HuntStand™

EXCLUSIVE INTEGRATION

▶ The advantage you've been waiting for. The HuntStand™ interface now syncs your Wildgame images with weather, solunar and geolocation data to build a behavioral profile, showing you when and where to expect those hit-list bucks. Only Wildgame customers can unlock this feature, letting you keep your eye on the prize, from anywhere.

- View a detailed heat map of game activity and movement predictions
- Easily import and sort new or existing photos using unique tags
- Manage multiple setups with 40 GB of free storage space

CAMERA TECHNOLOGY

EXPOSURE CONTROL

Three exposure settings allow you to select the perfect blend of image clarity and distance that works for you.

SILENT SHIELD™ TECHNOLOGY

Every camera action has been engineered with Silent Shield™ technology. This means your camera goes unnoticed by nature and that big buck keeps coming back.

ZERO DETECTION

Zero noise, zero detection. Keep camera operations completely silent so you capture natural wildlife behavior without any alert.

LIGHTSOUT™ TECHNOLOGY

Lightsout™ technology uses invisible IR LEDs with an extended range to maintain concealment when capturing flash images.

TRU-DUAL CAM™

Two are always better than one. Dual cameras – one optimized for day and one for night – give you digital HD photos with superior clarity.

ADAPTIVE ILLUMINATION

This enhancement automatically adjusts the amount of illumination based on the camera's distance to a target ensuring a perfect exposure every time.

FEEDER TECHNOLOGY

VARMINT GUARD

Protect your unit and eliminate feed waste with this rigid varmint guard that encases everything you don't want nature messing with.

WELDED CONSTRUCTION

These heavy-duty designs won't wear or tear because we built them good and strong. Welded construction models are our most durable feeders yet.

POLY BARREL CONSTRUCTION

Dependable and effective yet mobile: poly barrel feeders are light enough to easily move and test multiple feeding locations.

QUICK ASSEMBLY

Quick assembly feeders require minimal effort and only steal 15-20 minutes of your time before they're fully operational.

ULTRA-STRONG SQUARE LEGS

The square shape plus a powder-coating on tube legs is two-folds beneficial – adding both stability and strength.

CORN OR PELLET FEED

Fill your feeders with plenty of corn or pellet feed without worrying about clogs or hang-ups.

ATTRACTANT TECHNOLOGY

AIRBORNE TECHNOLOGY™

Airborne attractants disperse 600% more scent molecules than ordinary attractants. If you can smell the potency of these products – just think what it smells like to game.

PROTEIN & FAT CONTENT

Attractants don't just train game to find your spot; they become an integral part of animals' health by feeding them ample protein and fat to bulk up to trophy status.

GLO-COTE®

Glo-Cote® uses ultraviolet enhancement to give attractants an added neon-blue glow that game can see, but humans can't.

FLAVOR PROFILES

We know what brings game to dinner. Flavor profiles of apple, persimmon, corn, chestnut, sugar beet, molasses and acorn make our attractants irresistible.

NEW

SHADOW LIGHTSOUT™ MICRO CAM

The Shadow Micro Cam Lightsout™ wins every category when it comes to concealment. But its biggest trick is actually small. With a footprint of just 7.5 square centimeters, the micro cam practically disappears when mounted to a tree or fence post.

Other methods of disguise: Trubark HD™ wraps the trail camera in camouflage with a tree-like texture, Silent Shield™ quiets all camera operations, and Lightsout™ technology illuminates with an invisible flash. Undetected by big bucks and camera thieves alike, the Shadow Micro Cam Lightsout will be left alone to deliver incredible 16-megapixel images and HD 720p videos.

MEGAPIXELS	ILLUMINATION RANGE	ILLUMINATION TYPE
16 MP	80 FEET	42 INVISIBLE BLACK LEDs
TRIGGER SPEED	VIDEO RESOLUTION	FINISH
> ½ SEC	720p HD	TRUBARK HD

- + Unique micro shape reduces footprint for easier concealment
- + Dimensions 75mm x 75mm x 51.7mm
- + Multi-layer dot matrix LCD for easy programming
- + Backlit display for improved visibility in low light

NEW

SHADOW MICRO CAM

Sometimes the best things come in small packages. And this is one of those times. The Shadow Micro Cam has a footprint of just 7.5 square centimeters, but still manages to deliver 16-megapixel images and HD 720p videos.

What else can this little camera do? Just about everything. Adaptive illumination and exposure control automatically adjust for incredible image quality so you never miss a tine or a tail. The Shadow Micro Cam easily mounts to any tree or fence post and stays concealed with its small size and TruBark HD camo. It's truly unlike any other trail cam out there.

SILENT CAM LIGHTSOUT™

360° CAM

Say goodbye to the four cameras you use to cover your favorite hunting spot, because you only need one camera to get the job done now. The 360° Cam revolutionizes image capturing by turning the traditional scouting camera model on its head – or more accurately, turning it in every direction.

The unique swivel design moves the camera to wherever the action is so you get a full 360-degree view of the space. And not just close-range either; 36 high-intensity LEDs pack 80 feet of illumination range. Capture high-quality photos and videos at any time, in any direction with the 360° Cam.

MEGAPIXELS	ILLUMINATION RANGE	ILLUMINATION TYPE
12 MP	80 FEET	36 INFRARED LEDs
TRIGGER SPEED	VIDEO RESOLUTION	FINISH
1.5 SEC	720p HD	TRUBARK

- + Monitor game activity 24/7 from every angle
- + Captures HD photos and videos (up to 30 seconds)
- + Wide angle 16:9 aspect ratio option
- + Water-resistant housing combats weather
- + T-Post mounting bracket and mounting strap provided for easy installation
- + Exposure control settings for improved clarity

The Silent Cam 30 Lightsout™ debuts some of the most innovative technology ever to come out of Wildgame Innovations. The goal for this camera was stealth, silence and superior quality. The Silent Crush 30 Lightsout is all that and more.

This camera is so discreet, it's tough to spot even if you're looking. It uses Zero Detection™ technology so there's no noise – period. Another new feature is the Tru-Dual Cams™. Rather than attempting to achieve optimum day/night images with one camera, the Silent Cam 30 Lightsout uses two cameras to get the job done right. The day camera promises crisp, radiant images and videos, and the night camera captures strikingly vivid images and videos with reduced nighttime blur. The ½ second trigger is indiscernible, the Lightsout™ infrared LED flash is completely invisible and the 30MP image quality is unmatched.

MEGAPIXELS	ILLUMINATION RANGE	ILLUMINATION TYPE

MIRAGE™ 18 LIGHTSOUT™

Your eyes aren't fooling you; trail cam photos and videos really can look this good at an affordable price. The Mirage 18™ Lightsout™ offers a sharp 16-megapixel camera paired with superior nighttime image capturing capabilities. Exposure Control makes it easier to find the right combination of clarity and distance depending on your camera's location. You'll get the same quality results with 720p HD videos, too.

Once you've found the right spot and the right settings, sit back and let the Mirage 18 Lightsout do the rest of the work. The camera reacts with a trigger speed less than ½ second, and stays quiet with Silent Shield™ technology. The added benefit of Lightsout™ technology further maintains the camera's concealment with a 42-piece invisible infrared flash.

TRAIL PAD TABLET

The Trail Pad Tablet looks and performs like a tablet, with HD images and videos filling the oversized 7-inch touch screen. But this isn't just any other tablet. It's a hunter's tablet – specifically designed to cater to all your game tracking needs.

The weather-resistant tablet features dual, standard size SD card ports to sift through the hundreds of images and videos that every hunting season brings. Insert an SD card from your favorite trail cam into the library port to view every deer, hog and turkey in HD quality. When you like what you see, send it over to the archive. This stores the best of the best on a second SD card so you can easily keep tabs on a single animal or the entire herd. That's right: no more endless scrolling to find that one picture you want to show your buddy. Ultimate bragging rights are within view.

- + Oversized 7-inch HD backlit TFT touch screen
- + Zooms, swipes and navigates just like other tablet devices
- + Dual SD card reader simplifies in-field file viewing and organization
- + Primary port houses SD card with full library of images and videos
- + Secondary port saves favorites to designated archive SD card
- + Built-in speaker supports audio during video playback
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Holds two SD cards up to 32GB each (not included)
- + Auxiliary and micro USB ports for computer and/or TV viewing (cords not included)

TRAIL PAD SWIPE

The Trail Pad Swipe SD card reader allows you to review images and videos directly from your game cameras. Equipped with a heavy-duty, water-resistant housing and a compact, lightweight design, the Trail Pad Swipe can easily trek into the field with you. No cords are required; simply load an SD card into the Trail Pad Swipe to start viewing. You'll find files neatly organized on a bright LCD screen so you can run through all the action your cameras have seen. Instantly view photos and watch videos with a user-friendly touch screen and easy-access buttons. The touch screen even has a zoom feature so you can count every tine.

- + Handheld media viewer for in-field use
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Touch screen and push-button navigation
- + Zoom in/out functionality
- + Holds up to 32 GB sd card
- + Auxiliary and USB ports for computer and/or TV viewing (cords not included)
- + Up to 32 GB SD card and 4 AAA batteries required (not included)

SCENT CONTROL

NEW

ZEROTRACE™

PureION™

Mature game are mature for a reason – they're crafty and always use the elements to their advantage. Our hunters do the same.

With Wildgame Innovations' newest technology, hunters can breathe easy when it comes to scent control. The ZeroTrace generator with PureIon technology is the smart choice for reducing human scent without the damaging effects to your health or your gear. Current in-field methods rely on harsh oxidation, while ZeroTrace harnesses the primal power of nature's best hunter...the ion molecule. Small but mighty, ions seek out and obliterate nearby scent particles and airborne impurities before game can catch your drift. That means more grade-A chances for you.

Hunting is both an art and a science. And when the stakes are this high, every molecule counts. ZeroTrace makes you disappear with the push of a button, as millions of ions wash over your zone to neutralize the air between you and your target. The portable unit mounts easily above your stand or to your ground blind for continuous cover. Turn the tables on Mother Nature with ZeroTrace.

- + Ultra-quiet fan spreads healthy ion particle flow
- + Re-chargeable battery pack with USB port
- + Approx. 6 hours of battery life
- + Durable TRUBark™ texture for additional concealment
- + Lightweight with adjustable magnetic mounting unit

TREEHUGGER™

The Treehugger™ is a low-maintenance feeding solution that sets the dinner table all on its own. We used long-lasting PVC material to construct a durable gravity feeder that attaches to any tree in under five minutes. Simply loop the integrated straps around a tree trunk and secure with the heavy-duty buckle. The Treehugger will take care of the rest, naturally replenishing feed as game consumes it. And you can fill it with just about whatever feed you want: corn, attractants, protein, mineral or a combination.

Easy setup and a lightweight design make the Treehugger perfect for hard-to-reach areas that don't have a lot of space, like backwoods or swamps. Use this simple, streamlined feeder to test a potential feeding site and move it as often as you like until you find the right spot. With a hoof-licking-good food source overflowing all over the ground, deer will be sure to find it wherever you choose.

MOONSHINE™ 2

The Moonshine™ motion-activated feeder light solves many of the problems night hunts can present. Attach to your favorite feeder, and it will illuminate anything that trips the PIR motion sensor in green light. An integrated solar panel keeps the lithium ion battery charged so no additional parts or batteries are needed. Ideal for hunting nocturnal game like predators and hogs.

- + For hog and predator hunting
- + Easy installation for any feeder
- + Setup hardware included
- + PIR activated
- + Built-in solar panel
- + On / Off switch when not in use
- + 16 green LED light system
- + Weather resistant design
- + Built-in lithium ion battery
- + Includes mounting screws

TROPHY TAPE™

Take the guessing out of your trophy story. Wildgame Innovations' Trophy Tape™ modernizes game scoring with an easy-to-use system that eliminates tedious math and time-consuming steps. Simply tape along the tines using the provided instructions to quickly and accurately reach your gross score. In less than five minutes, you've got a number to brag about and some jealous buddies wondering how you managed to pull it off.

Each pack contains three rolls of 200-inch tape, so you can get three healthy whitetail scores and still have tape left for blood trailing or trail marking. The bright orange stands out even in low light. Put Trophy Tape™ in your pack on your next hunt, and you'll wonder how you ever hunted without it.

- + Fool-proof trophy scoring system
- + No math required
- + Fast, simple and accurate

VANISH™ FACE PAINT COMBO

Breaking up the symmetrical structure of your face and minimizing skin glare: these are two key elements to remaining hidden from a wary old tom or mature buck. The Vanish™ Face Paint Combo includes a matte black, non-greasy face paint and 20 pre-moistened cleansing pads that hit both of those elements with high marks.

The paint is odorless so it keeps your scent concealed in addition to your appearance, and the moisture-resistant formula ensures that whether you're sweating bullets or drenched in a downpour – your disguise holds true. When your work is done, easily remove the paint in the field or back at camp with the provided cleansing pads.

- + No-shine matte paint stick
- + Non-greasy formula won't clog pores
- + Face wipes included for easy removal

COMMANDER WAR PAINT®

Phil, Willie and the Duck Commander® crew know that a successful hunt begins before you've even set foot in the field. Concealment is essential, but face masks can be awkward and uncomfortable. To solve this problem and still find success in the field, the guys created face paint camo. Commander War Paint® adds a level of authenticity to camouflage with three gritty, field-tested colors that create natural facial shading. The face paint is easy to apply and comes off just as easily with soap and water.

- + Three colors for ultimate concealment
- + Easy application
- + Washes off with soap and water

WILD ESTRUS™ BURST

Nothing gets the attention of a mature buck faster than the scent of a hot doe; Wild Estrus Burst™ puts that power in your hands. The aerosol attractant effectively calms deer during the off-season and becomes irresistible during the rut. Deer have nearly 300 million scent receptors, and they'll go wild with this pure scent – especially since it uses Airborne Technology™ to pack as much potency as possible into each vapor burst. Plus, the addition of Glo-Cote® means deer can not only smell it, they can see the UV-enhanced visual attractant, too.

- + Newly designed micro-nozzle quietly distributes potent vapor
- + Pressurized at the peak of freshness
- + Releases up to 600% more scent molecules than ordinary attractants

YOUNG BUCK BURST™

The biggest bucks do whatever it takes to stay at the top. Now you can challenge their territorial instincts with Young Buck Burst. This easy-to-use scent loads 100% pure young buck urine into a pressurized aerosol can at peak freshness. Easily disperse via the mess-free nozzle to freshen scrapes and hanging lures. This powerful attractant disperses in a super-fine mist with almost zero noise. It works year-round to establish a scent corridor that piques deer's curiosity to pull them in from long distances.

- + Precise spray prevents mess on skin or gear
- + Effective all season long – especially pre-rut and rut
- + Brings in dominant bucks

ACORN RAGE™ BURST

We all have different strategies when it comes to patterning and holding game. One thing we can all agree on: deer love acorns. Acorn Rage® Burst crams 100 bursts of super potent acorn scent into an easy-to-use aerosol can. The precise micro-nozzle quietly directs the spray exactly where you want it – not on skin, clothes or gear. A single drop immediately dissolves into 3,000 particles to send an irresistible acorn aroma traveling far and fast. It's incredibly powerful, and it's a scent they'll love all year long.

- + Precise spray prevents mess on skin or gear
- + Doubles as cover scent
- + Quiet spray nozzle

ACORN RAGE®

Deer have been known to abandon corn, wheat and even lush foot plots in the name of one of their favorite meals: acorns. Acorn Rage® feeds their obsession with 100% real crushed acorns blended with roasted soybean to create a long-lasting attractant that's as nutritious as it is palatable. Airborne Technology™ disperses 600% more scent molecules than ordinary feed grains to cover super long distances with incredible speed. Acorn Rage comes ready to use straight out of the bag and effectively attracts deer year-round.

- + Real acorns crushed and blended with roasted soybean meal
- + Pure acorn scent and flavor packed with rack-building nutrients
- + Airborne Technology™ creates long-range scent vapor trail

ACORN RAGE FEEDER FAT™

It's no secret real acorns provide highly palatable, widespread forage that deer find irresistible. These acorns are also high in fat – four times more than corn. Acorn Rage® Feeder Fat™ can be added to corn feeders to help you bulk up deer's diets. It also gives deer additional nutrients they need to grow trophy racks. They'll want it for the delicious acorn taste, but the true benefits lie in the fat, protein, fiber, calcium and vitamins in each bite. You'll see the difference when you get your hands on that rack.

- + Concentrated pellet made with real acorns
- + 4x more fat than corn
- + Treats up to 80 pounds of corn

SIZE	MODEL	UPC
5 LB BAG	FG-00086	8 55018 00086 9

CHESTNUT RAGE®

Chestnuts have been a staple in deer diets forever; today's deer crave them just as much as the deer who roamed North America thousands of years ago. Chestnut Rage® uses the power of real chestnuts that are harvested, crushed and mixed with roasted soybean meal to lock-in an authentic scent and taste. Buck Commander® trusted and approved, Chestnut Rage is as nutritional as it is powerful – with more than 18% protein and 13% fat content. The addition of phosphorus will also keep your herd healthy and your bucks' racks growing.

- + Uses real chestnuts to attract deer to your property
- + Blended with essential minerals and proteins to build stronger deer
- + Acts quickly to pattern deer

PEANUT RAGE®

Peanuts can be an expensive attractant strategy, leaving many hunters without the benefits of a deer favorite. Now you can unleash irresistible peanut attraction power to send 'em into a hunger-crazed rage. Peanut Rage™ pulverizes real peanuts into a nutrient-rich blend of roasted soybeans that will not only draw deer in, but keep them coming back for more. This proprietary formula integrates rack-building nutrients – including up to 20% protein.

- + Uses real peanuts to attract deer to your property
- + Blended with essential minerals and proteins to build stronger deer
- + Acts quickly to pattern deer

SUGAR BEET CRUSH™

Sugar beets are incredibly effective at attracting and drawing in deer. The problem is they grow seasonally and only in certain regions, making them hard or even impossible for hunters to find. Wildgame Innovations made the impossible possible with an ultra-concentrated attractant using real sugar beets: Sugar Beet CRUSH®. Airborne Technology™ sends 600% more scent molecules than ordinary feed grains for unparalleled attracting power. Sugar Beet CRUSH comes chock-full of protein and fat to build strong, healthy deer and will satisfy that buck's sweet tooth to bring him in from miles away.

- + Real sugar beets crushed and blended into an ultra-concentrated attractant
- + Captures one of deer's favorite treats that can be difficult to find
- + Airborne Technology™ creates long-range scent vapor trail

PERSIMMON CRUSH™

Lee Lakosky loves hunting over persimmons more than anything, but they're difficult to find and often messy or inconvenient to use. Now there's Persimmon CRUSH™ – combining the natural attracting power of real persimmons with a high-protein, carbohydrate-packed proprietary base. The powder is double screened to create a finely sifted formula that absorbs and releases with long-range, in-your-face power. Airborne Technology™ adds more distance and speed by distributing 600% more scent molecules than ordinary feed grains. All that with an irresistible persimmon taste makes this one of the most incredible attractants ever.

- + Proprietary double-screening process creates fine powder that absorbs and releases more potent scent
- + Airborne Technology™ creates long-range scent vapor trail
- + Ultra-high fat content and carbohydrate blend

MEAN GREENS™

Food plots take time to grow and energy to maintain. Skip the hassle with the power of a food plot concentrated into one easy-to-use feeding solution. Mean Greens™ begins working immediately, with Airborne Technology™ sending super potent scent trails to draw in deer from all over. Our proprietary formula supplements deer diets with vitamins and nutrients in a natural-tasting powder that's easy to digest.

- + Power of a food plot ground into a nutrient-rich feed
- + Generates antler growth and improves overall herd health
- + Airborne Technology™ creates long-range scent vapor trail

SIZE	MODEL	UPC
5 LB BAG	FG-00463	8 50695 00463 6

VANISH™

Don't give away your spot with an obvious attractant; you need something discreet to draw in and hold deer in a place only you know how to find. Vanish™ entices deer to camera locations and hunting spots with the power of pitch-black persuasion. A proprietary formula years in the making, Vanish is a high-powered, long-range attractant that's as stealth as it is lethal.

The powder is a highly palatable blend of protein, fat and complex carbohydrates that deer not only crave, but need for sustained overall health. Vanish delivers enhanced levels of security to hunters worried about camera theft and other forms of human intrusion. Its charcoal-gray formulation virtually disappears when deployed – ensuring that big buck will find it, while uninvited guests won't.

- + Low-visibility blackout formulation
- + Airborne Technology™ creates long-range scent vapor trail
- + High protein and fat content

SIZE	MODEL	UPC

HOG HEAVEN®

Most landowners, farmers and hunters have their own first-hand accounts of the damage feral hogs can cause. Everyone wants to solve this problem, but it's a tough one to tackle. Hogs can be difficult to pattern because of their large home range, acute senses of smell and opportunistic feeding habits. That last part is where we can help: hogs are always hungry.

Hog Heaven™ uses a proprietary mixture of grains and a super-sweet fruit punch additive that will draw them in for miles. This powerful granular attractant will help you attract, pattern and trap hogs in your area as they fight over every last morsel of this heavenly treat. If you're after an attractant that hogs simply can't resist – Hog Heaven is the answer to your prayers.

- + Most effective hog draw on the market
- + Manage unruly populations of intelligent and destructive hogs
- + Premium mix of the berry flavors hogs love

BUCK SNORT™ APPLE

Deer won't be able to get enough of Buck Snort™. Our proprietary formula disguises minerals in a highly concentrated liquid that smells and tastes just like real apples. Simply flip the lid, squirt where you want it, and watch the deer come sniffin'. You'll have a patterned, healthy herd faster than you can say "Wildgame Innovations." Works year-round for incredible attraction power.

- + Irresistible apple aroma
- + Flip top cap for easy, mess-free application
- + Super dense mineral concentration
- + Quickly establish hoof traffic to your favorite spot
- + Incredibly long lasting
- + Starts working immediately

SIZE	MODEL	UPC
40 OZ BOTTLE	FG-00460	8 50695 00460 5

CORNFUSED™

There may not be actual corn at the end of this scent trail, but deer will think there is with the power of a whole corn bushel packed into one bottle. CornFUSED™ scent attractant is incredibly effective at initiating new food plots and feeding areas. The plastic bottle easily fits into a pack for simple transport. Simply flip the lid and begin squirting to send deer in your direction.

By keeping things simple at the start, you can test an area before hauling heavy feeding supplies to a new spot. CornFUSED will establish heavy hoof traffic quickly so you can build your feeding strategy around a deer population that's already patterning. You can also spread it around stands to draw deer in for a hunt. The highly concentrated corn scent is made without real food ingredients, making it legal in most states.

- + The power of a corn bushel in one bottle
- + Legal in most states; no food ingredients
- + Flip-top cap for easy application

SIZE	MODEL	UPC
40 OZ BOTTLE	FG-00013	8 55018 00013 5

REACTOR™

No need to choose between liquid and powder attractants when Reactor™ lets you use both for double the power. Reactor's liquid and powder formulas undergo a phase change when mixed – immediately transitioning into a potent vapor and a slow-soaking foam that eventually hardens into a crust of rack-building minerals. This triple-action attraction paired with Airborne Technology™ releases up to 600% more scent molecules than ordinary salt or grain attractants. You'll notice how potent the apple aroma is, and so will deer. But it doesn't just have potency on its side; it has longevity, too. Reactor's mineral content sticks around for up to 45 days to draw in deer from distances you never thought possible.

- + Our most aromatic and concentrated mineral ever
- + Releases up to 600% more scent molecules than ordinary salt/grain attractants
- + Crystallized minerals hold attractant power for up to 45 days
