

Matte Lighters

The first matte lighter (black) was introduced into Zippo's stock line in 1984. Soon after the first introduction of the matte lighter four more colors were introduced: blue, burgundy, green, and grey. In 1985, the Zippo logo was imprinted on the lighter and a border was added.

All Zippo windproof lighters are American made in our Bradford, PA factory.

How are they made?

The Matte Lighters are created with a powder coat that is applied electrostatically to the brass case. All Zippo windproof lighters are made in our factory in Bradford, PA.

Characteristics

- Powder Coat Finish
- Lasered Hinge
- Lasered Bottom
- Refillable
- Windproof
- Made In USA

Why we love them

- The matte finish gives the lighter a smooth texture
- The matte finish does not show fingerprints
- The matte lighter does not scratch as much as the chrome and brass finishes
- There are a variety of colors to choose from
- It is a great everyday lighter

Features

Case

The matte lighters have a standard case shape featuring rounded corners and top with a flat bottom. The exterior of the case has a smooth matte finish that is applied with a powder coat.

A distinctive lasered five-barrel hinge authenticates this lighter as genuine Zippo.

Insert

The matte lighter has a standard insert with 16 holes in the chimney (8 per side).

Bottom Stamp

The matte lighter has a distinctive lasered bottom stamp authenticating this matte lighter as genuine Zippo.

Packaging

Unless otherwise stated, every Zippo windproof lighter is packaged in the 'one box'. The patented 'one box' is attractive, easy to handle, and designed to display more of the lighter than ever.

Rely on premium camp kitchen products by Zippo if you're looking for quality and efficiency.
