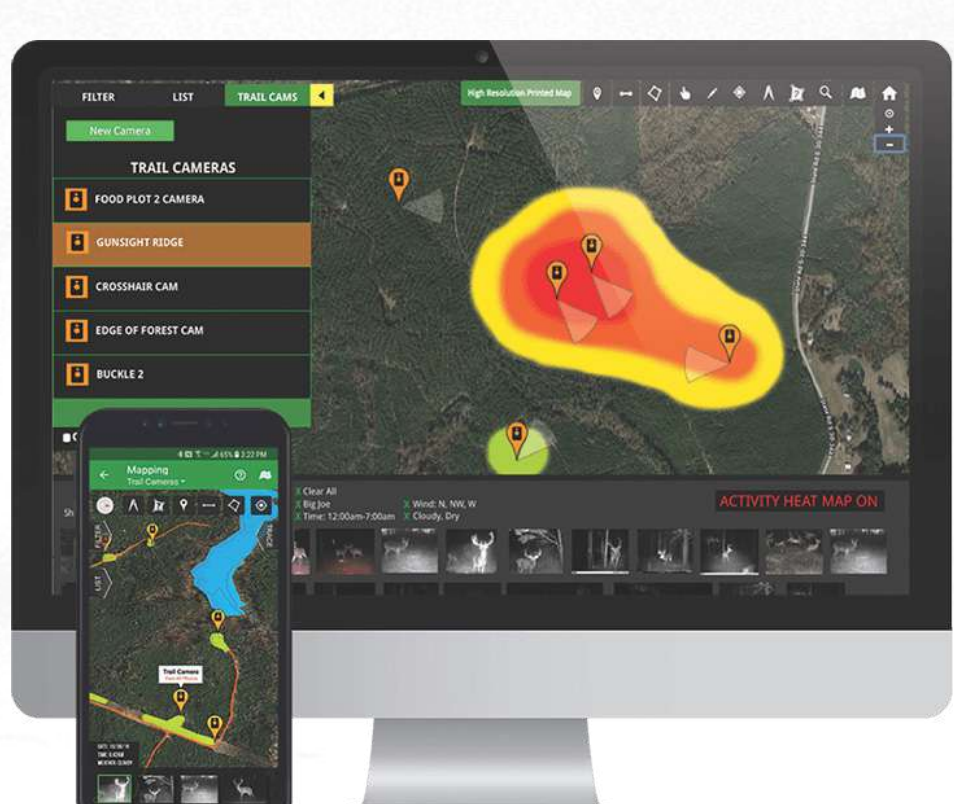

View, sort and organize trail cam photos like never before

Create unique tags to categorize photos in groups

Auto-load photos to saved camera locations

- View a detailed heat map of game activity on your property
- Link photos with weather and solunar conditions
- Use advanced filters to drill down into your photos
- View game movement predictions based on past activity

View all trail cameras with HuntStand integration

Only Wildgame users can unlock these exclusive HuntStand features. Create your free HuntStand account on your desktop or mobile device. Then register your new camera at HuntStand.
